Millsaps College admits students of any race, color, religion, sex, sexual orientation, and national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students of the College. It does not discriminate on the basis of race, color, sex, sexual orientation, or national or ethnic origin in administration of its educational policies, admissions policies, scholarships and loan programs, and athletic and other school-administered programs. No handicapped person is, on the basis of the handicap, excluded from participation in, denied benefits of, or otherwise subjected to discrimination under any program, employment, or activity at Millsaps College. For information regarding the Americans with Disabilities Act, see the Vice President and Dean of Students.

This bulletin presents information regarding admission requirements, courses, degree requirements, tuition, fees, and the general rules and regulations of the College that was as accurate as possible at the time it was published. Changes, however, will be made in this bulletin over time. If such changes occur, they will be publicized through normal channels and will be included in the bulletin of the following printing.

The Millsaps Purpose

Founded in 1890, Millsaps College is a community committed to trust in disciplined learning and the ideals of a liberal arts education as keys to a rewarding life.

In keeping with its character as a liberal arts college and its historic role in the mission of The United Methodist Church, Millsaps seeks to provide a learning environment that increases knowledge, deepens understanding of faith, and inspires the development of mature citizens with the intellectual capacities, ethical principles, and sense of responsibility that are needed for leadership in all sectors of society.

The programs of the College are designed to foster the growth of independent and critical thinking; individual and collaborative problem-solving; creativity, sensitivity, and tolerance; the ability to inform and challenge others; and an appreciation of humanity and the universe.

Millsaps College is committed to the following objectives through its academic program, support services, and outreach to the wider community:

Academic Program

- to select well-prepared students of diverse social, ethnic, geographical, and age backgrounds;
- to provide for all undergraduates an integrated core curriculum that is designed to foster student development in reasoning, oral and written communication, quantitative thinking, historical consciousness, aesthetic judgment, global and multi-cultural awareness, and valuing and decision-making;
- to provide opportunities for study in depth and the development of disciplinary competencies in undergraduate programs;
- to provide a graduate program in business with a general management outlook that develops future leaders and expands the body of knowledge in the practice of management;
- to foster a caring community that nurtures open inquiry and independent critical thinking;
- to structure opportunities for students to become competent in self-assessment of their academic progress;
- to recruit and retain a faculty well-qualified to support the academic program;
- to provide faculty with resources for professional development in teaching, scholarship, and research.

College Support Services

- to provide physical and financial resources sufficient to support the College mission;
- to support the personal development of students through a program of counseling, student organizations, and social activities;
- to provide activities and facilities for the enhancement of student physical well-being;
- to provide for the aesthetic enrichment of students through a program of cultural events;

to foster the religious development of students through a program of campus ministry; to provide library and computer resources for student learning and research that adequately support the academic program; to foster a safe and secure campus environment; to maintain an organizational structure that supports participation in college governance by students, faculty, staff, alumni, and administration, subject to procedures and policies approved by the Board of Trustees; to assess as needed the ongoing activities and programs of the College and to use those continuing assessments in planning and implementing college policies and activities.

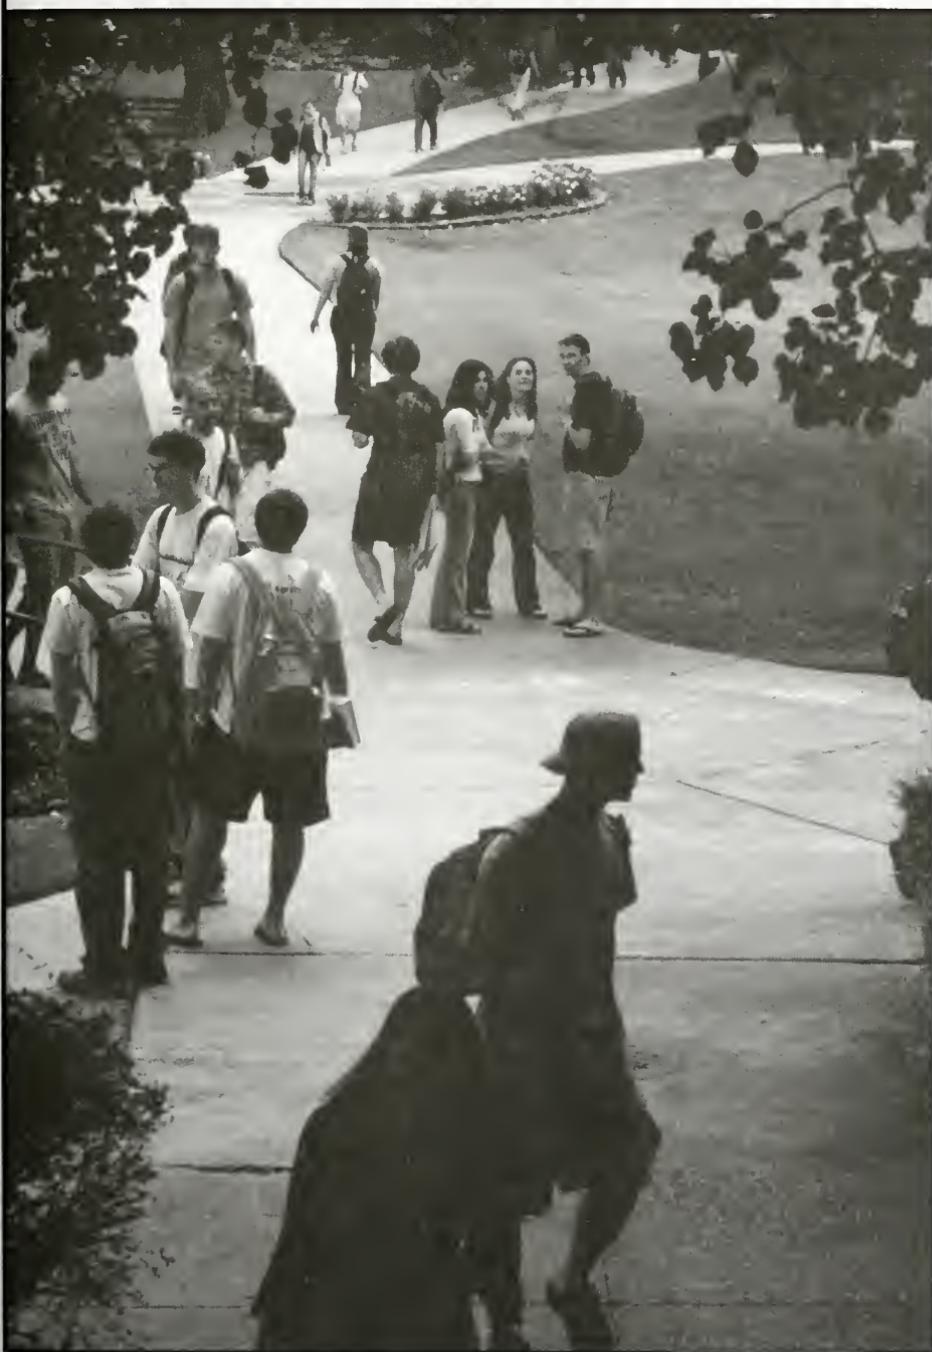

College Outreach to a Wider Community

to foster a mutually supportive relationship between The Mississippi Conference of the United Methodist Church and the College; to provide educational services to alumni and others in the Jackson area; to maintain mutually beneficial cooperative relationships with local communities, schools, colleges, and organizations; to involve alumni and other constituents of the College in college affairs; to participate in cooperative programs with other colleges and universities as well as academic and professional associations.

Board of Trustees Charge to the President of Millsaps College

On behalf of the Board of Trustees, I charge you to fulfill the obligations vested in the office of President of Millsaps College by the Charter and By-laws of the College; to promote a learning environment that encourages open inquiry and independent, critical thinking; to engage the faculty, staff, and students in forging a sense of community on campus and a commitment to communities beyond the campus; to support Millsaps' Methodist affiliation, interfaith religious life, and history of ethical commitment; to honor the vital heritage of Millsaps College, to institute new traditions for its future, and to undertake innovative programs in the pursuit of excellence.

PROSPECTIVE STUDENTS

Information for Prospective Students

History of the College

Millsaps College was founded in 1890 by the Methodist Church as a "Christian college for young men." The philanthropy of Major Reuben Webster Millsaps and other Methodist leaders in Mississippi enabled the College to open two years later on the outskirts of Jackson, the state capital, a town of some 9,000 population. The beginnings were modest: two buildings, 149 students (two-thirds of whom were enrolled in a preparatory school), five instructors, and an endowment of \$70,432. Fifty years later, the student body numbered 599 and the faculty had increased to 33. Women were admitted in the late 1800's and the graduation of Sing Ung Zung of Soochow, China, in 1908, began a tradition of the College's influence outside the state.

By the time of its centennial celebration in 1990, enrollment at Millsaps had more than doubled with approximately one-half of the students coming from out of state. The quality of the liberal arts program was nationally recognized with the award of a Phi Beta Kappa chapter in 1988. A graduate program in business administration, begun in 1979, received national accreditation along with the undergraduate business program in 1990.

Millsaps' first president, William Belton Murrah, served until 1910. Other presidents were David Carlisle Hull (1910-1912), Dr. Alexander Farrar Watkins (1912-1923), Dr. David Martin Key (1923-1938), Dr. Marion Lofton Smith (1938-1952), Dr. Homer Ellis Finger Jr. (1952-1964), Dr. Benjamin Barnes Graves (1965-1970), Dr. Edward McDaniel Collins, Jr. (1970-1978), and Dr. George Marion Harmon (1978-2000). Dr. Frances Lucas was named president in 2000.

General Information

The close personal relationship among students, faculty and the administration is one of the most vital parts of the Millsaps experience. A liberal arts college designed to train students for responsible citizenship and well-balanced lives, Millsaps offers professional and pre-professional training coupled with cultural and disciplinary studies. Students are selected on the basis of their ability to think, desire to learn, good moral character, and intellectual maturity. The primary consideration for admission is the ability to complete academic work satisfactory to the College and beneficial to the student.

Millsaps' 1,400-member student body represents about 35 states and several foreign countries. Students come from 25 religious denominations. All are urged to take advantage of the educational and cultural offerings of Mississippi's capital city of Jackson.

Research facilities available to students include the Mississippi Department of Archives and History, the State Law Library, the Jackson/Hinds Library System, the Rowland Medical Library, and a number of other special libraries unique to the capitol area. Together, they provide research facilities found nowhere else in the state. Cultural advantages include the Mississippi Symphony Orchestra, New Stage Theatre, Mississippi Opera Association, and musical, dramatic, and sporting events held at the City Auditorium and the Mississippi Coliseum.

Millsaps is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the degrees of Bachelor of Arts, Bachelor of Business Administration, Bachelor of Science, Master of Accountancy, and Master of Business Administration. The College is approved by the American Association of University Women and the University Senate of the United Methodist Church. The Business programs offered by the Else School of Management are accredited by the Association to Advance Collegiate Schools of Business. The Department of Chemistry is accredited by the American Chemical Society and the Department

of Education is accredited by the National Council for the Accreditation of Teacher Education. Copies of any of these documents may be requested by writing the Senior Vice President and Dean of the College.

The Millsaps-Wilson Library

The Millsaps-Wilson Library has a print collection of 200,000 volumes, with 650 print subscriptions, access to over 2,800 electronic subscriptions and full-text titles, and a wide variety of electronic services, including both general and scholarly on-line databases. It provides seating for 350 in individual study carrels, tables, and study rooms, as well as browsing and lounge areas. The library is open 88 hours per week in the fall and spring. There is a collection of audiovisual materials and facilities for their use. Special collections include the Eudora Welty Collection, the Lehman Engel Performing Arts Collection, the Archives of The United Methodist Church in Mississippi, the Kellogg Collection of children's books, the Paul Ramsey Collection in Applied Ethics, the Harmon Smith Collection on biomedical ethics, the King R. Johnson Military History Collection, the Rare Book Room, and the Millsaps College Archives. There are more than 40 computers and terminals for student use of library and campus databases and WWW access. The library maintains agreements with other libraries on the local and national level for sharing of resources through interlibrary lending. Document delivery services from commercial services are also available. The library is a member of the SOLINET/OCLC network, the Associated Colleges of the South, Central Mississippi Library Council, and other organizations.

Computing Facilities

Millsaps has developed outstanding computing resources for teaching, learning, and research. Computing facilities include multiple NT and VMS servers on a campus-wide Ethernet network with over 50 networked printers and nearly 600 College-owned computers. In addition to two special purpose labs, Millsaps provides four general access computer laboratories, each equipped with a varying number of computers, for the academic computing needs of the general student body. The College also offers full network access from all residence halls. Millsaps provides all users direct access to the Internet via a high-speed T3 connection, including electronic mail and personal web pages.

Buildings and Grounds

The college occupies a beautiful 100-acre residential campus in the heart of Jackson, Mississippi, the state capital. Chief administrative offices are in the newly renovated James Boyd Campbell Administrative Center. Completed in 1994, the Center includes Whitworth Hall and Sanders Hall. Murrah Hall, built in 1914, was renovated in 1981 to house the Else School of Management. Sullivan-Harrell Hall, built in 1928 and renovated in 1990, houses the departments of Computer Studies, Geology, Mathematics, Physics, Education, Psychology, and Sociology. The Olin Hall of Science, dedicated in 1988, houses the departments of Biology and Chemistry.

The Christian Center, completed in 1950, was built with gifts from Mississippi Methodists, alumni, and friends. It has a 1,000-seat auditorium, a small chapel, classrooms, and offices. In 1967, the stage was renovated into a modern theatre stage.

The Gertrude C. Ford Academic Complex, completed in 1971, includes a recital hall in which is located a 41-rank Mohler organ and two Steinway concert grand pianos. The complex houses Music, Art, Political Science, Computer Services, the Office of Records, and the Office of Adult Learning. It also contains sky-lit art studios, a student computer terminal room, music practice rooms, and classrooms.

The Maurice H. Hall Activities Center provides space for a full range of physical activities that

are available to all students. The Center includes a state-of-the art fitness center with a multipurpose court, cardio-theater and aerobics room, a full array of fitness and weight training equipment, handball and squash courts, additional locker room, team room and rehab facilities for men's and women's athletics, and office space for the athletics staff. Other athletic facilities include swimming pool, tennis courts, and fields for football, baseball, and soccer.

The A. Boyd Campbell College Center was completely renovated and expanded in 2000. It includes a student dining area, the Leggett Special Events area, a coffeehouse with outdoor dining available, an enlarged bookstore, a post office, additional space for student organizations, and renovated office space for student affairs personnel.

A new pedestrian plaza links the Hall Activities Center, the College Center, and Olin hall and provides an exciting environment to relax, dine, work, socialize, and linger. The plaza features permanent seating with network connections to create outdoor dining and study areas in the information age.

There are two single-sex women, one single-sex men, and four coed residence halls. All dorms are centrally cooled and heated.

The James Observatory is an historical landmark located on the northwest corner of the campus.

Applying for Undergraduate Admissions

Millsaps College admits students of any race, color, religion, sex, sexual orientation, and national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students of the College. It does not discriminate on the basis of race, color, sex, sexual orientation, or national or ethnic origin in administration of its educational policies, admissions policies, scholarships and loan programs, and athletic and other school-administered programs. No handicapped person is, on the basis of the handicap, excluded from participation in, denied benefits of, or otherwise subjected to discrimination under any program, employment, or activity at Millsaps College.

First-Time Freshman Admission

Students applying for admission as first-time freshmen should have participated in a strong high school college preparatory curriculum. Applicants' records should show progress toward high school graduation, with at least 14 units of English, mathematics, social studies, natural sciences, and/or foreign languages. Four units of English should be included. Students who have not prepared for college may submit results of the General Educational Development (GED) Tests, along with a transcript of any high school work completed. Freshmen applicants may choose from two decision plans:

Early Action

Early Action is the most popular application option at Millsaps. It is for any student wishing to submit complete application credentials and learn of admission and scholarship early, without making an immediate commitment to enroll. The Early Action Plan does not require that Millsaps be a student's first choice college. The deadline for submitting Early Action applications is December 1, and admissions decisions will be mailed by December 20. Students applying under the Early Action Plan are not required to make a commitment to enroll before May 1, but are encouraged to notify the college as soon as a final college decision has been made.

Regular Decision

The Regular Decision Plan is for all applicants who wish to be considered for merit-based scholarship and whose credentials are postmarked by February 1. Students applying under the Regular

Decision Plan are not expected to make a commitment to enroll before May 1 but should notify the college as soon as a final college decision has been made.

Any first-time freshmen applications received after February 1 will be considered on a space available basis. If you are applying after this date, please contact the Millsaps Office of Admissions at (601) 974-1050 or 1-800-352-1050.

Home Schooled Applicants

Students who have been home schooled must follow the same procedures for admission as any other first-time freshman or transfer applicant. Additionally, an on-campus writing sample or scores from SAT II Subject Tests may be required for admission.

Early Admission

Students who are nearing high school graduation but choose to enter college before graduation may apply by following the same procedures as outlined for first-time freshman applicants. At least 12 units in English, mathematics, social studies, natural sciences, and/or foreign languages must have been completed. Normally, four units of English are required.

Application Procedures

All applicants to Millsaps College must submit the following credentials:

1. A completed application for admission and scholarships form including the required essay and the secondary school evaluation. Millsaps' application is also available on-line at the main college web page. Additionally, Millsaps is a member of the Common Application Group, and as such, accepts that document in lieu of the Millsaps application for admission and scholarships.
2. Non-refundable application fee of \$25.00 (may be waived with written request from high school counselor).
3. Official copy of high school transcript and/or GED (must be a final high school transcript for transfer students).
4. Standardized test scores, either ACT (American College Test), or SAT (Scholastic Aptitude Test). Scores appearing on the official high school transcript will be accepted.
5. Official copy of all college transcripts. Transcripts issued to the student are not acceptable.

Transfer Admission

Transfer applicants to Millsaps must apply for admission under the Regular Decision Plan, but with an application deadline of July 1. A transfer student is anyone entering Millsaps as a full-time student from another institution of higher learning. The following policies apply to transfer applicants:

1. Full credit is normally allowed for work taken at other accredited institutions. Some courses which are not regarded as consistent with a liberal arts curriculum may not be credited toward a degree.
2. After earning 64 semester hours at a junior or senior college, a student may not take additional work at a junior college and have it apply toward a degree from Millsaps.
3. A final high school transcript and official ACT or SAT scores may be requested as part of the necessary application credentials for any transfer student who has completed less than two full years of senior college work.

4. A student must complete the work necessary to fulfill requirements for a major at Millsaps.

5. Grades earned at another institution will ordinarily be recorded as they are on the other institution's transcript. Quality points earned at another institution will be recorded based upon the grading scale used by the Millsaps catalog. An overall grade point index of 2.0 is required for graduation. Transfer students must also have a minimum grade point index of 2.0 on their Millsaps work.

6. In the case of a student transferring to Millsaps with partial fulfillment of a core requirement, the registrar in consultation with the appropriate faculty committee may approve courses to substitute for the remainder of the requirement. Students should consult with the Office of Records for college policy on courses that will substitute.

7. The student is subject to Millsaps regulations on advanced placement and credit by examination.

8. Credit is not given for correspondence courses.

Transfer student applications received after July 1 will be considered on a space available basis.

Part-time Admission

A part-time student is one enrolled in a degree program but taking fewer than 12 hours.

Requirements for admission and policies pertaining to part-time students are the same as those for full-time students.

Nondegree Student Admission

A nondegree student is one who is taking a course or courses but who is not enrolled in a degree program. Applicants should submit the Nondegree Student Application Form along with the application fee to the Office of Adult Learning. Transcripts of all academic work attempted must be provided to the Office of Adult Learning within two weeks of enrollment. The following policies apply to nondegree students:

1. Nondegree students are expected to be 21 years of age and must present evidence of good character and maturity. Age requirements may be waived.

2. Nondegree students may enroll for courses without regard to graduation requirements, but must meet prerequisites for courses chosen.

3. Nondegree students wishing to apply for a degree program must re-apply, provide full credentials, and meet admission requirements for degree students.

International Student Admission

Millsaps College welcomes students from all over the world and will evaluate applicants based on the educational system from which they come. International students should submit their admission credentials well in advance of the semester in which they expect to enroll to allow time for official documents to be received through international mail systems. Required documents for international applicants include the following:

1. Completed admission forms.

2. Official or certified true copies of transcripts from each secondary and post-secondary school attended. These should include a record of subjects taken and marks earned for each year of study. Documents must have the official signature and seal of a school official. A certified English

translation must accompany all documents not in English. For placement purposes, course descriptions may be requested from international transfer students.

3. Official or certified true copies of all national, public, or qualifying examinations that have been completed.
4. Two letters of recommendation.
5. TOEFL results for non-native English speakers.
6. Statement of Financial Resources.
7. The application fee.

International students are not required to submit SAT or ACT test scores.

Leaves of Absence and Readmission

Students may petition for a Leave of Absence for a future semester. A Leave of Absence cannot be granted in a semester in which any classes have been attended. Before requesting a Leave of Absence from the College, students must meet with the Director of Retention and Student Success (undergraduate), Dean of Adult Learning (Nondegree), or the Assistant Dean of the Else School of Management (M.B.A. or M.Acc.) to determine if a Leave of Absence is appropriate in their situation. A Leave of Absence allows students to sit out for a semester. A Leave of Absence maintains a student's eligibility to retain academic scholarships; however, they must reapply for need-based aid. Leaves of Absence are granted for one-semester, although in unusual circumstances a petition may be filed for an extension.

Students who leave the College for one semester or longer may apply for readmission by completing the appropriate application and presenting transcripts for all academic work attempted while away from the College. Students on approved leaves of absence are not required to apply for readmission. Those who are absent for more than four years may be required to meet graduation requirements in effect at the time of readmission or do additional work in their major in order to qualify for a degree.

Advanced Placement, International Baccalaureate, and Credit by Examination

Students entering Millsaps College may earn a waiver of certain requirements or college credit as a result of their performance on specific examinations. The amount of waiver or credit is limited to two courses in any discipline and to seven courses overall. International students may also be eligible for advanced placement depending upon the educational system completed (for example: 1B, A-levels, Abiture, etc.).

Scores on the appropriate Advanced Placement or International Baccalaureate examinations, CLEP subject matter examination, or CEEB achievement tests should be sent to the Office of Records for evaluation. If a waiver of requirements is granted, the score on the examination used will be recorded on the student's record in lieu of a letter grade. An administrative fee will be assessed for each course so recorded. (See the section on Special Fees.)

A score of 4 or 5 is ordinarily required on an AP exam and a score of 5, 6, or 7 on a higher-level IB exam is required in order to receive academic credit. For information concerning scores necessary to attain credit for any AP examination, or for other exams such as IB or CLEP, students should consult with the registrar or Senior Vice President and Dean of the College. International students should contact the Office of International Initiatives with any questions about their advanced placement eligibility.

Additionally, students enrolled in the Gateway Program may develop and submit appropriate portfolios for consideration for non-graded academic credit. Detailed information is available in the Prior Learning Credit Handbook, which is distributed during orientation to all Gateway students.

Orientation and Advisement

Welcome Weekend and the New Student Seminar (Foundations) are Millsaps programs designed to ease the transition to college life. Welcome Weekend occurs three days before classes start. It begins with Move-In and concludes with class registration. Welcome Weekend is filled with educational and social activities that prepare the new Millsaps student for life on campus.

The New Student Seminar (Foundations) is a course for new students which explores the issues facing college students and the roles that they play on campus. This course, led by faculty, staff, and upper-class students, provides the new student a forum for discussion of key issues and concerns.

Counseling Services

Since counseling is a wonderful opportunity for personal growth, a wide array of counseling services are offered through Counseling Services. The counselor can assist students in improving academic performance by helping them improve study skills techniques such as time management, note taking, problem-solving, and test-taking. Help is also available for students wishing to engage in self-exploration and goal setting; to discuss relationships, stress reduction, or other personal concerns; and to obtain information on other community resources. Referrals to professionals or treatment programs off campus will be made when appropriate.

Career Services

Career Services offers a wide variety of services and programs for students and alumni in the area of academic and career development. These services assist students in achieving their academic goals, meeting the expectations set forth by the college, and planning for life after graduation. Career services include: career/major exploration, internships, graduate school advisement and preparation, student employment, and job placement assistance.

Students who are undecided regarding their major and/or career can attend the annual Meet Your Major Fair. This event provides new students the opportunity to meet with faculty from all the academic departments on campus. Career testing and individual appointments are also available with the Career Services staff. Other options include a computerized career-planning program for individuals seeking a more comprehensive search that matches their interests, talents, and values with potential careers.

The internship program is an excellent opportunity for students to explore a field of interest while gaining valuable professional experience. Student interns can earn academic credit on a credit/no credit basis. Students can participate in an internship as early as the second semester of their freshmen year and any subsequent fall, spring, or summer semesters. Information sessions are held throughout the year to prepare students interested in obtaining an internship. A wide variety of internships are offered both locally and nationally in the areas of education, the arts, government, health care, nonprofit, business, industry, and finance. New internship positions may also be developed with the assistance of the Career Services staff.

Other programs and services that assist students in exploring potential careers include: informational interviews, student employment, and community volunteer/service opportunities. Workshops and seminars are held throughout the year to help students further explore their career options and to prepare for and enter the world of work.

Graduate and professional school advisement is also available. The Career Resource Library offers graduate school guides and references, CD ROM's, and other electronic and printed resources on this topic. Information on GRE, LSAT, MCAT, GMAT, and other graduate exams and preparation resources are available through the Career Services.

Seniors and alumni can access full-time positions which are listed in the Career Resource Library. A resume referral service, on-campus recruiting, job search links, alumni network receptions, and mock interviews assist students with their career search. In addition, the annual Job Fair provides valuable information and contacts for those preparing for their job search.

Resident Living

Student housing is an important service rendered by any college. However, Millsaps places a great deal of emphasis on the learning process that takes place within the residence halls. The residence life program is administered by a team of professionals including the Vice President and Dean of Students, Director of Residence Life, Assistant Directors of Residence Life, and Resident Assistants.

Housing assignments for new students are made by the Residence Life professional staff in late July. Housing assignments are determined by several factors, including roommate preference and the items listed on the housing preference sheet. For the best housing and roommate matching possible, it is imperative that the student fill out the housing preference sheet him/herself.

Millsaps is a residential college based upon the belief that a significant amount of learning and growth takes place outside the classroom. As such, a residency requirement has been established. All students classified, by credit units, as freshmen or sophomores are required to live in college residence halls. Exceptions to this policy may be granted if the student is married or lives with his or her immediate family in the Jackson vicinity. Freshmen and sophomore students are not allowed to live in a fraternity house during the academic year.

Residence hall rooms are designed to house two students each. Students should send in their completed housing forms as early in the admissions process as possible. Students wishing to room together should specify their desire to room together on their housing request. Single rooms are normally not available. Room rent cannot be refunded after the semester begins.

Assignments for upper-class students are made in the spring. The process is arranged through Residence Life. Students should contact their RA for more information.

Current students who have become academically ineligible before the beginning of fall semester, if readmitted, will be put on a waiting list for room assignments.

Residence halls will be closed for Thanksgiving, winter, and spring breaks. Dates and times of hall closings and openings are listed on the housing contract. Students may also obtain this information by calling Student Affairs at (601) 974-1200.

Wesson Health Services

Millsaps College offers a comprehensive health care program for its students. This program is administered through the College nurse, who works with the school physicians to provide health and emergency care for students. The school physicians hold clinic on campus during the week. Students should contact the College nurse (601) 974-1207 for appointments and for more information regarding the various services provided.

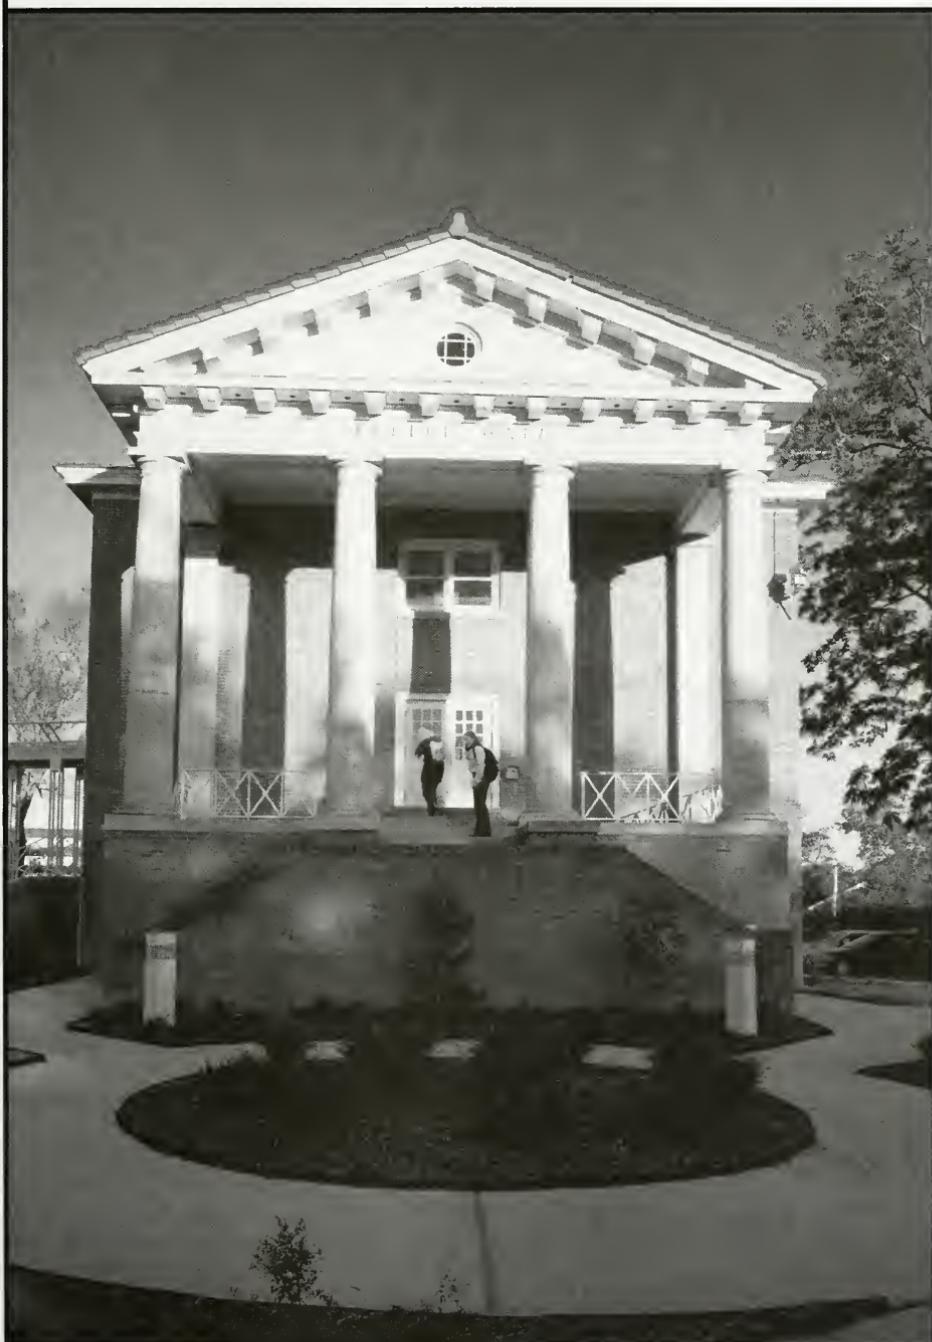

Student Records

The Family Educational Rights and Privacy Act of 1974 guarantees Millsaps students the right to review, inspect, and challenge the accuracy of information kept in a cumulative file by the institution. It also ensures that records cannot be released without the written consent of the student except in the following situations:

- (a) to school officials and faculty who have a legitimate educational interest, such as a faculty adviser;
- (b) where the information is classified as “directory information.” The following categories of information have been designated by Millsaps College as directory information: name, address, email address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, photograph, dates of attendance, degrees and awards received, the most recent previous educational institution attended by the student, and information needed for honors and awards. Students who do not wish such information released without their consent should notify the Office of Records and the Office of Public Relations in writing prior to the end of the first day of classes;
- (c) violations of drug and alcohol policies may be disclosed to parents of students who are under the age of 21;
- (d) disciplinary proceedings of violent crimes or nonforcible sex offenses may be disclosed to the victims of the crime regardless of the outcome of the proceedings. They may also be disclosed to anyone where the accused was found to have violated the college’s rules or policies;
- (e) to a court if a parent or student has initiated legal action against the college or if the college has begun a legal action against a parent or a student;
- (f) to the Mississippi Office of Student Financial Aid if a student’s legal residence is in the state of Mississippi.

If students would like their parents to have access to their records, they must give written consent in the appropriate office: for academic records, the Office of Records; for financial records, the Business Office; for disciplinary records, the Office of Student Affairs. This consent must be renewed at the beginning of each academic year.

FINANCIAL INFORMATION

Financial Information

2003-2004 Tuition and Fees

Millsaps College is an independent institution. Each student is charged a tuition which covers a part of the cost of an education. The balance is met by income from the endowment and by gifts from the United Methodist Church, alumni, trustees, parents, and other friends.

Semester Expenses for Full-time Undergraduate Students

Basic Expenses for one semester are:

	Residence Hall Student	Nonresident Hall Student
Tuition	\$8,673	\$8,673
Comprehensive fee	534	534
Room Rent	1,879-2,452	
Meals	1,505	
Total	<u>\$12,591-13,164</u>	<u>\$9,207</u>

Residence Hall rooms are ordinarily rented on a yearly basis according to the schedule below. This schedule of charges is for students who enter in the fall. Those students who enter second semester will pay half the annual rate for their type of occupancy. If the student changes type of occupancy during the year, the charge will be adjusted accordingly. See schedule of payment and residence hall options below.

Room fees include a charge for the 21 meal per week plan. Off-campus students may purchase the meal plan for \$1,505 per semester.

Schedule of Payment for Rooms and Meals

1st Sem. 2nd Sem. Total

Double Occupancy:

Bacot, Franklin, Galloway \$1,879 \$1,879 \$3,758

Ezelle, Sanderson North, Galloway \$2,060 \$2,060 \$4,120

Single Occupancy:

Sanderson South, Goodman,
New South-south wing \$2,331 \$2,331 \$4,662

New South-north wing \$2,452 \$2,452 \$4,904

All residence halls are air conditioned, and laundry facilities are available.

Semester Expenses for Part-time Undergraduate Students

*(fewer than 12 semester hours)
(most courses are 4 semester hours)*

1 semester hour	\$540
Comprehensive fee	28 per hour

M.B.A./M.Acc. Students

1 graduate hour	\$686
Comprehensive fee	12 per hour

M.L.S. Students

Per course with waiver	\$1,524
Comprehensive fee	112 per unit
Dance and music fees	200 per hour
Fraternity Houses	\$1,912/semester (Meal plan is required.)
Panhellenic Houses	\$2,138/semester (Meal plan is required.)

Reservation Deposits

New Students - All full-time students must pay a reservation deposit of \$250. If a student decides not to come to Millsaps, this deposit is refundable if the Admissions Office receives a written request for refund prior to May 1.

Reservation deposits will be credited to the student's account upon enrollment.

Comprehensive Fee

Millsaps charges each full-time undergraduate student a comprehensive fee of \$534 per semester, which includes a portion of the cost of student activities and student government, laboratory and computer usage, post office, parking, and certain special instructional materials. Part-time undergraduate students will be charged a proportionate amount.

Special Fees

The general purpose of special fees is to allocate to the user at least a portion of the direct cost for providing special services, equipment, and facilities.

Course Overload Fee - A fee of \$100 per hour is charged for course loads above 17 hours.

Late Fee - A \$25 late fee will be charged for both late payment and late scheduling of classes.

The late fee will apply beginning the second day of classes each semester.

Change of Schedule Fee - A \$10 fee will be charged for each change of schedule authorization processed. Any change initiated by the College will have no fee.

Dance and Music Fee - A fee of \$200 is charged for private dance and music lessons per semester hour.

Credit by Examination Fee - A \$25 fee is assessed to record each course for which credit is allowed if the credit is not transfer credit or if the examination is not a Millsaps examination.

Auditing of Courses - Courses are audited with approval of the instructor of the course.

Students must indicate their intention to audit at the time of registration. There will be no additional charge to a full-time student for auditing any course. All other students must pay regular tuition and fees for auditing courses, except that persons 60 and over may audit undergraduate courses for one-half tuition and fees on a space available basis.

Senior Citizens - Qualified senior citizens (60 and over) enrolled in an undergraduate degree program pay half tuition for the first course taken each semester and full tuition for additional courses. All related fees will be paid at regular rates.

Graduation Fee - The \$75 fee covers a portion of the cost of the diploma, the rental of a cap and gown, and general commencement expenses.

Financial Regulations

Payments - All charges for a semester are due and payable two weeks prior to the first day of classes. A student is registered and eligible to attend classes only after payment or other arrangements have been made with the Business Office.

Any accounts due for any preceding semester must be paid before a student will be enrolled for the succeeding semester. Students must settle all financial accounts due the College before the final examination period begins. The registrar is not permitted to transfer credits until all outstanding indebtedness is paid. No student will graduate unless all indebtedness, including library fines and graduation fee, has been settled.

Any student account that remains unpaid at the end of the semester and not paid within 30 days will be turned over to an outside collection agency for assistance in collecting. The student will be responsible for all collection costs and/or attorney fees necessary to collect these accounts.

The Millsaps Plan is available for parents who prefer a flexible no-cost system for paying educational expenses in regularly scheduled payments over a period of months, instead of one lump sum payment at the beginning of each semester. For more information, write to:

The Millsaps Plan
c/o Business Office
Millsaps College
Jackson, MS 39210-0001

Cashing Personal Checks - Personal checks for a maximum of \$100 may be cashed in the Business Office and a maximum of \$10 in the Bookstore upon presentation of a Millsaps identification card.

Returned Checks - A charge of \$30 will be made for each returned check.

Refunds - *Room rent cannot be refunded after the semester has begun.* Unused amounts paid in advance for board are refundable. A student who withdraws with good reason from a course or courses will have seven days including the date of the first meeting of classes to receive a refund of 80 percent of tuition and fees; within two weeks, 60 percent; within three weeks, 40 percent; and within four weeks, 20 percent. If a student remains in college as long as four weeks, no refund will be made except for board. Students receiving federal financial aid will be subject to the federal guidelines with respect to withdrawal. Examples of the application of the refund policy are available in the Business Office. A student may obtain a refund of any overpayment on his or her account by making a request in the Business Office.

The date of withdrawal from which all claims to reductions and refunds will be referred is the date on which the registrar is officially notified by the student of the intention to withdraw. (See regulations relative to withdrawals.)

The College reserves the right to cancel the registration of any student at any time. In such a case, the pro rata portion of tuition will be returned. Students withdrawing or removed under disciplinary action forfeit the right to a refund.

Meal Plan - Students living in college or fraternity housing are required to participate in the College meal plan.

Students Rooming in Fraternity Houses - Rules regarding payment of board and fees applicable to other campus residents will be observed by these students.

Revision of Charges - Millsaps College reserves the privilege of changing any or all charges or financial regulations at any time without prior notice.

Scholarships and Financial Aid

Millsaps College offers assistance to students based on academic merit, special talents, and financial need. In addition, the Office of Financial Aid awards state grants and Methodist aid.

Academic and Performing Arts Scholarships are provided by Millsaps to undergraduate students who demonstrate outstanding academic and artistic talents or ability. These scholarships are awarded to qualified, admitted incoming students and require an annual renewal application.

Need-based Aid (institutional, federal and state grants, loans, and work) is awarded to students who show financial need as indicated from results of the Millsaps Application for Scholarship Renewal and Financial Aid and the Free Application for Federal Student Aid (FAFSA). The priority deadline for need-based assistance is March 1 and requires annual application.

Federal Aid is awarded by the Office of Financial Aid after completion of required applications including the Free Application for Federal Student Aid. Federal regulations and institutional policies may affect eligibility for these funds. Millsaps participates in the following federal programs.

Federal Pell Grant is provided by the federal government. These funds are awarded to students who have exceptional financial need who, for lack of financial means of their own or their families, would be unable to obtain an education without such aid.

Federal Supplemental Education Opportunity Grant (SEOG) is awarded to a limited number of Pell recipients who show exceptional financial need.

Federal Work-Study Program (FWS) has been established from the funds contributed by the federal government and the college to provide financial assistance through employment based on federal eligibility.

Federal Subsidized Stafford Loan Program is available to students who demonstrate need and are enrolled at least halftime. An undergraduate student may borrow up to \$2,625 for the first year, \$3,500 for their second year, and \$5,500 a year for the remainder of their undergraduate years for an aggregate amount of up to \$23,000. A graduate student may borrow up to \$8,500 a year for an aggregate total of \$65,500 (including undergraduate loans). Application forms may be obtained from the Office of Financial Aid.

Federal Unsubsidized Stafford Loan Program has the same terms and conditions as the

Federal Subsidized Stafford Loan Program, except the borrower is responsible for the interest that accrues while the student is in school. The program is open to students who may not qualify fully or partially for the subsidized loan program. The student borrower does not have to show financial need for this loan. Independent students may have a higher loan limit if they show the eligibility for supplemental loan funds.

Federal Parent Loan for Undergraduate Students (FPLUS) provides parents with additional funds for educational expenses. These loans may be obtained from the Office of Financial Aid. The parent who borrows through this program will be able to borrow up to the difference between the cost of the institution and the financial aid the student receives for the loan period. There is not an aggregate limit. The parent must not have an adverse credit history. The student must be a dependent and be enrolled at least half-time. FPLUS borrowers do not have to show need to borrow under this program.

Federal Perkins Loan Program is available to undergraduate students who demonstrate need. Students may borrow up to \$15,000 for an undergraduate degree. Repayment and accrual of interest begins six months after the student drops below half-time enrollment status. Deferment and loan forgiveness may be available for community service work, full-time teachers in shortage fields, and full-time employees of public or private non-profit child or family service agencies. More information and application forms are available from the Office of Financial Aid.

State Aid is awarded by the Office of Financial Aid based on application deadlines, academic requirements, and other state regulations and institutional policy

Leveraging Educational Assistance Partnership Program (LEAP) is provided by Millsaps, the state of Mississippi, and the federal government. These funds are to help qualified students with substantial financial need.

Mississippi Resident Tuition Assistance Grant (MTAG) is available for full-time students who are residents of Mississippi. When fully funded, the maximum grant is \$500 for freshmen and sophomores and \$1,000 for juniors and seniors.

Mississippi Eminent Scholars Grant (MESG) is for residents of the state of Mississippi. When fully funded, the maximum grant is \$2,500 each year for four years.

Millsaps Methodist Scholarships are competitive awards for students who are active in Methodist Church ministry, are pre-ministerial students, or are dependents of United Methodist ministers. Completion of the Millsaps Application for United Methodist Scholarships is required by the March 1 deadline.

International Students may be eligible for financial assistance at Millsaps. With an American passport or residency card, the student may be eligible for both merit-based scholarships and need-based financial aid (refer to the previous section). If the student is not an American citizen or permanent resident, s/he may be eligible for merit-based scholarships but not need-based financial aid. Decisions for merit-based scholarship awards are made on the basis of information presented in the application for admission. No additional form is required. Most scholarships range from \$1,000 - \$11,500 per year. Recipients of these awards must pay for the rest of their fees through their own funding sources. Students should budget at least \$24,000 for one year of education at Millsaps.

Institutional Scholarships

Dependents of United Methodist Ministers serving in an appointment by a Bishop or an annual conference receive scholarship aid from the College.

General Scholarship Funds are budgeted each year to help students who show financial need.

United Methodist Ministerial Students annually receive a \$1,000 scholarship, contingent upon at least one year's reciprocal service in ministry of the United Methodist Church.

United Methodist Scholarships provide \$500 each for several Methodist students who have ranked in the upper 15 percent of their class and exhibit financial need.

Millsaps United Methodist Scholarships are a cooperative offer of the Methodist student's local church and Millsaps College. The local church provides \$1,000 a year and Millsaps provides \$2,000 a year for four years.

Second Century Scholarships are awarded to students with outstanding academic records and significant school, church, and community involvement or leadership.

Millsaps Awards are awarded to students with excellent academic records and outstanding leadership.

Performing and Fine Arts Scholarships (a component of the Second Century Scholarship) are available to students planning to major in art, music, or theatre. Audition or portfolio required.

Charles and Eloise Else Scholarships are awarded to students with excellent academic records who will major in accounting or business administration.

Jonathan Sweat Music Scholarships are available to students who audition and plan to major in music.

E.H. Summers Grants are awarded to students who legally reside in Attala, Choctaw, Carroll, Montgomery, or Webster counties of Mississippi.

Phi Theta Kappa Scholarships are awarded to community college transfer students who hold membership in the honorary and have 56 hours of academic work.

Endowed and Sponsored Scholarship Funds

The generosity of many individuals, families, corporations, and foundations is directly responsible for the scholarship funds at Millsaps. The scholarships listed below provide the funding for our merit and need-based institutional aid. By making application for admission and financial aid, students qualify for receipt of these funds. No separate application is required.

- The H. V. and Carol Howie Allen Endowed Scholarship Fund
- Robert E. Anding Endowed Scholarship Fund

Loan Funds

Federal Stafford Loan Program

Federal Stafford Loans are available to students who demonstrate need and are enrolled at least halftime. An undergraduate student may borrow up to \$2,625 for their first year, \$3,500 for their second year, and \$5,500 a year for the remainder of their undergraduate years for an aggregate amount of up to \$23,000. A graduate student may borrow up to \$8,500 a year for an aggregate total of \$65,500 (including undergraduate loans). Application forms may be obtained from a commercial lender or from the Office of Financial Aid.

Interest rate: There is a variable interest rate which changes annually on July 1 with a cap of 8.25%.

Fees: There is a 3% origination fee and up to 1% guarantee fee.

Repayment: Repayment of the loan begins 6 months after termination of education or anytime that the academic load drops below halftime. The loan may be repaid over 10 years.

Unsubsidized Federal Stafford Loan Program

This loan program has the same terms and conditions as the Federal Stafford Loans, except that the borrower is responsible for the interest that accrues while the student is in school. The program is open to students who may not qualify for the subsidized Stafford Loans or may qualify for only partial subsidized Stafford Loans. The student borrower does not have to show financial need for this loan. Independent students may have a higher loan limit if they show the eligibility for supplemental loan funds.

Federal Parent Loan for Undergraduate Students (PLUS)

PLUS loans provide parents with additional funds for educational expenses. These loans may be obtained from commercial lenders. The parent who borrows through this program will be able to borrow up to the difference between the cost of the institution and the financial aid the student receives for the loan period. There is not an aggregate limit. The parent must not have an adverse

credit history. The student must be a dependent and be enrolled at least halftime. FPLUS borrowers do not have to show need to borrow under this program.

Interest rate: There is a variable interest rate which changes annually on July 1. The FPLUS loan will not exceed 9%.

Fees: There is a 3% origination fee and a guarantee fee up to 1%.

Repayment and Deferment: Repayment of a FPLUS begins the date of disbursement. Borrowers should contact the lender for information concerning deferment of principal and capitalization of interest.

Federal Perkins Loan Program

Millsaps makes these loans available to undergraduate students who demonstrate need. Students may borrow up to \$20,000 for an undergraduate degree. Repayment and accrual of interest at the rate of 5% begins nine months after the student drops below halftime enrollment status.

Deferment and loan forgiveness may be available for community service work, for full-time teachers in shortage fields, and for full-time employees of public or private nonprofit child or family service agencies. Detailed information concerning this loan and application forms can be secured from the Office of Financial Aid.

Other loan funds include:

- W. P. Bagley Memorial Loan Fund
- Coulter Loan Fund
- William Larken Duren Loan Fund
- Kenneth Gilbert Endowed Loan Scholarship
- Joe B. Love Memorial Loan Fund
- J. D. Slay Ministerial Loan Fund
- George R. and Rose Williams Endowed Loan Fund
- C.I.O.S. Foundation Loan Fund
- Claudine Curtis Memorial Loan Fund
- Paul and Dee Faulkner Loan Fund
- Jackson Kiwanis Loan Fund
- Graham R. McFarlane Loan Scholarship
- United Methodist Student Loan Fund
- George W. Wofford Loan Fund

Additional Financial Aid Opportunities

The Federal Work-Study Program has been established from funds contributed by the federal government and the College to provide financial assistance through employment.

State Student Incentive Grants are provided by Millsaps, the state of Mississippi, and the federal government. These funds are to help qualified students with substantial financial need.

The Federal Pell Grant and the Federal Supplemental Education Opportunity Grant are provided by the federal government. These funds are supplemental grants to other aid to assist in making available the benefits of higher education to qualified students of exceptional financial need who, for lack of financial means of their own or their families, would be unable to obtain an education without such aid.

Mississippi Grant Programs:

Mississippi Tuition Assistance Grant is for full-time students who are residents of Mississippi.

When fully funded, the maximum grant is \$500 for freshmen and sophomores and \$1,000 for juniors and seniors.

Mississippi Eminent Scholars Grant is for residents of the state of Mississippi. When fully funded, the maximum grant is \$2,500 each year for four years.

There are application deadlines and academic requirements for each of these programs. Other state regulations may apply.

International Students

International students may compete for all Millsaps scholarship and loan programs with the exception of those funded by the U.S. government. In addition, international students are eligible for on-campus employment opportunities.

STUDENT LIFE

Student Life

Campus Ministry

Religious life at Millsaps centers around the churches, synagogues, and other faith communities of the city of Jackson as well as the campus ministry program coordinated through the Campus Ministry Team, the Office of the Chaplain and denominational groups on campus. Churches, temples, and mosques provide communities of faith for students, faculty, and staff. The campus ministry program attempts to provide experiences which explore the meaning of a life of faith for a college community.

To accomplish this, a varied program is offered: sponsorship of special programs on the Millsaps Forum Series on social, religious, and personal issues; field trips including the New York Seminar and the Delta immersion experience; faculty-student-staff programs addressing issues on campus and in the larger society; fellowship experiences; Bible studies; mentoring programs in neighboring schools; projects in the community working with disadvantaged populations; chapel and special services such as All Saints Day, Advent, Ash Wednesday, and Maundy Thursday Services; emphases on such issues as AIDS; and many others. In addition, the campus chapter of Habitat for Humanity is very active, and the Midtown Project involves a large number of volunteers in a citywide effort to rehabilitate a historic area of the city which has suffered greatly from drugs, violence, and deteriorating housing. All of these experiences are meant to communicate an active understanding of the life of faith as it addresses crucial social needs. The campus ministry program at Millsaps has attracted national attention for its variety and effectiveness.

In addition to the Campus Ministry Team, other programs operating on campus include Catholic Campus Ministry, Fellowship of Christian Athletes, the Wesley Fellowship, Baptist Student Union, Millsaps Christian Fellowship, Orthodox Fellowship, and Habitat for Humanity (the first campus chapter in Mississippi). In addition, the Episcopal Eucharist is celebrated each week on campus. All campus ministry is strongly ecumenical. In addition to the Chaplain, the college is fortunate to have a Catholic Campus Minister who works with students at Millsaps, Belhaven, and University Medical Center; persons from local congregations also working with the denominational groups on campus and staff members from the Athletic Department work with the Fellowship of Christian Athletes.

The Office of the Chaplain serves as a liaison with churches, with The Mississippi Conference of The United Methodist Church, and with other denominations. Furthermore, a working relationship has been established with many community projects and agencies as vehicles for student involvement.

Public Events

The Public Events Committee receives funds from the student government and the College to sponsor programs of general interest to the campus and community. Its major activity is the Millsaps Forum Series - a continuing slate of speakers during the academic year. The objective of the series is to provide information and stimulate interest in current issues, to explore historical events, and to present differing perspectives on controversial subjects. Faculty members, local authorities, and national experts are invited to present their thoughts on a variety of literary, cultural, scientific, political, religious, and historical topics.

In addition to the Forum Series, the Public Events Committee sponsors special events throughout the academic year. It provides funds to student organizations and academic departments interested in organizing programs open to the entire campus. These include films, guest speakers, and music recitals.

All of these activities support the true aim of liberal education: the liberation of the mind to grasp the world of nature and of human experience and action in all its richness and complexity, and to respond with awareness, sensitivity, concern, and mature judgment.

Athletics

The Athletic policy of Millsaps College is based on the premise that athletics exist for the benefit of the students and not primarily to enhance the prestige and publicity of the College.

Competitive sports conducted in an atmosphere of good sportsmanship and fair play can make a significant contribution to the complete physical, emotional, moral, and mental development of the well-rounded individual. They are thus an integral part of the educational process. Every attempt is made to provide a sports-for-all program.

Intercollegiate Athletics

There are 14 varsity sports, seven for men and seven for women. The program for men includes football, basketball, baseball, cross country, tennis, golf, and soccer. The women's program includes basketball, tennis, soccer, cross country, volleyball, golf, and softball.

The programs are conducted on guidelines established by the National Collegiate Athletic Association for Division III institutions and the Southern Collegiate Athletic Conference.

Those who participate in intercollegiate athletics are required to observe and maintain the same academic standards as other students.

Campus Recreation

The largest and most popular aspect of campus recreation at Millsaps is the intramural program. Intramurals have provided competition, exercise, and recreation for men and women at Millsaps for many years. Activities include volleyball, tennis, soccer, basketball, golf, flag football, frisbee, golf, and softball.

Sport clubs continue to grow in popularity. These organizations are organized by faculty, staff, and students with a common interest. Recent active clubs include cycling, dance, water skiing, indoor soccer, and karate.

The popularity of fitness has brought aerobics to campus. A variety of aerobics classes are offered in the new fitness building, and a weight lifting room is also available for all students, faculty, and staff.

Publications

The Purple & White, the official student newspaper of the College, is edited, managed, and written by students. The *P&W* provides coverage of Millsaps events as well as serving as a campus forum.

The *Bobashela*, the student yearbook of Millsaps College, gives an annual comprehensive view of campus life. *Bobashela* is an Indian name for good friend.

Stylus, the student literary magazine, publishes twice a year the best poetry, short stories, essays, and art submitted by Millsaps students.

Music, Theatre, and Dance

The Department of Performing Arts offers many opportunities for students to study and perform dance, music, and theatre. Studio classes in dance and music are open to all students in the college for academic credit. The studio dance classes are taught through Mississippi Ballet, Mississippi's premiere professional ballet company. The studio music classes are private lessons in voice or instruments such as piano, organ, and guitar. Acting classes can be taken by all students at Millsaps College who have a keen interest in dramatic performance.

Participation in productions of **The Millsaps Players** is offered to all students. Casting for all plays is by open audition. The Players typically produce four full-length plays each year, and senior theatre majors often direct one-act plays for their senior projects. Whether you prefer acting onstage or working backstage, there are wonderful dramatic opportunities with **The Millsaps Players**. Participation in Players productions can earn academic credit and also earns credit toward membership in **Alpha Psi Omega**, the national honorary dramatics fraternity.

The oldest music performance organization at the college is **The Millsaps Singers**. Membership in **The Singers** is open to all students by audition. Each year this 70-85 voice choir performs a variety of accompanied and a cappella music for the college and community, and there is usually at least one performance with a professional orchestra. **Music for Singers** includes a highly diverse repertoire - masterworks, international and ethnic works, and recent addition to the choral repertory. Academic credit is awarded for participation each semester.

The Chamber Singers is a relatively recent addition to the performing groups at Millsaps College. Membership is selected by audition from the **Millsaps Singers**. Membership in this 16-24 voice choir carries a performance scholarship in recognition of the travel and performance responsibilities of the ensemble. Recent tours have taken the **Chamber Singers** to San Antonio, Washington, D.C., Chicago, St. Louis, and Orlando. During the summer of 1998, the choir toured Germany, the Czech Republic, and Austria. Most recently, the group enjoyed a tour throughout Spain and Portugal. Academic credit is awarded following the second semester of participation.

Membership in the **Millsaps Wind Ensemble** is open to all students who participated in a band in high school. Since the size of the ensemble is smaller than a full band, participation provides an intimate setting for practice and performance. Academic credit is awarded following the second semester of participation.

Music majors and minors can become eligible for membership in **Mu Phi Epsilon**, an international professional music fraternity. (Professional fraternities are organized to promote professional competency and achievement within the field.) **Mu Phi Epsilon** promotes high scholarship, musicianship, and friendship through service to school and community. Members are eligible for scholarships, grants, and awards.

Student Organizations

Millsaps College currently has more than 70 registered student organizations. Organizations vary in their individual purposes but all serve to contribute to the educational mission and purpose of the college. Please contact the Division of Student Affairs if you would like to obtain a complete list of registered student organizations or to start a new student organization.

A few of the organizations currently active on the campus are:

The Judicial Council

The Judicial Council is composed of ten voting members. Members are appointed as follows:

two faculty members appointed by the Senior Vice President and Dean of the College with the approval of the President, and eight student members appointed by a committee composed of three student Judicial Council members and three Student Body Association officers and confirmed by the Student Senate. The Director of Residence Life serves as an ex-officio member of the Council.

The Judicial Council has partial jurisdiction over student disciplinary cases. Limitations of its authority are delineated in the student handbook, *Major Facts*.

Adult Student Association

The Adult Student Association provides networking and social connection for nontraditional students.

Amnesty International

This organization promotes an end to the death penalty, a strengthening of human rights, and a more peaceful and harmonious world.

Anthropology Club

This club promotes research, awareness, and overall interest in anthropology - past, present, and future - within the Millsaps community.

Art Club

The Art Club spreads awareness and understanding of Art throughout the Millsaps and Jackson communities and beyond.

American Production and Inventory Control Society

APICS enhances student knowledge of operations management by conducting plant tours of local manufacturing and service organizations.

Astronomy Club

The Astronomy Club provides opportunities for the Millsaps community to view special astronomical events and promotes interest in astronomy.

Black Student Association

BSA offers an outlet for all students of color to belong to a recognized organization that focuses on supporting the constructive richness that the African American heritage has contributed throughout American history. America's historic baggage continues to plague our community, and BSA is an avenue for all students to diminish this negativity with positive support and activities.

Campus Greens

The purpose of the Campus Greens is to promote the 10 key values of the Green Party on campus and in the community. Ecological wisdom, social justice, grass roots democracy, nonviolence, decentralization, community-based economics, feminism, respect for diversity, personal and global responsibility, and future focus/sustainability.

Campus Ministry Team

The CMT, a group motivated by moral and ethical concerns to fulfill the emotional, spiritual, physical, and intellectual needs of ourselves, the campus, and the community through different outreach and service projects. Furthermore, CMT will strive to be a symbol of an inclusive community.

Catholic Campus Ministry

CCM serves as an outreach group for Catholic students at Millsaps College.

Circle K

This organization provides the opportunity for leadership training in service and service on campus and in the community. Members also develop aggressive citizenship and the spirit of service for improvement of all human relationships.

Cycling and Triathlon Club

The club acts as a support group for Millsaps students who are interested in cycling, triathlon, endurance races, and other multi-sport events.

Diamond Girls

This organization assists the Baseball Team with statistics, concessions, and more.

E.A.R.T.H.

This is a student led environmental organization that is committed to educating the campus and community at large about the importance of environmental sustainability for the present and future through several programs that include: recycling, Gleaners, Pack Rat, Campus Clean Ups, Earthfest, speakers, and sustainability efforts.

English Club

This club is intended to help spread awareness of literature as a fundamental aspect of human life and to provide a sense of community among people on campus who care about literature.

Family and Friends Pride Coalition

The purpose of this organization is to provide support for gays, lesbians, bisexuals, transgender individuals, their friends, and supporters.

Fight Against the Abuse of Women

FAAW seeks to educate the campus about different forms of abuse and provide help and service for those who may be involved in an abusive relationship.

Financial Management Association

This group manages the Wilson Fund Portfolio and is open to anyone with an interest in finance.

French Club

This club seeks to promote interest in the French language and culture.

German Club

This club seeks to promote interest in the German language and the culture of countries where German is spoken.

Habitat for Humanity

HFH is an ecumenical Christian housing organization that works in partnership with people in need to improve the conditions in which they live.

L.E.A.D

L.E.A.D. was established to encourage students to develop leadership skills and discover

potential leaders. Programs include Emerging LEADers (a leadership workshop series focusing on developing freshman and sophomore students), L.E.A.D Awards (recognizes individual and organizational leadership of students, faculty, and staff), L.E.A.D. Summit (a one day workshop for recognized student organization leaders), and Project L.E.A.D (a one day conference for area high school students).

Major Impressions

This is a dance team that promotes school spirit at football games, basketball games, and pep rallies.

Major Productions

The mission of this organization is to provide the campus with quality entertainment. By scouting agencies and conferences, we seek the best acts suitable for our campus and book them to improve the social aspect of college.

Millsaps Christian Fellowship

The goal of this organization is to unite the community of Christians across denominational lines and to provide a service for people searching for spiritual worth.

Martial Arts Club

The purpose of this club is to provide a place for those in the Millsaps community already trained in the martial arts to train and practice with each other in a safe, non-malicious, and non-stylistic atmosphere.

Math Club

The purpose of the Math Club is to foster student interest in mathematics, acquaint students with career opportunities in mathematics, and provide a forum for intellectual discussions on mathematical topics.

Multi-Cultural Association

Open to all members of the Millsaps community. MCA endeavors to promote a sense of belonging for international and minority students by providing a forum for the exchange of cultural ideas, knowledge, and values.

Muggles Anonymous

The purpose of Muggles Anonymous is to promote the enjoyment and discussion of the Harry Potter books, and to develop an interest and joy in reading.

Millsaps Players

This group encourages participation in the dramatic arts and appreciation for the dramatic arts. The group also produces a variety of standard and original dramatic works, maintaining high production quality, and encourages artistic growth among the student body at Millsaps.

Pathfinders

This group assists the Admissions Office in their pursuit of recruiting students.

Powerlifting Club

The Powerlifting Club gives Millsaps students another choice for an extra-curricular sport that will help showcase the talent and strength of our students.

Project Yellow Ribbon

The purpose of this group is to promote awareness of suicide and its consequences to the

college community and the city of Jackson. It also provides support for survivors of suicide attempts and for friends and families of those who have committed suicide.

Psychology Club

The purpose of this club is to keep Millsaps psychology students informed and educated on topics related to the study and applications of psychology.

Student Body Association

All regularly enrolled undergraduate students of Millsaps are members of the Student Body Association. Those taking at least three courses or part-time students who pay the Student Body Association fee have full power of voting. The Millsaps Student Body Association is governed by the Student Senate, the Student Judicial Council, and the Student Body Association officers. The Student Senate is composed of 36 voting members elected from the Millsaps Student Body Association. The duties and functions of the Student Senate are to exercise legislative power over those areas of collegiate activity that are the responsibility of students and to speak for the Student Body Association on all matters of student concern. In addition, the Student Senate is responsible for (1) apportioning funds collected by the College as Student Body Association fees according to college policies; (2) recognizing student organizations; (3) formulating rules of social and residence hall conduct; (4) supervising student elections and (5) carrying out traditional class responsibilities.

Society of Physics Students

This club seeks to encourage and assist students interested in Physics to develop the knowledge, enthusiasm, and responsibility essential to the advancement of Physics.

Spanish Club

This club promotes the Spanish language and Hispanic culture.

Student Affiliates of the American Chemical Society

SAACS serves the Millsaps community and the Jackson area by encouraging interest in Chemistry.

Student Athlete Advisory Committee

The purpose of this group is to promote student athletes and programs at Millsaps.

Symposium

The purpose of the group is to question, participate, and engage in discussions, debates, and teach-ins for crucial current issues.

Ultimate Frisbee Club

The mission of this club is to play Frisbee on a competitive level and provide students with an organization that will enhance fitness.

United Nations Association

The primary mission of UNA-Millsaps is to educate the college and Jackson community about the United Nations. A secondary mission is to sponsor the participation of delegations from Millsaps in Model-UN activities.

Up 'Til Dawn

Millsaps College is the only college/university in the state of Mississippi to host this nation wide student-led, student-run program. Up 'Til Dawn unites faculty, students, and the local community to help the children of St. Jude Children's Research Hospital® by educating the

community about St. Jude while raising vital funds through a variety of activities.

Wesley Fellowship

This is a group of Christian believers seeking to listen to God and to live more faithfully as disciples of Jesus Christ.

Honor Societies

Alpha Epsilon Delta is an honorary pre-medical fraternity. Leadership, scholarship, expertness, character, and personality are the qualities by which students are judged for membership. The organization seeks to bridge the gap between pre-medical and medical studies.

Alpha Eta Sigma is a scholastic and professional accounting fraternity with the following objectives: promotion of the study and practice of accounting; provision of opportunities for self-development; association among members and practicing accountants; and encouragement of a sense of ethical, social, and public responsibility.

Alpha Kappa Delta, an international sociology honorary, promotes the use of the sociological imagination in understanding and serving human beings. The chapter, Gamma of Mississippi, founded in 1984, is a joint chapter with Tougaloo College.

Alpha Psi Omega, a national honorary dramatics fraternity, recognizes members of The Millsaps Players for their effective participation in acting, directing, make-up, stage management, costuming, lighting, or publicity.

Alpha Sigma Lambda, recognizes academic achievement among adult students.

Beta Alpha Psi, the purpose of Beta Alpha Psi is to encourage and recognize scholastic and professional excellence in the field of accounting.

Beta Beta Beta, established at Millsaps in 1968, is a national honor fraternity for students in the biological sciences. Its purposes are to stimulate sound scholarship, to promote the dissemination of scientific truth, and to encourage investigation of the life sciences.

Beta Gamma Sigma is a national honor society dedicated to the principles and ideals essential to a worthy life as well as to a commendable business career. Election to membership is the highest scholastic honor that a student in a school of business or management can achieve.

Eta Sigma Phi is a national honor fraternity recognizing ability in classical studies. Alpha Phi, the Millsaps chapter, was founded in 1935.

Financial Management Association Honor Society, established in 1984 on the Millsaps campus, serves to encourage and reward scholarship and accomplishment in financial management, financial institutions, and investments among undergraduate and graduate students and to encourage interaction between business executives, faculty, and students of finance.

Mu Phi Epsilon, the mission of this club is to promote high scholarship and musicianship among our members, to promote service and friendship on campus and in the community, and to reward excellence in music to all those who display it.

Omicron Delta Epsilon is the international economics honorary society. It is dedicated to the encouragement of excellence in economics, with a main objective of recognizing scholastic attainment in economics. Delta chapter of Mississippi was formed at Millsaps College in 1981.

Omicron Delta Kappa is a leadership society with chapters in principal colleges and universities.

Pi Circle at Millsaps brings together members of the student body, faculty, and administration interested in campus activities, together with a limited number of alumni, to plan for the betterment of the College. Election to membership in Omicron Delta Kappa is a distinct honor.

Order of Omega is a national leadership society which recognizes student achievement in promoting inter-Greek activities. The Millsaps chapter, Eta Kappa, was founded in 1986.

Phi Alpha Theta is an international honor society in history founded in 1921. Membership is composed of students and professors, elected on the basis of excellence in the study and writing of history. It encourages the study, teaching, and writing of history among all its members.

Phi Beta Kappa, the nation's oldest academic honor society, was installed at Millsaps in spring 1989. It recognizes and encourages excellence in the liberal arts. The Millsaps chapter, Alpha of Mississippi, elects members from the senior class on the basis of broad cultural interests, scholarly achievement, and good character.

Phi Eta Sigma is a national honorary society which recognizes outstanding academic achievement in freshmen. The Millsaps chapter was established in 1981. Membership is open to all full-time freshmen who achieve a grade-point average of 3.5 in either the first semester or both semesters of the freshman year.

Pi Delta Phi, the national French honor society, was established at Millsaps College in 1957. This honor society recognizes attainment and scholarship in the study of French language and literature.

Schiller Gesellschaft was founded in order to give recognition to those students who have shown excellence in the study of German and in order to provide a forum for the study of all aspects of German civilization.

Sigma Delta Pi, the international Spanish honorary, was established at Millsaps College in 1968. This honor society recognizes attainment and scholarship in the study of the Spanish language and literature.

Sigma Gamma Epsilon is a national geology honor society. Established in 1993, the organization recognizes achievement in Geological Sciences.

Sigma Lambda is a leadership and service honorary society whose members are primarily sophomores selected on the basis of character, scholarship, and involvement in college and community activities.

Sigma Pi Sigma, a national honor society in physics, was established at Millsaps in 1988. This club serves as a means of awarding distinction to students having high scholarship and promise of achievement in Physics. It seeks to promote student interest in research and advanced study and to popularize interest in Physics in the general college public.

Sigma Tau Delta is the national English honor society. The purposes of the society are to confer distinction for high achievement in English language and literature, to promote interest in literature and the English language, and to foster the discipline of English in all its aspects, including creative and critical writing. The Zeta Sigma chapter was chartered at Millsaps in 1983.

Theta Nu Sigma membership is offered to second semester sophomores, juniors, and seniors who are majoring in one of the natural sciences and who fulfill certain specified qualifications. The purpose is to further general interest in the sciences.

Fraternities and Sororities

There are six fraternities and six sororities at Millsaps. All chapters are members of well-established national and/or international organizations.

The fraternities are Alpha Phi Alpha Fraternity Inc., Kappa Alpha Order, Kappa Sigma Fraternity, Lambda Chi Alpha Fraternity, Pi Kappa Alpha Fraternity, and Sigma Alpha Epsilon Fraternity.

The sororities are Alpha Kappa Alpha Sorority Inc., Chi Omega Fraternity, Delta Sigma Theta Sorority Inc., Delta Delta Delta Fraternity, Kappa Delta Sorority, and Phi Mu Fraternity.

Policies governing fraternity and sorority life are formulated and implemented by the Panhellenic Council, the Interfraternity Council, and the National Panhellenic Council.

Questions regarding the Millsaps Greek system, sororities, or fraternities may be directed to the office of Student Affairs.

Eligibility for membership in sororities and fraternities is governed by the following regulations:

A. General Conditions

1. Only bona fide regular students (carrying at least three courses) may be pledged. Activity classes do not count toward this requirement.
2. A student may not be pledged to a fraternity or sorority until official registration for classes has been cleared by the Office of Records.
3. Only persons who are bona fide students at Millsaps at initiation time can be initiated.

B. Scholastic Requirements

1. To be eligible for initiation, a student must have earned in the most recent semester of residence credit for a minimum of three courses, must not have a grade below D in more than one subject, and must have earned a 2.0 grade point average for the semester.
2. A student who drops a course after the end of the half semester shall receive an F for sorority or fraternity purposes as well as for academic averages.
3. The two terms of the summer session combined shall count as one semester for sorority or fraternity purposes.

Note: Individual organizations may have higher standards for admission.

Awards

College Awards

Founders' Medal. Awarded at commencement to the senior who has the highest quality index for the entire college course and has received a grade of Excellent on the comprehensive examination. Only students who have completed all of the work required for the degree at Millsaps College are eligible for this award.

Tribette Scholarship. Awarded to the member of the sophomore or junior class whose quality index is highest for the year.

Henry and Katherine Bellamann Award. Presented to graduating seniors who have shown particular distinction in one of the creative or performing arts.

Omicron Delta Kappa Award. Recognizes Outstanding Freshman Man and Woman of the Year and Leader of the Year.

Bishop's Medal. Presented to the outstanding senior entering seminary who plans to pursue the pastoral ministry of the United Methodist Church.

Velma Jernigan Rodgers Scholarship Award. Presented to the rising senior woman student who has the highest grade point in the humanities.

Janet Lynne Sims Award. A medal and stipend presented to a rising senior who is a full-time student in pre-med and has completed five semesters of work. Selection is made on the basis of academic excellence. A second award is given to an entering freshman. Selection is made on the basis of pre-medical interest and academic excellence.

Dr. Thomas G. Ross Scholarship. Presented by the faculty to the outstanding senior pre-medical student.

Frank and Rachel Ann Laney Award. Given each spring for the best reflective paper written to satisfy the Core 10 requirement during the academic year. The award is intended to encourage students to reflect on the value of their education in the liberal arts.

Arts and Letters

Classics Awards

Swearingen Prize for Excellence in Introductory Greek

Swearingen Prize for Excellence in Introductory Latin

Swearingen Prize for Excellence in Second Year Latin

Presented to the students with the highest scholastic averages in Latin and Greek.

Magnolia Coulet Senior Classics Award. Presented to the senior who has best demonstrated excellence in and love for the classics.

American Bible Society Award. Presented to an outstanding student in the study of Greek and religion.

Dora Lynch Hanley Award for Distinguished Writing. Awarded annually to honor excellence in writing.

Clark Essay Award. Awarded to the senior English major who presents the best and most original paper in an English course at Millsaps.

Paul D. Hardin Senior English Award. Given annually to the outstanding senior major in English.

Robert H. Padgett English Award. Given annually to the student who does the most outstanding work on the English comprehensive exam.

Albert Godfrey Sanders Award in French. Presented to the outstanding student in French language and literature.

Albert Godfrey Sanders Award in Spanish. Presented to the outstanding student in Spanish language and literature.

Pi Delta Phi Intermediate French Award. Presented to the outstanding student in intermediate-level French.

Sigma Delta Pi Intermediate Spanish Award. Presented to the outstanding student in intermediate-level Spanish.

Schiller Advanced German Award. Presented to the outstanding student in German language and literature.

Schiller Intermediate German Award. Presented to the outstanding student in intermediate-level German.

Ross H. Moore History Award. Presented to the outstanding senior history major.

Senior Music Award. Presented to the senior music major who, in the opinion of the faculty, has been the most outstanding student in the Department of Music.

Sweat Summer Studies Awards. Presented for excellence in music performance.

Frank M. Laney Jr. Award. Presented to a senior history major who has had an outstanding record in history at Millsaps and plans to pursue a graduate education in history.

Mu Phi Epsilon Senior Achievement Award. Presented to an outstanding senior member for excellence in scholarship and leadership as well as for participation in fraternity, school, and professional activities.

Philosophy Award. Presented to a student who has shown excellence in philosophy.

William D. Rowell Memorial Award in Art. Presented to the senior demonstrating a commitment to and growth in studio art.

Excellence in Art History Award

Art History Paper Award

Outstanding Junior Studio Art Award

Science and Mathematics

Biology Award. Recognizes an outstanding biology major.

Biology Research Award. Recognizes a biology major who has won recognition in biology on the basis of interest, scholarship, and demonstration of research potential.

Tri Beta Award. Recognizes an outstanding member of the chapter who has demonstrated scholastic excellence and service in the field of biology.

J. B. Price General Chemistry Award. Presented annually to the student with the highest scholastic average in general chemistry.

Junior Analytical Chemistry Award. Awarded to the most outstanding junior enrolled in analytical chemistry.

Senior Chemistry Award. Awarded to the senior with the most outstanding record in Chemistry study and research.

Chemistry Department Service Award. Awarded to the chemistry major who has demonstrated leadership and service among his fellow students.

Computer Studies Award. Presented to the outstanding computer studies graduate.

Geology Awards

Richard R. Priddy Award. Presented to the geology major with the highest cumulative scholastic average.

Wendell B. Johnson Award. Presented to the geology student with the highest departmental average.

Geologist of the Year. Presented to geology majors of demonstrated ability and scholastic achievement.

Samuel R. Knox Senior Mathematics Award. Presented to the outstanding senior mathematics major.

Outstanding Freshman Mathematics Award. Presented to the outstanding freshman in mathematics.

General Physics Awards. Presented to the two students with the highest scholastic averages in general physics.

Physics Service Award. Presented to a physics student in recognition of service to the Department of Physics.

Social and Behavioral Sciences

Frances and L. B. Jones Award in Anthropology. Presented to the outstanding anthropology major.

Award for Excellence in Elementary Student Teaching. Given to the senior who demonstrates potential for outstanding contributions in teaching at the elementary school level.

Award for Excellence in Secondary Student Teaching. Given to the senior who demonstrates potential for outstanding contributions in teaching at the secondary school level.

Outstanding Scholarship Award. Given to the senior receiving teacher certification with the highest scholastic average.

Mary Sue Enochs Lewis Endowed Scholarship. Presented to a woman in the junior class who has demonstrated academic excellence and leadership and who has definite plans to teach upon graduation.

Reid and Cynthia Bingham Awards. Presented to the junior and senior scholars of distinction in political science.

John F. Kennedy Award. Presented to the outstanding senior in political science demonstrating excellence in academics, personal integrity, and commitment to the highest ideals of the public good in a democratic society.

William James Award for Academic Excellence. Presented to the outstanding graduating senior(s) majoring in psychology.

Mary Whiton Calkins Award for Outstanding Research in Psychology. Presented for excellence in psychological research.

Gordon Allport Award for the Application of Psychology. Presented for outstanding involvement in the application of psychological science to the public interest.

Frances H. Coker Award in Sociology. Given each year to the outstanding senior majoring in sociology.

Chi Omega Social Science Award. Presented to the outstanding female senior in the Social Sciences.

Else School of Management

Richard B. Baltz Award. Presented to the outstanding student majoring in economics.

Financial Management Association Challenge Award. Presented to the student who has demonstrated high performance in investments.

Wall Street Journal Award. Presented to the business administration senior who scores highest on the nationally normed field exam.

Mississippi Society of CPAs Award. Presented to a senior accounting major who has compiled an outstanding record.

Merrill Lynch Award. Presented to the student who has demonstrated high achievement in the area of finance.

Charles W. and Eloise T. Else Scholars. Presented to seniors in the Else School of Management who have distinguished themselves academically in their overall college work and in required junior-level course work.

CURRICULUM

U (elec gen'ral)
outflow
 $-E_0 = -k / t$
 $E_0 = k$
can be applied

Curriculum

Requirements for Degrees

Requirements for All Degrees

A total of 128 semester hours is required for the Bachelor of Arts, Bachelor of Science, and Bachelor of Business Administration degrees. Of this total, at least 120 semester hours must be taken for a letter grade.

Core Requirements for All Degrees

All Millsaps students must complete ten core courses specifically designed to develop the general abilities of a liberally educated person.

Core 1: Introduction to Liberal Studies.....	4 sem. hours
Core 2: Multi-disciplinary Topics in the Ancient World	4 sem. hours
Core 3: Multi-disciplinary Topics in the Pre-modern World.....	4 sem. hours
Core 4: Multi-disciplinary Topics in the Modern World.....	4 sem. hours
Core 5: Multi-disciplinary Topics in the Contemporary World.....	4 sem. hours
Core 6: Topics in Social and Behavioral Science	4 sem. hours
Core 7: Topics in Natural Science with Laboratory.....	4 sem. hours
Core 8: Topics in Mathematics	4 sem. hours
Core 9: Topics in Mathematics, Natural Science, or Computer Science	4 sem. hours
Core 10: Reflections on Liberal Studies.....	4 sem. hours

Courses that satisfy core requirements must be selected from an approved list published each semester with the class schedule.

All incoming students are required to complete Introduction to Liberal Studies in the first year. Reflections on Liberal Studies must be completed during the senior year. All other core courses should be completed by the end of the sophomore year. Transfer students and adult students who cannot meet this schedule should try to complete their core requirements as early in their college careers as possible.

Liberal Arts Abilities

The Millsaps liberal arts education is intended to help develop these abilities:

Reasoning - the ability to think logically and reflectively, to analyze critically and constructively

Communication - the ability to express one's thoughts and feelings coherently and persuasively through written and oral communication and to work effectively in collaboration with others

Quantitative Thinking - the ability to understand, interpret, and use numerical and scientific data and the technology of the modern world

Historical Consciousness - the ability to understand the achievements, problems, and challenges of the present with perspectives gained from a study of the past

Aesthetic Judgement - the ability to understand and appreciate creative responses to the world and to develop one's own modes of creative expression

Global and Multi-Cultural Awareness - the ability to understand and appreciate a variety of social and cultural perspectives

Valuing and Decision-Making - the ability to understand and appreciate differing moral viewpoints; to make carefully considered, well-reasoned decisions; and to make a mature assessment of one's own abilities, beliefs, and values

Multi-Disciplinary Topics Courses Core 2-5

Multi-disciplinary topics courses (core 2-5) use a thematic rather than survey approach. They take their focus from a particular field of knowledge - fine arts, history, literature, philosophy, or religion - but make explicit connections with other fields of knowledge. In this way students are encouraged to view human experience as a whole and to begin the process of making their own connections. Although a particular theme is chosen for each topics course, the themes are placed in their appropriate historical and global contexts and presented in such a way as to illustrate the process of historical change. All multi-disciplinary topics courses include a substantial amount of writing, with an emphasis on analysis and critical thinking.

Students should choose their topics courses in chronological sequence, beginning with the ancient world in the fall of their first year and proceeding to the contemporary world in the spring of their second year. Each topics course has either a primary or double disciplinary focus. *Students must choose courses to meet this requirement which represent at least three different disciplinary focuses.*

The Heritage Program

Heritage is a four-course, multi-disciplinary humanities program designed for freshmen as an alternative to the multi-disciplinary topics courses. It fulfills the requirements for core 2-5 and fine arts.

Topics Courses Core 6-9

Topics courses in the social and behavioral sciences, natural sciences, mathematics, and computer science (core 6-9) may be multi-disciplinary, but need not be. Courses meeting these requirements are designed to foster general abilities such as reasoning, quantitative thinking, valuing, and decision making. They also include writing. Laboratory science courses introduce students to scientific method and to a representative body of scientific knowledge in a way that promotes an appreciation for the impact of science upon the contemporary world.

Fine Arts

In addition to completing the requisite core courses, students must demonstrate proficiency in the fine arts in **one** of the following ways:

completing the Heritage curriculum, or

completing one of the following courses:

- IDS topics course with a fine arts focus
- Art 2500, 2510, 2520, 2530, 2540, 2550, 2560, 2580, 2590, or any art studio course
- Music 1000, 1010, 1100, or 2120
- Theatre 1000, or 1010, or

demonstrating significant experience in creating art objects or demonstrating a prescribed level of competence in the performing arts by

- completing four semesters of private study of voice or an instrument, or
- completing 4 semester hours in studio art, or
- completing 4 semester hours in Singers or a music ensemble, or
- completing significant participation in four Players' productions.

Writing Proficiency Portfolio

During their first two years at Millsaps, all students complete a Writing Proficiency Portfolio consisting of seven papers. At the end of the second year, portfolios are assessed to determine writing proficiency status. Demonstration of writing proficiency through this portfolio is a graduation requirement. If a student's writing is not found to be proficient, a student may be required to turn in an additional paper or revise a paper previously submitted to the portfolio.

Traditional students who do not complete the Writing Proficiency Portfolio by their junior year will not be permitted to register for classes until the requisite papers have been submitted for assessment. Transfer and adult students must also submit seven papers written at Millsaps, although the sequence for submission may vary according to the student's schedule of classes. All students begin their Writing Proficiency Portfolio in their Introduction to Liberal Studies class. A paper will also be submitted to the Portfolio from Core 3 or Heritage classes. Students are responsible for the submission of the remaining 2 or 3 papers.

For more information, consult the Writing Program Web page

<http://www.millsaps.edu/dean/writing> or visit the Writing Program Office in John Stone Hall.

Exemptions for Transfer Students

With the approval of the Core Council, transfer students may substitute courses in history, literature, philosophy, or religion to meet from one to three of the core 2, 3, 4, or 5 requirements.

Transfer students are required to take at least one core 2-5 course at Millsaps. All four historical periods and at least three disciplines must be represented either by transfer credit or by course work at Millsaps in order to fulfill these graduation requirements. There must also be evidence of a significant amount of writing. Likewise, a student who completes a course in the natural sciences, mathematics, or social and behavioral sciences which presumes the skill and knowledge of a core course may be exempt from that particular core requirement. Once a student has enrolled at Millsaps, he or she will not ordinarily be permitted to use transfer credits to meet core requirements.

64 Hour Policy

After earning 64 semester hours at a junior or senior college, a student may not take additional work at a junior or community college and have it apply toward a degree from Millsaps.

Residence Requirement

To qualify for graduation from Millsaps, 32 of the last 40 semester hours of academic work must be done in residence as a degree-seeking student. An exception to this rule is the pre-engineering dual-degree program in which students may transfer back the equivalent of 32 semester hours.

Additional Requirements for the Bachelor of Arts Degree

Proficiency at the intermediate level of an ancient or modern foreign language as demonstrated by completion of a 2000 course taken at Millsaps, or the equivalent. (The number of hours required to complete this requirement will vary from 0-12 depending upon language placement.)

Additional Requirements for the Bachelor of Science Degree

Students must complete Analytic Geometry and Calculus I. Students must complete four courses (ordinarily 16 semester hours) in at least three disciplines chosen from the following list. At least two courses must be laboratory courses. Students may select four courses from group I or three courses from group I and one from group II.

Group I

Biology	any course that applies to the major
Chemistry	any lab course

Geology	any lab course
Mathematics	Analytic Geometry and Calculus II or higher
Physics	any lab course
Computer Studies.....	Computer Science I or higher
Psychology	Behavioral Neuroscience

Group II

Political Science.....	Research Methods
Sociology-Anthropology	Methods and Statistics
Economics	Econometrics and Applied Statistics
Psychology.....	Experimental Psychology II

Additional Requirements for Bachelor of Business Administration Degree

Students must complete, have prior credit for, or be exempt from Survey of Calculus or a higher level mathematics before taking sophomore-level course work in the Else School of Management.

At the sophomore level, students take:

Principles of Economics.....	4 sem. hours
Principles of Financial Accounting.....	4 sem. hours
Managerial Accounting, Budget and Systems Control.....	4 sem. hours

At the junior level, students take:

Fundamentals of Marketing.....	4 sem. hours
Principles of Corporate Finance	4 sem. hours
Introduction to Management	4 sem. hours
Operations Management with Computing.....	4 sem. hours

At the senior level, students take:

The Legal Environment of Business.....	4 sem. hours
----------------------------------------	--------------

Students must fulfill the requirements for an Accounting major or a Business Administration major.

Majors: A major at Millsaps is a specialized course of study required of all students, offering the opportunity to focus in depth on a particular discipline. It usually consists of 32 to 48 hours of coursework specified by a particular department, in addition to the prescribed work for the degree. A student must major in one of the following areas: Accounting, Art, Business Administration, Biology, Chemistry, Classical Studies, Computer Science, Economics, Education, English, European Studies, French, Geology, German, History, Mathematics, Music, Philosophy, Physics, Political Science, Psychology, Religious Studies, Sociology-Anthropology, Spanish, or Theatre.

Majors in Accounting and Business Administration are only available with the B.B.A. degree. The European Studies major is only available with the B.A. degree. All other majors are available with the B.A. or B.S. degree.

Specific requirements for the major can be found under the appropriate department of instruction. Students may major in a subject only with the consent of the department chair. They are expected to declare a major by the end of the sophomore year. All work to be applied toward the major must be approved in advance by the department chair.

A student may have more than one major by completing all of the requirements in the departments involved.

Minors: While there is no requirement that students complete a minor as part of their degree, they may elect a minor in those departments which offer one.

A student must have a minimum of 16 semester hours in a department in order to qualify for a minor. A minimum of 8 semester hours applied toward the minor must be taken at Millsaps. Specific requirements for a particular minor can be found under the appropriate department of instruction.

Areas of Concentration: In addition to the major and minor, a student may have an area of concentration within a particular discipline or among several disciplines. Areas of concentration within the major are not entered on the student transcript. Interdisciplinary concentrations are treated like a minor and are entered on the transcript.

Double Counting

Courses taken to satisfy core requirements may also be used to satisfy either major requirements or additional degree requirements, but not both. Departments, however, may restrict the number of core courses that will count toward the major. Students should check with the chair of each department.

Comprehensive Examinations

Before receiving a bachelor's degree, the student must pass a satisfactory comprehensive examination in the major field of study. This examination is given in the senior year and is intended to cover subject matter greater in scope than a single course or series of courses. The purpose of the comprehensive examination is to coordinate the class work with independent reading and thinking in such a way as to relate the knowledge acquired and give the student a general understanding of the field which could not be acquired from individual courses.

The comprehensive examination requires at least three hours and is part written and part oral, the division of time between the two to be at the discretion of the members of the department concerned. The oral examination will be conducted by a committee composed of members of the department, and, if desired by the department, one or more members of the faculty from other departments or other qualified persons. The oral exam will ordinarily be given before December 1 in the fall semester and within the time period specified by the college in the spring semester. The written portion of the exam usually precedes the oral exam.

Students may take the comprehensive examination only if the courses in which they have credit and in which they are currently enrolled are those which fulfill the requirements in their major department. They may take the examination in the spring semester if they are within one semester of graduation. The examination may be given in the fall semester for students who meet the other requirements and who will not be in residence at Millsaps during the spring semester or who are pursuing a double major.

The time of the comprehensive examination in the spring semester is published in the college calendar. Comprehensive examinations will not be given at any other time except by permission of the dean. Those who fail a comprehensive examination may have an opportunity to take another examination after the lapse of two months. Additional examinations may be taken at the discretion of the chairman of the student's major department with the consent of the dean of the college.

Grade Point Index Required

An overall grade point index of 2.00 is required for graduation. Transfer students must have a minimum grade point index of 2.00 on their Millsaps work. The grade point index is calculated on the total number of courses attempted, including courses repeated for a better grade. (See section on Grades, Honors, and Class Standing.)

Application for a Degree

Each student who is a candidate for a degree is required to submit a written application for the degree by November 1 of the academic year of graduation. This date also applies to students who plan to complete their work in the summer session. Forms for degree applications are available from the Office of Records.

Requirements for a Second Degree

In order to earn a second degree from Millsaps College, a student must have a minimum of 32 semester hours beyond those required for the first degree and must meet all of the requirements for both the second degree and the additional major.

Pre-Medical and Pre-Dental

Students interested in medicine, dentistry, osteopathy, optometry, podiatry, or veterinary medicine are urged to consult with a member of the Pre-medical Advisory Committee in designing a program that will fit particular needs, backgrounds, and interests. Members of the committee have references listing the requirements and admission policies of all American allopathic schools (M.D.) and most related schools. Information is also available for other medical programs, as well as nursing, occupational therapy, physical therapy, medical technology, and related fields.

Early in the fall semester of the senior year, the student should arrange an interview with the Pre-medical Advisory Committee, which will evaluate the student's qualifications for medical study. This evaluation will be sent to the professional schools in which the student is interested.

It is the responsibility of the pre-medical and pre-dental students to consult the catalogs of the schools to which they wish to apply for their specific requirements. However, the following courses generally fulfill the entrance requirements of medical, dental, and related schools:

Biology.....	1 year
General inorganic chemistry.....	1 year
Organic chemistry	1 year
Physics	1 year
Mathematics.....	1 year

Additional advanced science is often required.

Many medically-related programs have more specific requirements.

Millsaps College and the majority of medical and dental schools strongly recommend that the student obtain a baccalaureate degree in an area of interest. It is not required that this degree be in a science, and students are encouraged to achieve a broad background in the humanities and social sciences, although the above listed requirements are generally immutable. The new Medical College Admissions Test (MCAT) emphasizes the desirability of a broad reading background and also requires writing an essay.

These requirements are further addressed in meetings of pre-med students held each semester. The pre-medical honorary, Alpha Epsilon Delta, also conducts meetings of interest to students in all health-related curricula. Interested students should avail themselves of these opportunities throughout their studies.

Admission to medical and dental programs is highly competitive. Success involves:

- grade point average (both total and science/math),
- score on the appropriate professional exam (e.g. MCAT, DAT),
- faculty and pre-med committee recommendations,
- outside activities (including both campus and work experience),
- a successful interview with the professional school.

Combined research/professional programs are offered by many of these schools.

Pre-ministerial

There is no required program of studies for persons planning to enter one of the ministries of the Church. Undergraduate pre-seminary work at Millsaps should include significant work in the study of religion and philosophy and in the social and behavioral sciences. No one major is best. Students considering a ministerial career should consult with the chair of the department of Religious Studies or the college chaplain as early as possible. Given the special challenges of the practice of ministry, students should plan to undertake professional education in a theological seminary. The best preparation for such professional education is an undergraduate education with breadth in the liberal arts. Pre-ministerial students may also want to consider the Concentration in Christian Education (listed under Interdisciplinary Programs).

Pre-law

No particular major or sequence of courses is necessary for students planning to go to law school. Indeed, there is no ideal pre-law program applicable to all students. Instead, a student planning to attend law school should strive to attain and master the intellectual qualities that make one successful in the study of law: (1) the ability to think and analyze critically, and (2) the ability to write well.

Different students will learn, practice, and hone these qualities in different majors and in different courses across the disciplines here at Millsaps. To build the most appropriate program of study, student planning for law school should consult her or his major adviser, faculty that have been influential in her or his academic study thus far, the Career Center, and the pre-law adviser.

The Law School Admission Test (LSAT) should be taken in the spring semester of the junior or the fall semester of the senior year. During the junior year, the student interested in law school should consult with the pre-law adviser to begin preparations for the LSAT and the law school admission process.

Pre-social work

Students who wish to prepare for a professional career in social work should plan a program with a major in one of the social sciences, preferably sociology-anthropology. Introduction to Sociology, Introduction to Anthropology, Marriage and Family, and Social Stratification are essential. Other courses which are strongly recommended include Sociology of Human Interaction, Theories of Personality, and Social Psychology. Internships can provide valuable practical experience with community social welfare agencies. Students are urged to consult with their faculty advisors to plan a schedule.

Teacher Licensure

The Millsaps College Teacher Preparation Program is accredited by the National Council for the Accreditation of Teacher Education (NCATE), accredited and approved by the Mississippi

Department of Education. The program allows undergraduates to explore teaching as a career option within the regular framework of a Millsaps B.A. or B.S. degree, and to become fully prepared and licensed to teach successfully at the elementary or secondary level. Participants can major in an academic subject and earn Secondary and/or Middle School Licensure in Art, Biology, Chemistry, General Science, English, Drama (Performing Arts), Social Studies, Mathematics, Music Education Instrumental, Music Education Vocal, Physics, Psychology, Sciences, Theatre, and world languages including French, Latin, Spanish, and German. Students may major in Elementary Education and receive licensure at the elementary school level. Students may also minor in Education. Supplemental Licensure is available in Mild/Moderate Disability and Gifted.

The licensure program, which is fully integrated within the liberal arts curriculum of the College, is streamlined and field-based to maximize student time and potential. Students are encouraged to proceed through the licensure process in a sequential manner. Teacher certification can be earned concurrently with any other major during the four year undergraduate experience. For details of the licensure program fitting a student's major and program of study, contact the Department of Education.

Cooperative Programs

Business Administration

Major Plus Program in Business Administration: The Else School of Management offers a program designed to permit students pursuing degrees other than the B.B.A., particularly those working toward the B.A., to complete the M.B.A. with only one additional year of study beyond the bachelor's degree program. The following courses, which constitute the foundation courses of the M.B.A. program, may be taken as general electives during the student's bachelor's program:

- College Algebra
- Elementary Statistics
- Principles of Economics
- Principles of Corporate Finance
- Survey of Accounting
- Introduction to Management
- Fundamentals of Marketing
- Operations Management

A non-B.B.A. student who successfully completes all of the prescribed courses will be in a position to earn the M.B.A. by completing the upper-level courses pertinent to that degree program. This can be done in 12-15 months of study at Millsaps College. For details of the Major Plus program, contact the Director of Graduate Business Admissions.

Engineering and Applied Science

This program at Millsaps offers many opportunities for the student interested in engineering, applied science, management, and business administration. With this cooperative program, the student can combine the advantages of a liberal education at Millsaps with the specialized programs of a major university. The Arthur C. Miller Pre-engineering Scholarship Fund provides a scholarship based on financial need and academic progress for a student expressing an interest in engineering.

3-2 B.S. Programs: Millsaps has agreements with four universities - Auburn, Columbia, Vanderbilt, and Washington universities - by which a student may attend Millsaps for three years and then complete work at any of the schools listed above. The student may transfer a maximum of 32 semester hours back to receive a bachelor's degree from Millsaps and at the end of the fifth year receives another bachelor's degree from the university.

4-2 B.S. and M.S. Programs: The Columbia University Combined Plan also has 4-2 programs in which a student attends Millsaps for four years, completing degree requirements, and then spends two more years at Columbia to obtain a B.S. or M.S. degree from the Columbia School of Engineering and Applied Science.

3-3 B.S./M.S. and B.S./M.B.A. Programs: Washington University also has a combined Degree Program wherein the student spends three years at Millsaps and then spends three years at Washington University earning both the B.S. and M.S. from the School of Engineering and Applied Science or both the B.S. from the School of Engineering and Applied Science and the M.B.A. from the Graduate School of Business Administration.

A wide variety of programs are offered by the four participating universities, including financial aid for qualified students. For detailed descriptions of programs and financial aid, the interested student is urged to consult with the pre-engineering adviser. To be admitted to the programs listed below, the student must fulfill certain minimum course requirements at Millsaps. For many programs, particularly those in engineering and applied science, the mathematics requirements are strict. To keep the 3-2 or 4-2 option viable, a student should plan to take calculus at the earliest possible time at Millsaps.

For students interested in engineering, the general expectation of the cooperating engineering schools is that most, if not all, of the science, mathematics, and humanities requirements for the engineering degree be taken at Millsaps. Students interested in a particular program, however, should consult the catalog of the appropriate university and the Millsaps pre-engineering adviser. Some programs have particular requirements, such as the Auburn University electrical engineering requirement of an ethics course, which students might wish to fulfill at Millsaps.

The Dual Degree Program at Auburn University includes bachelor of engineering degrees in aerospace, chemical, civil, electrical, industrial, material, and mechanical engineering. It is also possible to obtain a B.S. in agricultural engineering.

The Combined Plan Program at Columbia University offers B.S. and M.S. degrees in civil, electrical, industrial, mechanical, mining, nuclear, biological, chemical, metallurgical, and mineral engineering. Other programs include computer science, engineering mechanics, applied mathematics (B.S. only), applied physics, materials science, operations research, solid state science (M.S. only), chemical metallurgy, applied chemistry, and materials science.

Vanderbilt University offers bachelor of engineering degrees in chemical, civil, electrical, and mechanical engineering.

Washington University offers B.S. and M.S. programs in bio-medical, chemical, civil, computer, electrical, and mechanical engineering. Other programs include computer science, systems science and engineering, and business administration (M.B.A.).

Military Science

Military Science is offered on the campus of Jackson State University under the partnership

Agreement between Millsaps College, Jackson State University, and the U.S. Army. Students enrolled at Millsaps are eligible to enroll and attend Reserve Officer Training Corps (ROTC) classes on the campus of Jackson State University. Credits earned in ROTC will be entered onto the student's transcript but will not be counted towards Millsaps graduation requirements.

The Reserve Officers' Training Corps provides students an opportunity to earn a Presidential commission as a Second Lieutenant in the U.S. Army Reserves, or the Army National Guard, concurrent with the pursuit of an academic degree. The objectives of the program are:

- To produce the future officer leadership of the U.S. Army.
- To provide an understanding of how the U.S. Army Reserve and Army National Guard fit into the National Defense structure.
- To develop the leadership and managerial potential of students to facilitate their future performance as officers.
- To develop the students' abilities to think creatively and speak and write effectively.
- To encourage the development of mental and moral standards that is essential to military service.

The program of instruction includes developing self-discipline, physical stamina, and other qualities that are cornerstones of leadership excellence.

The ROTC Program is divided into a Basic Course of instruction (Freshman and Sophomore classes) and an Advanced Course of instruction (Junior and Senior classes). In addition to the course of instruction, students are required to attend a Leadership Laboratory.

There is no charge for enrolling in the ROTC Program; however, cadets must be admitted into Millsaps College as full-time students before enrollment in ROTC. Books, equipment, and uniforms are provided at no cost to students. Uniforms, however, must be turned in at the end of each semester. Three-year and two-year ROTC Scholarships are available and awarded on a competitive basis.

All students complete an internship during the summer between their junior and senior years. Off-campus summer training in parachuting, helicopter operations, engineering, and outdoor marksmanship are available to all ROTC students.

Description of Courses

MLSC 101. Fundamentals of Leadership and Management I. Teaches the basic structure of the United States Military with emphasis on the organization of the Army. Teaches leadership principles and traits, customs and courtesies of the services, drill and ceremonies, and introduction to map reading.

MLSC 102. Fundamentals of Leadership and Management II. Teaches leadership principles and traits, customs and courtesies of the service, drill and ceremonies, first aid, and introduction to map and navigation.

MLSC 200. Fundamentals of Arithmetic Systems (ROTC). Prerequisite: ROTC cadets only. See Mathematics 200.

MLSC 201C. Advanced Applied Leadership and Management I (Compression Course). This course is designed for sophomore students who have not had previous military science classes, basic training, or high school JROTC. It teaches the basic structure of the United States Military

with emphasis on the organization of the Army and explores the dynamics of effective leadership, leadership principles, traits, and dimensions.

MLSC 201. Applied Leadership and Management I. A study of military tasks and skills an officer must be proficient in during his/her career. It teaches written and oral communication techniques, presentation of information briefings, prevention of heat and cold weather injuries, tactical operations, and development of leadership skills.

MLSC 202. Applied Leadership and Management II. A study of the military tasks and skills an officer must be proficient in during his/her career. Teaches land navigation; using a map compass, role of non-commission officers, conduct of drill and ceremony, first aid, written and oral communication techniques, and procedures for public speaking.

MLSC 202C. Advanced Applied Leadership and Management II (Compression Course). This course is designed for sophomore students who have not had previous military science courses, basic training, or high school JROTC. Teaches basic first-aid and small unit organization. Major focus is on mastering map reading and land navigation skills.

MLSC 223. Practical Rhetoric (ROTC). Prerequisite: ROTC cadets only. See ENG 233.

MLSC 300. Basic ROTC Camp. Prerequisites: Students must have a minimum of 2 years college remaining. ROTC Basic Camp is a six-week summer training and evaluation class conducted on an active Army base. Students learn fundamental military skills and develop the ability to lead others. Students earn approximately \$761.00 while learning fundamental leadership skills with hundreds of other college students from universities throughout the United States and Puerto Rico. This is a substitute course for MS 100, MS 102, MS 200, level courses. Qualifies students for MS 300 level courses.

MLSC 301. Advanced Leadership and Management I. Prerequisites: 10 hours, MS 100 and MS 200 level courses or MS 300, or MS 201-04, or MS 202-04, or prior military service (active or reserve), or 3 years JROTC. Prepares students for rigors and challenges of being an Army officer. Includes introduction to leadership principles, assertiveness training, and self-evaluation. Advanced drill and ceremony, physical fitness training, individual tactical training, and advanced map reading/orienteering. Emphasis is placed on the application of leadership dimensions, oral and written communications. Qualified students receive \$1500 stipend annually. Course includes mandatory field training exercises.

MLSC 302. Advanced Leadership and Management II. Prerequisite: MLSC 301. Analysis and application of the leaders' role in directing and coordinating the efforts of individuals and small organizations in the execution of assigned missions and projects. Evaluates students' ability to lead, direct, and influence others. Qualified students receive \$1000 stipend annually. Course includes scheduled field training exercises and is followed by a one week mandatory training exercise at a Military installation.

MLSC 309Z. Introduction to Reading (ROTC) Prerequisite: ROTC cadets only. See RE 309.

MLSC 400. Advanced ROTC Camps. Prerequisites: MLSC 301 and MLSC 302. Advanced Camp is a six-week summer training and evaluation class conducted on an active army base. Cadets must attend advanced camp during the summer upon completion of MLSC 302. Students are placed in leadership positions and evaluated on their ability to plan, direct, and execute tasks while operating in challenging and stressful environments. Students will earn approximately \$800 for attendance at Advanced Camp.

LSC 401. Seminar in Leadership and Management I. Prerequisites: MSLC 301 and MSLC 302. Students learn small organization administration, personnel management, staff procedures, and military justice. Included in these areas are problem solving, functions of the chain-of-command, and officer/enlisted relationships. Emphasized throughout the course are effective oral and written communication skills. Qualified students receive \$1500 stipend annually.

LSC 402. Seminar in Leadership and Management II. Prerequisite: MSLC 401. Teaches ethics and professionalism, basic logistical procedures, personnel performance counseling techniques, conduct of staff meetings, and military justice. Students receive a review of military skills subjects, leadership training, and final preparation for entering the respective Army career fields. Qualified students receive \$1500 stipend annually.

Special Programs

Ford Teaching Fellows Program

The Ford Teaching Fellows Program provides an opportunity for upper-class students with an interest in college teaching to work closely with a faculty member in their area of academic interest. Primary teaching under faculty supervision is encouraged as well as research and scholarship. Each student must submit an application, completed jointly with their proposed faculty mentor, the program director early in the spring semester. Approximately twelve students are selected each year for participation in this program.

Honors Program

The Honors Program provides an opportunity for students of outstanding ability to pursue an advanced course of study which would ordinarily not be available. In the spring of their junior year and the fall of their senior year, honors students carry out a research project of their choice under a professor's direction. The project's final product, consisting wholly or partially of a written thesis, is presented before a panel of faculty members. In the spring of the senior year, students participate in an interdisciplinary colloquium which intensively examines a topic of broad interest. Students successfully completing all phases of the Honors Program receive the designation "with Honors" in their field of honors work at graduation. Students interested in participating in the Honors Program should consult with the program director in the fall of their junior year.

Washington Semester

The Washington Semester is a joint arrangement between American University, Millsaps College, and other colleges and universities in the United States to extend the resources of the national capital to superior students in the field of the social sciences. The object is to provide a direct contact with the work of governmental departments and other national and international agencies that are located in Washington, thus acquainting the students with possible careers in public service and imparting a knowledge of government in action.

Under this arrangement, qualified students of demonstrated capacity from the participating colleges spend a semester at the School of Government and Public Administration of the American University in Washington. They earn sixteen semester hours of credit toward graduation. Eight semester hours are earned in a Conference Seminar, in which high-ranking leaders of politics and government meet with students. Four semester hours are earned in a research course, which entails the writing of a paper by utilizing the sources available only at the nation's capital. An additional four semester hours are earned in an Internship, in which the student is placed in a government or public interest organization office.

School of Management Intern Programs

Students have the opportunity of obtaining specialized training and practical experience in man-

agement through an established Internship Program. The program involves prominent regional and national business organizations and agencies of the state government. The student's training is conducted and supervised by competent management personnel according to a predetermined agenda of activities. Evaluation of the student's participation and progress provides the basis for granting appropriate academic credit.

International Study

Based on the belief that international experience is vital to successful leadership in all academic and professional fields, the Center for International Initiatives (CII) is dedicated to the promotion and development of international co-curricular opportunities for all members of the Millsaps community. International study typically takes place between the completion of a student's first and third year of study at Millsaps College. A student may arrange to study abroad for a semester, year, or summer. The timing of study is determined, in part, by a student's academic program and progress toward completion of their degree requirements.

Students interested in international study should contact the CII as much as a year in advance of their intended term of departure for assistance in planning and program selection. Programs are located in every corner of the world, cover virtually all interest areas, and typically have one or more of the following foci: academic, fine arts, service, internship, language, and teaching. The Study Abroad office provides information on programs sponsored by Millsaps College in addition to those sponsored by other organizations.

Among Millsaps students, the most popular program choices are those designed, directed, and taught by Millsaps faculty each summer. Millsaps programs are located in France, Costa Rica, Mexico/Yucatan, China, Greece/Italy, and Europe (Business or Liberal Arts). In addition, a winter break course for business students is offered in the Yucatan. Participants receive full academic credit for select core and major requirements without having to worry about transfer credit issues. In addition, direct exchange options are offered in Japan, Ireland, and Scotland.

Financial Aid for Study Abroad

Students who receive or are eligible to receive federal financial aid may apply these funds toward the cost of study in an approved program. Unsubsidized federal loans for the purpose of study abroad are available for students who do not qualify for need-based aid. The Millsaps Alternative Loan Program enables most students to cover the full cost of any off-campus study program. Eligibility for the loan is based on the total cost of off-campus study, less any other financial aid received. The student must be credit-worthy or have a credit-worthy co-signer. Interest accrual begins immediately. The payback period begins 6 months after graduation with no penalty for early payment.

Millsaps academic scholarships may not be applied toward off-campus study. Students planning international study during the fall or spring semester must complete the Application for Office Campus Study (see below) in order to maintain eligibility to retain academic scholarships. However, it will be necessary to reapply for need-based aid.

A number of scholarship programs are available to assist students in affording study abroad. Several key award programs are listed below. A complete listing can be found on the Millsaps web site at <http://www.millsaps.edu/stuafr/career/scholarships.shtml>.

The Freeman Awards for Study In Asia offers qualified undergraduate U.S. citizens or permanent residents the financial support to travel and learn in countries in East and Southeast Asia for up to one academic year. Grants range between \$3,000 to \$7,000, depending on the length of stay. Priority is given to students with no previous experience in Asia.

The Benjamin Gilman Scholarship for Study Abroad is a need-based scholarship offering grants of up to \$5,000 to assist with study abroad related expenses. Applications are only considered from students who are receiving a Pell grant at the time of application.

Rotary Scholarships provide funding for up to one academic year of study in another country. This award is intended to help cover round-trip transportation, tuition, fees, room and board expenses, and some educational supplies. Application must be made through a local Rotary club in the applicant's legal or permanent residence or place of full-time study or employment. Deadlines vary by district.

Academic Credit for Study Abroad

To receive Millsaps academic credit in a non-Millsaps sponsored program, all students must complete an Application for Off-Campus Study, which can be found in the Study Abroad Office (3rd floor, Student Center). Program choice and courses for Millsaps credit must be pre-approved. Students seeking such credit should not make a final commitment to a program until such approval is received.

Winter Term Global Business in Latin America

Students will learn to assess and understand geographic, environmental, economic, social-cultural, political, and legal factors that impact the business environment of Latin America. The course includes 6 hours of formal classroom instruction at Millsaps College before departure for the region and an additional 38 hours of classroom instruction once there. In addition to the classroom instruction, students will participate in field trips that expose them to the history and culture of the region as well as to various leaders of business, industry, and government. Study begins in the region at the Helen Moyers Reserve at Kiuic, where students will gain an understanding of the most basic forms of economic activity (subsistence farming, hunting, and logging) and experience the remnants of the colonial hacienda economic model. From there, the program will move to the modern city of Merida for the study of the industrial development of that city. The program concludes in Cancun area, where study will focus on the evolution of the tourist business and its impact on the country. An integral part of course instruction will include a 1 hour per day session in which students will be required to study and practice conversational Spanish. This course is structured to allow business students and faculty members from the University of the Yucatan to participate in classroom discussions and lectures, thus offering a unique learning opportunity for students and faculty from both institutions.

Spring Break in Italy (alternates years with study in Greece)

This program brings ancient history to life by introducing students to the art, archaeology, and culture of Rome. The trip begins in Sorrento on the breathtaking Amalfi coast; then students travel to the isle of Capri to see remains of Tiberius' Villa and to Pompeii, the historic city covered in volcanic ash in 79 C.E. In Rome, students will explore the Palatine and Capitoline hills, the Colosseum, the Imperial Forum, and Hadrian's Villa at Tivoli; students will also visit some of Italy's finest museums in Rome, including the Vatican Museum, and tour the necropolis (city of the dead) underneath St. Peter's Basilica. More information: http://www.millsaps.edu/classics/classics_travelrome.shtml.

Spring Break in Greece (alternates years with study in Italy)

This program introduces students to the art, archeology, and culture of Greece. The trip begins in Athens, with exploration of the majestic Athenian Acropolis, the mazes of the Old Town Plaka, and the riches of the great museums in Athens. Travel continues to Cape Sounion with its magnificent temple ruins perched on a mountain top, then to Corinth, the city of Medea and the site of Paul's Letters to the Corinthians. Students then visit the charming city of Nauphlion, the

thrilling remains of the Bronze Age culture of Mycenae, the elegant and extensive ruins of Asclepius' healing sanctuary and its magnificent theater, and finally Olympia, the location of the temple sanctuary of Zeus and Hera and the home of the Olympic Games. By ferry, the group travels to the sanctuary of the Oracle of Apollo at Delphi, then onto the Santorini, where stark white towns hang atop black volcanic cliffs, to visit the remains of a bronze age city destroyed by an eruption of a volcano in 1500 B.C. More information: www.millsaps.edu/classics/classics_travelgreece.shtml.

Summer Program in London, Munich, and Florence - Business and Liberal Arts

Millsaps College offers a summer European program based in London, Munich, and Florence, with opportunities for other European travel and cultural experiences built into the program. Students may choose courses offered by the Else School of Management, the Division of Arts and Letters, and the Division of Sciences. Millsaps faculty design and teach the courses, integrating experiences, field trips, and guest speakers that highlight the world-wide classroom. The program is open to graduate and undergraduate students. Course listings vary each year.

Recent listings by the Else School of Management include History of Economic Thought; Issue in International Economic Policy; International Legal Environment; International Lessons in Leadership; History and Development of International Banking and Commerce; and Marketing in a Global Environment and Emerging Issues in International Finance.

Recent listings by the Division of Arts and Letters and Division of Sciences include The Evolution of Evolutionary Thought; Power Struggle in the American Colonies: Bourbons versus British; The Eye/I of Discovery: American Travel Writing in Context; Expatriate Writers in London and Paris; The Roman Conquest of the Etruscans and the Germans: Archaeology on the Edge of the Empire; and Medieval Art and Architecture.

Millsaps Summer in Nice and Paris

Open to any student who has at least a year of French, the program is designed for students wishing to perfect their language skills and learn the Gallic way of life. The first three weeks of the program are based in Nice, the last week in Paris. Classes are taught by Millsaps faculty and the staff of France Langue. They include Intermediate French; Contemporary French Culture; Provencal Literature and Civilization; and Advanced Grammar. The school is centrally located in the heart of Nice, very close to shopping avenues and just a 15-minute walk from the famous avenue Promenade des Anglais that runs alongside the beach, and the school in Paris is close to the Arc de Triomphe. Students live with middle-class families carefully selected for their friendliness, patience, and support of foreign students.

Living In Yucatan

Living in Yucatan is an environmental citizenship field experience exploring cultural and resource issues from the height of the classic Maya civilization through current trends in tourism and commercial development. The course comprises three research and study modules: Maya culture and archaeology, tropical deciduous forest ecology, and the impact of development on the Great Maya Coral Reef. The Maya culture module explores current archaeological excavations and evaluates several major reconstructed sites. Additionally, students experience modern rural and urban culture from the Maya perspective.

Tropical deciduous ecology is studied on the grounds of the historic Kiic, home to one of the oldest forests in the Puuc Region of Yucatan and an excellently preserved, and as yet unstudied, major Maya city. Students collect data for a baseline species audit and collaborate with graduate students and faculty from Autonomous University of Yucatan (UADY).

The final module examines the impact of tourism on the shallow marine environment and sea turtle habitat from Cozumel and Cancun to the coast of Belize. Students collect field data on the reefs and retrieve sediments for chemical analysis. Participants live in a variety of cultural and ecological zones, including the capital city of Merida, major archaeological sites, the Caribbean, and a week at the reconstructed colonial hacienda Tabi, once the largest hacienda in the Yucatan.

Field Biology in Yucatan

This program is a study of community ecology emphasizing field techniques. The program fulfills the Ecology and Evolution requirement for the Biology major or minor, and may be repeated as topics vary. Students engage in exploration of the tropical dry forest community structure at the Moyers Biocultural Reserve in Yucatan, Mexico. Prerequisites: Biology 1000, 1010, and 020; recommended: Biology 2210.

Millsaps Summer Program in Costa Rica

Designed for students interested in Spanish, this program features courses taught by Millsaps professors and includes an excellent balance of cultural activities, educational tours, and recreational travel. Classes are held at the Instituto Centroamericano de Asuntos Internacionales (CAI), an outstanding private academic institution located in San José, the capital of the most stable, progressive country in Latin America. Because participating students live with carefully selected middle-class families, they have an exceptional opportunity to experience Hispanic culture first-hand, as well as learn through on-site classes and field trips. The program is open to all students who have had at least a year of college Spanish or the equivalent.

Chinese Culture and Society

This program is an intensive study of China which introduces students to both traditional and contemporary Chinese culture and society. The course includes readings in archaeology, arts, history, sociology, and education. Site visits to the Tomb of the First Emperor of Qin and his terra cotta army, the Forbidden City, the Great Wall of China, and Tiananmen Square will help students link present-day China with its past and better understand today's China, particularly its political system, through the investigation of China's feudal and imperial roots. By observing traditional Chinese architecture, arts, and village life, our visits to Suzhou (a world heritage site famous for its private gentry homes with traditional gardens) and Zhou-zhuang (a 900-year old village in southern China famous for its intellectuals and entrepreneurs during the imperial era), will help students understand the characteristics of Chinese culture and national character and see how these characteristics have influenced the economic development in China today.

The interaction between cultural tradition and the demands of a modern economy will be further examined by our visits to various schools in Wuhan. These visits, which will include a kindergarten, a foreign language school with grades one to twelve, and two universities, will introduce students to China's education system and enable them to observe the impact of government policies, particularly the one-child-per-family policy, and the significant role the family plays in children's academic achievement. In Wuhan, we will also meet Millsaps graduates who are teaching English at Wuhan Institute of Technology to discuss the issues of higher education in China and the experience of working and studying in China after Millsaps. Finally we will explore the issues related to economic reform in China to see its results in improving living standards as well as its impact on the environment and its implications for the rest of the world by visiting economic development zones in Wuhan and the Three Gorges, where China is building the world's largest dam. The purpose of these visits is for students to see and to think about the complex relationship between economic development, the material well-being of the people, population size, and the preservation of the environment.

Queens University and the University of Ulster, Northern Ireland

Freshmen and sophomore students with a GPA of 3.2 or better at the end of the fall term will be invited to apply to be selected to participate in Millsaps' direct exchange program in Northern Ireland. Students may apply for study for one semester (fall or spring) or for the full academic year. Because this is an exchange program, participants in this program are able to retain up to 75% of their Millsaps merit based awards.

Two nominees are chosen by Millsaps College and submitted for final consideration to the Methodist Board of Higher Education and Ministry. Final selections are made by the Board. Positions are offered at Queens University (www.qub.ac.uk) and the University of Ulster (www.ulst.ac.uk). With few exceptions, students may choose to pursue any course of study offered by the universities. These are outstanding schools and competition for these spaces is keen. Application forms are distributed in late November and are due back by the middle of January each year.

Kansai Gaidai University, Osaka Japan

Located near Kyoto and Nara (ancient capitals) and Osaka (Japan's second largest metropolis), Kansai Gaidai offers a wide variety of courses focusing specifically on Japan and Asia. Courses are taught in English by experienced scholars. All students study Japanese, and participation in a homestay with a Japanese family is encouraged.

Course offerings cover the spectrum of Asian studies and include the following (This represents only a partial listing.): Japanese Style Management, Communicating Across Cultures, Religion in Japan, Zen Buddhism, Marketing Foreign Products in Japan, Modern Japan in Literature and Art, The Economies of East Asia, Gender and Culture in Japan, Japan - U.S. Relations, Survey of Japanese Art, Anthropological Perspectives on Culture, and Society in Japan. Students who participate in the Kansai Gaidai exchange program continue to pay tuition, room, board, and fees to Millsaps College while retaining all Millsaps scholarships and aid. In addition, students may apply for the Millsaps ALP loan program to get the extra funds needed to cover the cost of airfare, personal expenses, and supplemental travel while abroad. Participation in this program is during the regular academic year—fall, spring, or full year. At this time, only two students from Millsaps can be selected to participate each year. To learn more about Kansai Gaidai, visit their web site at www.kansai-gaidai-u.ac.jp.

Millsaps Institute of Central American Studies (MICAS)

MICAS administers a program of research and educational opportunity in Central America specifically focused on the undergraduate research experience. The Center's research projects and other educational opportunities are designed to help undergraduate students experience, through hands-on, research-based inquiry, the anthropology, archaeology, culture, environment, geology, and marine science of Central America.

MICAS also provides opportunities for scholarly and cultural advancement to academic research groups and the cultures and societies of Central America. Field studies and research in various disciplines are supported by the laboratory, analytical, and data processing facilities on the Millsaps campus.

Washington and Lee Cooperative Program for Pre-Medical Students

In collaboration with St. Andrews College, Scotland, students spend a fall term at one of Britain's most ancient universities while completing organic chemistry and other required studies in a manner acceptable to the American Medical College Application Service (AMCAS). The organic chemistry course is currently approved by Millsaps faculty. Students may also participate in a

non-credit observational internship at Nine Wells, a major teaching hospital nearby. This program is open to any sophomore or junior with a cumulative GPA of 3.0 or better and a grade of B in the first year general chemistry course. Applications are due by February 1. Contact Dr. William Klingelhoffer, wklingel@wlu.edu.

Global Partners Project

The Global Partners Project is a collaboration of 41 liberal arts colleges from three consortia: the Associated Colleges of the South, Associated Colleges of the Midwest, and the Great Lakes Colleges Association. The goal of Global Partners is to reconceive existing study-abroad programs through collaboration among the 41 member institutions, increasing international opportunities for students and faculty. The project currently recognizes over 250 study abroad programs in 57 countries.

Office of Adult Learning

The Office of Adult Learning

The Office of Adult Learning coordinates and administers programs and services to adult learners. These include the Gateway Program, the Community Enrichment Series, Leadership Seminars in the Humanities, and Advanced Placement Institutes, as well as admitting and advising non-degree-seeking students.

The Gateway Program

The Gateway Program was established to meet the needs of nontraditional adult undergraduates who wish to pursue a degree as full-time or part-time students. Students admitted to the Gateway Program are required to take Liberal Studies 1010 in order to take advantage of the features of the Gateway Program, specifically the opportunity for independent directed study and credit for prior learning. The Director of the Gateway Program provides individualized academic advising and tracks the academic progress of adult students. For more information, contact the Office of Admissions.

Community Enrichment Series

Since 1972, Millsaps College has offered to the greater Jackson community a variety of opportunities through the Community Enrichment Series. These are non-credit courses which require no prerequisites and no examinations. They cover a variety of special interest areas such as Talking Your Way Through France, Understanding the Stock Market, Computer Basics, Assertiveness Training, Landscape Design, and Pottery. Enrichment courses are available in the fall, winter, and spring.

Leadership Seminars in the Humanities

Established in 1987 and made possible in part by a grant from the National Endowment for the Humanities, Leadership Seminars in the Humanities bring together Millsaps professors in the humanities with corporate and professional leaders in the community. These seminars, which carry graduate credit, offer an opportunity for serious engagement with intellectual issues affecting society and the individual.

Advanced Placement Institutes

Designed for teachers who teach Advanced Placement courses to high school students, Advanced Placement Institutes are offered each summer with instructors recommended by the College Board. Participants work with these master teachers to plan and prepare courses that will help students to become well prepared for college courses and to perform creditably on the Advanced Placement examinations.

Principals' Institute

The Millsaps College Principals' Institute provides personal and professional growth opportunities for principals and assistant principals of public, private, and parochial schools. The Institute is an effort to form partnerships between Millsaps College and the K-12 education community in order to strengthen education in Mississippi. Administered by the Millsaps Education Department in collaboration with the Mississippi Department of Education, the Institute awards professional development credits to administrators who participate in its programs.

Graduate Programs

Master of Accountancy

The Master of Accountancy degree is designed for students who intend to pursue professional careers in public accounting, business, and the government/non-profit sector. The M.Acc. fulfills the educational requirements to sit for the CPA examination in states which have adopted the AICPA's 150 credit hour requirement. The program involves a fifth year of study beyond the B.B.A. degree. Students who plan to seek the M.Acc. degree should take the basic accounting major. For more details about the M.Acc. program, consult with a member of the accounting faculty, the Graduate Business Admissions office, or see the Master of Accountancy description under the Else School of Management portion of the catalog. or see the Else School web pages.

Master of Business Administration

The Renaissance Master of Business Administration (R.M.B.A.) degree is offered in both daytime and evening classes. The Millsaps R.M.B.A. program is particularly suited to students with a liberal arts background. A typical class includes men and women with a broad range of ages and with backgrounds from engineering, the physical and social sciences, the arts and humanities, and business. For further information about the R.M.B.A. Program, see the Graduate Catalog, contact the Graduate Business Admissions office, or see the Else School of Management web pages.

ADMINISTRATION OF THE CURRICULUM

Administration of the Curriculum

Grades, Honors, and Class Standing

The grade in any class is determined by the combined class standing and a written examination as explained in the class syllabus.

- A represents superior work.
- B represents above average achievement.
- C represents a satisfactory level of achievement.
- D represents a less than satisfactory level of achievement in the regularly prescribed work of the class.
- F represents failure to do the regularly prescribed work of the class. All marks of D and above are passing marks, and F represents failure.
- W indicates that a student has withdrawn from a course or has received approval to withdraw from the College.

- I indicates that the work is incomplete. If the incomplete is not removed by the end of the following semester, the incomplete grade will change to a F.
- IP indicates work in progress during the current semester.
- CR represents passing work in a non-graded course taken for credit.
- NC represents no credit in a non-graded course taken for credit.
- NR indicates no grade reported.
- AU represents audit.

Grade Points

The completion of any academic course shall entitle a student to the following grade points for a semester hour:

A	4
A-	3.67
B+	3.33
B	3
B-	2.67
C+	2.33
C	2
C-	1.67
D+	1.33
D	1
F, I	0

Grade points earned for a course are determined by multiplying the numerical value of the grade by the number of semester hours that the course carries. A grade point average is determined by dividing the total number of grade points by the number of semester hours taken.

The deadline for submitting grade changes to the Office of Records will be no later than the date that midterm grades are due in the semester following the one that contains the error. The same deadline will apply to changes in grades for students who have already graduated. No changes will be made in class rankings or graduation rankings based upon grade changes for students that have graduated. Any changes in distinction will be posted to the individual's record. If a change in distinction occurs, the student must return the original diploma to the Office of Records. Once the original diploma is received, another diploma will be ordered with the correct distinction on it.

It is the student's responsibility to inform the Office of Records of any possible errors and to work with the professor(s) involved.

This deadline does not apply to the grades of Incomplete or W, which have separate policies.

Class Standing

The following number of hours is required:

For sophomore rating 28 semester hours

For junior rating 60 semester hours

For senior rating 92 semester hours

A student's classification is determined at the beginning of the fall and spring semester.

Student Status

Degree-seeking students taking 12 or more semester hours will be classified as full-time students.

Degree-seeking students taking fewer than 12 semester hours will be classified as part-time students.

A nondegree student is a mature person of ability and seriousness of purpose who enrolls for limited academic work and does not plan to seek a degree. Nondegree students observe the same regulations concerning attendance, examination, and proficiency as regular students.

Credit/No Credit Grade Option

With the approval of the instructor, some courses may be taken for credit/no credit. Students must indicate their intention to take a course for credit/no credit by the last day to add classes.

Credit/no credit grading requires full participation of the student in all class activities. Credit signifies work of passing quality or above, though it carries no grade points. Core courses and courses taken to meet additional degree requirements may not be taken for credit/no credit.

Courses required for a student's major ordinarily may not be taken for credit/no credit. No more than eight semester hours graded credit/no credit may be included in the 128 semester hours required for graduation. Courses taken for credit/no credit will not affect a student's grade point average.

Auditing Courses

Courses may be audited if the instructor of the course gives written approval on the registration form. Students must indicate their intention to audit at the time of registration, and once a course has been registered for audit, it may not be changed. No credit is earned for courses that are audited, and the grade of audit does not affect the GPA. For information about fees associated with auditing courses, see the special fees section of the catalog.

Repeat Courses

A student may enroll in a course at Millsaps which has previously been taken. A course previously taken at Millsaps may also be repeated at another institution with the prior approval of the registrar in consultation with the appropriate department chair. Since Millsaps accepts transfer work only on a non-graded basis, repeating a course at another institution will not improve a student's grade point average at Millsaps. When a course is repeated, no additional course credit is earned, but all grades earned at Millsaps are calculated into the cumulative grade point average. All grades reported for the course remain a part of the permanent academic record. Millsaps does not guarantee the availability of courses for repeat credit.

Certain courses that have different content each semester taught may be repeated for credit. Examples of these courses are Special Topics courses, Directed Readings, Independent Studies, Research, Internships, a few major courses, and even some IDST courses. Occasionally a student may take one of these courses over again with the exact same course content in order to make a

better grade. If this scenario occurs, it is the responsibility of the student and the professor to inform the Office of Records. Credit can not be given twice for two courses with the same content.

Graduation With Distinction

A student whose grade point average is 3.5 for the entire course shall be graduated Cum Laude; one whose grade point average is 3.7 shall be graduated Magna Cum Laude; and one whose grade point average is 3.9 and who has a rating of excellent on the comprehensive examination shall be graduated Summa Cum Laude. To be eligible for graduation Cum Laude, Magna Cum Laude, or Summa Cum Laude, a student must have passed at least 64 semester hours in Millsaps College.

Graduation With Honors

A student who successfully completes the Honors Program in a selected field of study, which need not be in the student's major, receives the designation with honors in that field at graduation. A degree-seeking student with junior standing and a 3.3 grade point average may apply to a faculty member for permission to undertake an honors project. In the fall semester of the junior year, the student submits an honors project agreement to the Honors Program director. Upon approval of the director, the student enrolls for the spring semester in a directed study course, Honors Research I. For the fall semester of the senior year, the student enrolls in Honors Research II, but completes the bulk of the work before that time in order to be able to defend the thesis to the student's defense committee in the fall. A letter grade is assigned for each of these two courses. For the spring semester of the senior year, the student enrolls in the Honors Colloquium, designed to bring together all students in the program for intellectual exchange. A student may voluntarily withdraw candidacy for honors at any time. Regular college regulations apply in the matter of dropping a course and receiving course credit.

Election to Phi Beta Kappa

The Phi Beta Kappa chapter at Millsaps elects members from the graduating class each spring. To be considered for election to membership in Phi Beta Kappa, a student must meet the following criteria:

1. Completion of requirements for a B.A. or B.S. degree with a liberal arts or sciences major. (At least three-fourths of the work required for the degree must be in the liberal arts and sciences; Business and Education courses, as well as studio courses in art, music, and theater can not be considered.)
2. A minimum of one-half of the work required for graduation completed at Millsaps.
3. One college course in mathematics, calculus or above, and one college course in a foreign language at the intermediate level or above. (AP credit will not be counted toward election requirements in either category.)
4. A minimum cumulative grade point average of 3.7 based on seven or more semesters. (Grades earned in applied or professional work are not counted in computing GPA for the purpose of election to Phi Beta Kappa.)

Transfer students must meet the required grade point average both on work done at Millsaps and on their college work as a whole. No more than 10 percent of the liberal arts and science graduates may be elected to membership from a graduating class.

Election to Beta Gamma Sigma

Beta Gamma Sigma is the national honor society for business programs accredited by The Association to Advance Collegiate Schools of Business (AACSB) International. Students are elected each spring. To be considered for membership in Beta Gamma Sigma, an undergraduate must:

1. Pursue the Bachelor of Business Administration degree,
2. Be of high moral character,
3. Be in the upper seven percent of the junior class or upper ten percent of the senior class, and
4. Be approved by the nominating committee.

The cumulative grade point average is used to determine class rank. No more than 10 percent of the B.B.A. graduates may be elected to membership from a graduating class.

Dean's Scholars

At the end of the fall and spring semester, the Dean's Scholars List is issued and consists of those students who for that semester:

- (a) earned at least 12 semester hours.
- (b) earned a grade point average of at least 3.5 for that semester.
- (c) earned grades of C or higher in each course.
- (d) met the standard, in the judgment of the Dean of the College, of being a good citizen of the College community.

President's Scholars

At the end of the fall and spring semester, the President's Scholars List is issued and consists of those students who for that semester:

- (a) earned at least 12 semester hours.
- (b) earned a grade point average of 3.85 for that semester.
- (c) earned grades of C or higher in each course.
- (d) met the standard, in the judgment of the Dean of the College, of being a good citizen of the College community.

Course Load

Sixteen semester hours per semester is considered the normal load for full-time students. In order to be classified as a full-time student, one must take no fewer than 12 semester hours.

Students are not encouraged to register for more than 18 hours of academic work unless they have a cumulative grade point average of 3.0. No student may register for more than 20 hours in a semester without a cumulative grade point average of 3.0 and permission of the Dean of the College. A student will ordinarily not be permitted to register for more than 22 hours in a semester.

Administrative Regulations

Schedule Changes

No student can be registered for courses in another college while being enrolled at Millsaps without the written permission of the dean of the college. A student cannot change classes, drop classes, or take up new classes except by the consent of the faculty adviser or the dean. If courses are dropped prior to the last day to drop courses without penalty, then the dropped courses will not appear on the student's record. Courses dropped after this date are recorded as W. There is a published date, following mid-term grades, after which it is no longer possible to drop a course without the approval of the dean. Students who drop a course without securing the required approvals will receive an F.

Withdrawal

In order to withdraw from the College within any term, an undergraduate student must meet

with the Director of Retention and Student Success for an exit interview and to obtain a withdrawal form. No refund will be considered unless the withdrawal form with appropriate signatures is completed and presented to the Business Office. Refunds will be made according to the policy outlined under the Financial Regulations section.

A student who withdraws with permission after the first seven days but before mid-semester will have grades recorded as W in each course. A student who withdraws without permission receives a grade of F in each course.

Students should complete all course withdrawals by mid-semester. The mid-semester deadline for completing course withdrawals is published in the college calendar.

Students who wish to withdraw from one or more courses after the mid-semester deadline must file a written petition with the Dean of the College. Petitions will not be approved unless students can show evidence that they are in extraordinary situations which warrant exceptions to the general policy of the College.

Enforced withdrawal may result from habitual delinquency in class or any other circumstance which prevents the student from fulfilling the purpose of the class.

The College reserves the right to cancel the registration of any student. In such a case, the pro rata portion of tuition will be returned, except that students withdrawing under discipline forfeit the right to a refund.

No student who withdraws is entitled to a grade report or to a transcript of credits until all accounts are settled in the Business Office.

Medical Withdrawal

Medical withdrawals are granted to students only in the rare case where their physical, mental, or emotional health prevents them from continuing studies at the college.

It is the sole responsibility of the student requesting a medical withdrawal during any semester to complete and submit all required paperwork by the last day of classes in that semester as defined by the official college calendar. All requests for medical withdrawals must be accompanied by a medical professional's recommendation for withdrawal and documentation of illness. Students granted a medical withdrawal will receive the grade of W in all attempted classes. Medical withdrawals may only be granted for the current semester. Upon return to the college, students must present documentation from the medical professional that states the student has been treated by a medical professional and in his/her expert opinion the student's condition has improved to the point that he/she can handle the demands of college life.

Academic Probation

Students who earn a semester grade point average of less than 1.5 in any semester will be placed on academic probation. A student will also be placed on academic probation if satisfactory progress has not been made toward a degree. Satisfactory progress is defined as maintaining:

1.5 cumulative grade point average when 28 semester hours have been attempted, or

1.8 cumulative grade point average when more than 28 semester hours and 60 semester hours or less have been attempted, or

2.0 cumulative grade point average when greater than 60 semester hours have been attempted.

A student may be removed from academic probation by earning a 2.0 grade point average during a regular semester at Millsaps College provided that the student completes at least 12 semester hours and has an acceptable cumulative average.

Academic Suspension

A student on academic probation for two consecutive semesters is subject to academic suspension.

Students who have been suspended may petition the dean of the college in writing for readmission. The first suspension will ordinarily be for the duration of one semester, the second suspension for a full academic year. Students seeking readmission should apply as soon as possible in order to assure sufficient time to fulfill whatever requirements may be necessary for readmission to be granted. If students take classes at another school while on suspension from Millsaps, those courses will not transfer back to Millsaps.

Insatisfactory Academic Progress

A part-time student who makes a grade point average of less than 1.5 in any semester will be notified that he or she is making unsatisfactory academic progress. To be removed from that classification, the student must make a 2.0 grade point average during a regular semester or summer session.

Class Attendance

Irregular attendance indicates that the student may be having difficulties adjusting to the course or to college. The primary responsibility for counseling students with respect to their absence rests with the faculty member; but, in the following circumstances, the faculty member is expected to report in writing the student's unsatisfactory attendance record to the Director of Retention.

For a freshman - whenever the total absences are equal to twice the number of class meetings per week.

For any student - after three successive absences for reasons unknown to the instructor, or when in danger of failing the course.

The reporting of absences is for counseling purposes only and has no effect on the student's grade.

Individual faculty members decide the manner and extent to which absences alone will affect a student's grade. Each faculty member is expected to outline the policy in writing to each class at the beginning of the semester. This may extend to dismissal from the course with a grade of F for reasons solely of absence.

Absences are excusable only by the individual faculty member, but an excused absence does not excuse the student from being responsible for the course work. Explanation for a student's absence provided by a parent, medical doctor, or a member of the faculty or administration may be helpful to the faculty member, but such explanations are not in themselves excuses. This is particularly important in the case of absences involving missed examinations, late assignments, laboratory sessions, and similar scheduled commitments. Faculty members, however, may not excuse students from attendance on the two days preceding and the two days following vacation periods without the express permission of the dean.

Each student is responsible for knowing general attendance policy of the College and the particular policies operative in each class. Further details relating to attendance are in the student handbook, *Major Facts*.

Examinations

Permission to make up an examination or alter the time for an examination may be granted only by the instructor of the class for a specific student. If an instructor wishes to change the time of final exam for a class, he or she must obtain permission from the Dean of the College.

No student should be required to take more than two final exams on one day. Students will be expected to take the initiative to resolve any conflicts with the appropriate faculty. If a resolution is not reached, the student will appeal to the Dean of the College.

Senior Exemptions

Students may elect to be exempt from final examinations only in the semester in which they complete their comprehensive examinations and only in those courses in which they have a C average or better. It shall be understood, however, that this exemption does not ensure the student a final grade of C, since daily grades during the last two weeks shall count in the final average. Under no circumstances may a student be exempt from any examination in more than one term or semester. Seniors may be allowed one special examination in any subject taken and failed in the senior year. Permission for such examination must be secured from the dean or associate dean of the college. Students may request exemption from other requirements by petition to the Dean of the College.

Honor Code

Millsaps College is an academic community where men and women pursue a life of scholarly inquiry and intellectual growth. The foundation of this community is a spirit of personal honesty and mutual trust. Through their Honor Code, members of the Millsaps community affirm their adherence to these basic ethical principles. An Honor Code is not simply a set of rules and procedures governing students' academic conduct. It is an opportunity to put personal responsibility and integrity into action. When students agree to abide by the Honor Code, they liberate themselves to pursue their academic goals in an atmosphere of mutual confidence and respect. The success of the code depends upon the support of each member of the community. Students and faculty alike commit themselves in their work to the principles of academic honesty. When they become aware of infractions, both students and faculty are obligated to report them to the Honor Council, which is responsible for enforcement. The Millsaps Honor Code was adopted by the student body and approved by the faculty and Board of Trustees in 1994.

Student Behavior

Students at Millsaps, because they are members of an academic community dedicated to the achievement of excellence, are expected to meet the highest standards of personal, ethical, and moral conduct possible. The commitment of its faculty, staff, and students to these standards contributes to the high respect in which the Millsaps degree is held. Students must not destroy that respect by failure to meet these standards.

The College has the responsibility and authority to establish standards for scholarship, student conduct, and campus life. Therefore, it cannot condone violations of local, state, or federal laws or conduct detrimental to students or to the College. Students, as adults, are presumed to know the law as to illegal conduct prohibited by municipal, state, or federal law and are governed thereby. In addition, students failing to follow the direction of a college official, who is acting within the scope of their responsibilities, may be subject to disciplinary action.

The College expects students to be concerned with the physical and psychological well-being of others and cannot condone behavior which exploits another individual. Students and organizations are expected to comply with rules concerning the academic, social, and residential life of the

College. They are expected to comply with directions of college officials. Students are responsible for the behavior of their guests while on Millsaps property and/or at Millsaps functions.

The Millsaps Judicial System has been put in place to ensure the protection and preservation of the academic environment on campus where all students are free to pursue their educational goals. The system is educational in that it encourages students to become better citizens and live up to the higher standard of behavior expected of all Millsaps students. Millsaps students are expected to act with honesty and integrity in personal, social, and academic relationships and with consideration and concern for the community, its members, and its property. We emphasize education by focusing on growth and development of the individual student, encouraging self-discipline, and fostering a respect for others.

The Millsaps Judicial System is not intended to mirror any court system. The policies and procedures used are not meant to resemble those in the criminal process. There is a fundamental difference in the nature of student discipline and that of criminal law. Student discipline is meant to maintain a positive living and learning environment. The process is designed to help students make positive choices for themselves, choosing self-responsibility instead of submitting to peer-pressure, and to challenge them to accept responsibility for any negative choices.

Alcoholic Beverages

Millsaps College is an educational institution dedicated to a strong academic program and to providing a caring community. The College strives to help its students become self-directed, responsible citizens. The College's alcohol policy is intended to assist in the creation of a campus environment where students have the opportunity to learn how to deal responsibly, both individually and socially, with alcoholic beverages.

Millsaps College does not encourage the consumption of alcoholic beverages. Members and guests of the Millsaps College community who are of legal drinking age (21 years old) and choose to consume alcoholic beverages are expected to do so responsibly and in consideration of the consequences to self, others, and the community-at-large. Any consumption of alcohol must be done within the limits of the applicable laws and relevant college policies.

All members of the campus community are expected to recognize the potential for alcohol abuse and that abuse of alcohol is absolutely at variance with the mission of the College. Persons who infringe upon the rights of others or who conduct themselves in an inappropriate manner which is caused by or can be shown to be related to the consumption of alcohol shall be held accountable for their actions and subject to disciplinary and/or criminal action.

The regulations and practices governing the use of alcoholic beverages apply to all members of the Millsaps College community. The primary responsibility for knowing and abiding by the provisions of the College's alcoholic beverage policy rests with each individual.

Illegal Substances

The College cannot condone violations of federal, state, or local laws regarding any illegal drugs, narcotics, and dangerous substances. The use, possession, or distribution of such substances, except as expressly permitted by law, is not permitted.

Disciplinary Regulations

Students responsible of serious and/or multiple infractions of College regulations may be subject to disciplinary action including social probation, disciplinary probation, disciplinary suspension, or disciplinary expulsion. The Judicial Council may enact social probation or disciplinary proba-

tion and may forward a recommendation for disciplinary suspension or disciplinary expulsion to the President. The President and/or the Vice President and Dean of Students may enact any of these sanctions when warranted.

Social Probation

Social probation is a warning to a student regarding conduct standards. Its primary purpose is to serve as a period of time in which a student is asked to prove responsibility to himself/herself and the College. The terms of social probation include, but are not limited to prohibiting said student from participating in extracurricular campus activities such as fraternity/sorority social activities as well as intramural and varsity sports. In addition, a student may hold no office of campus leadership. When an organization is placed on social probation, the organization may not sponsor social activities in the name of the organization, or in a manner that could reasonably be interpreted as sponsorship by the organization, for the period of the social probation.

Disciplinary Probation

Disciplinary probation is the most serious penalty, short of suspension and expulsion, that can be incurred by a student. During a period of disciplinary probation any further infraction of college regulations will render the student liable to suspension or expulsion.

Disciplinary Suspension and Disciplinary Expulsion

Unfortunately, there are times when a student's conduct is deemed to require the most serious penalty to be exacted by officials of the College. This action may result from a series of less severe actions or from a particularly egregious behavior as determined by the College officials.

Disciplinary suspension is a decision to temporarily discharge a student. The student will receive grades of W for the semester and official notation will be made on the transcript.

Disciplinary expulsion is a decision to permanently discharge a student. The student will receive failing grades for the semester and official notation will be made on the transcript.

When student behavior warrants either disciplinary suspension or disciplinary expulsion, the student's financial status will be treated as if the student withdrew. (See policy under Financial Regulations section.)

DEPARTMENTS OF INSTRUCTION

Departments of Instruction Academic Program

The academic program of the College is organized into the following units:

- Division of Arts and Letters
- Division of Sciences
- Else School of Management

Within these units are the academic departments and programs through which the curriculum of the College is administered.

Course offerings, together with major and minor requirements, are generally listed by department. Interdisciplinary courses and programs appear under a separate heading.

Accounting.....	161
Art.....	79
Biology	111
Business Administration	163
Chemistry	114
Classical Studies	82
Computer Science	118
Economics	166
Education	120
English	85
Finance.....	163
French	94
Geology	124
German	95
History	89

Course Numbers

The first number indicates the class level with 1 primarily for first year students, 2 for sophomores and above, 3 for juniors, and 4 for seniors.

The departmental structure primarily determines the second and third numbers.

The fourth number indicates whether the course is 1/4, 2/4, 3/4, or a full course. A course number ending in:

- = 1/4 course, or 1 hour credit
- = 2/4 course, or 2 hours credit
- = 3/4 course, or 3 hours credit
- = 1 full course, or 4 hours credit

Division of Arts and Letters

David Davis, Associate Dean

Art

Professor:

Elise L. Smith, Ph.D.

Associate Professor:

Collin Asmus, M.F.A., Chair

Assistant Professors:

Sandra Smithson, M.F.A.

Regina Gee, M.A., Ph.D. Candidate

Requirements for Major: Students may complete a major in art with a concentration in either studio art or art history (10 courses each) or a double concentration (14 courses). At least fifty percent of course work for the major must be taken at Millsaps. Students may count work for up to four semester hours credit towards the major in honors or an internship in art.

A. Studio Art Concentration: Drawing I, Drawing II, Sculpture I; 3 additional studio courses with at least 1 taken up to level III by the fall semester of the senior year; three art history courses, and Senior Seminar.

B. Art History Concentration: Drawing I, Painting I, Printmaking I, or Photography I; Sculpture I; six art history courses, of which one may be a core topics course taught by art department faculty; Aesthetics (or an additional art history course); and Senior Seminar in Art History.

C. Double Concentration in Studio Art and Art History: Drawing I; Painting I, Photography I, or Printmaking I; Sculpture I; Drawing II; two other studio courses; six art history courses, of which one may be a core topics course taught by art department faculty; Senior Seminar in Studio Art and Art History.

Requirements for Minor: Students may elect a minor in Studio Art with Drawing I; Painting I or Printmaking I; Sculpture I; and one other studio course. Students may elect a minor in art history with four Art History courses, of which one may be a core topics course taught by art department faculty.

Studio Art Courses

2200 Drawing I (4 sem. hours). An introduction to observational drawing using gestural, contour, weighted line, and structural line techniques.

2210 Painting I (4 sem. hours). Offers technical training in the use of materials and in the basic of color and composition.

2230 Printmaking I (4 sem. hours). An introduction to printmaking techniques include intaglio and lithography, as well as issues related to two-dimensional design and content.

2240 Photography I (4 sem. hours). Explores the camera as a tool for self-expression while teaching fundamental dark room procedures. Requirement: 35mm. camera.

2250 Sculpture I (4 sem. hours). Explores a wide range of traditional sculpture media and techniques, including carving, modeling, and casting, and introduces issues of three-dimensional design.

2750-2752 Special Topics in Studio Art (1-4 sem. hours).

3300 Drawing II (4 sem. hours). A continuation of Drawing I with a focus on figure drawing and on individual projects. Prerequisite: Art 2200.

3310 Painting II (4 sem. hours). A continuation of Painting I, emphasizing individual exploration and experimentation. Prerequisite: Art 2210.

3330 Printmaking II (4 sem. hours). A continuation of Printmaking I with more advanced techniques and more independent projects. Techniques include woodcuts and monotypes and may include intaglio and/or lithography. Prerequisite: Art 2230.

3340 Photography II (4 sem. hours). A continuation of Photography I in which students develop skills in photography and gain historical and critical understanding of the field, with a concentration on content as well as advanced techniques. Requirement: 35mm. camera. Prerequisite: Art 2240. Offered occasionally.

3350 Sculpture II (4 sem. hours). A continuation of Sculpture I , in which students explore traditional as well as nontraditional materials, techniques, and approaches involved in the creation of three-dimensional works of art. Prerequisite: Art 2250.

3400 Drawing III (4 sem. hours). A continuation of Drawing II , in which students develop a thematic series of drawings based on their own personal issues and imagery. Prerequisite: Art 3300.

3410 Painting III (4 sem. hours). A continuation of Painting II, in which students develop a series of paintings based on their own personal issues and imagery. Prerequisite: Art 3310.

3430 Printmaking III (4 sem. hours). A continuation of Printmaking II , with an emphasis on individual problems in printmaking and completion of a series of prints. Prerequisite: Art 3330.

3450 Sculpture III (4 sem. hours). A continuation of Sculpture II , with an emphasis on individual problems in sculpture and advanced work in a particular three-dimensional medium. Prerequisite: Art 3350.

790 Junior Studio Art Seminar (4 sem. hours). An upper-level studio art seminar focused on a different topic every fall semester, open to all students who have a previous art history course and required of all junior art majors with a concentration in studio art or a double concentration in art history and studio art.

800-3802 Independent Study in Studio Art (4 sem. hours).

850-3852 Internship in Studio Art (1-4 sem. hours). An internship in which a student works with a museum, art agency, business firm, or artist under supervision of the Millsaps Career Center or the Art Department. Internships may not count towards a major requirement. Prerequisite: Consent of Career Center and Art Department Chair.

790 Senior Studio Art Seminar (4 sem. Hours). An upper-level studio art seminar focused on a different topic every fall semester, open to all students who have a previous art history course and required of all senior art majors with a concentration in studio art or a double concentration in art history and studio art.

Art History Courses

500 Survey of Ancient and Medieval Art (4 sem. Hours). A study of the development of art from prehistoric times through the late Gothic period. Offered in alternate years.

510 Ancient Art and Archaeology (4 sem. Hours). A study of ancient art which focuses on the changing vision of humanity and the world, as well as the forms and techniques which artists evolved to represent that vision (This course is the same as Classical Studies 3300). Offered occasionally.

520 Northern Renaissance Art (4 sem. Hours). A study of painting from the 15th and 16th centuries in Northern Europe, with special attention paid to the interpretation of symbolic images. Offered in alternate years.

530 Italian Renaissance Art (4 sem. Hours). A study of painting, sculpture, and architecture from the 14th through the 16th centuries in Italy, set in the context of Renaissance thought and culture. Offered in alternate years.

540 Baroque Art (4 sem. Hours). A study of European art of the 17th Century, with special attention paid to Italian, Flemish, and Dutch painting and sculpture. Offered in alternate years.

550 Eighteenth and Nineteenth Century Art (4 sem. Hours). A study of European art of the 18th and 19th centuries in the context of an increasingly industrialized and middle-class society, with attention paid to issues of gender, class, and technology. Offered in alternate years.

560 Modern Art (4 sem. Hours). A study of European and American art of the late 19th and 20th centuries. Offered in alternate years.

570 Images of Women in Art and Literature (4 sem. Hours). A study of representations of women by male and female artists and writers from the 15th through the 19th centuries. Offered in alternate years.

580 Women Artists (4 sem. Hours). A study of the work of women artists from the 15th through the 20th century, with particular attention to the impact of sex and gender on artistic production. Offered in alternate years.

2590 Topics in World Art (4 sem. Hours). A study of selected topics in the art of Asia, Africa, and Latin America, either surveying key periods of two or three cultures or focusing on one of these areas. Offered in alternate years.

2760-2762 Special Topics in Art History (1-4 sem. Hours).

3780 Junior Art History Seminar (4 sem. Hours). An upper-level art history seminar focused on a different topic every fall semester, open to all students who have a previous art history course and required of all junior art majors with a concentration in art history or a double concentration in art history and studio art.

3810-3812 Independent Study in Art History (1-4 sem. Hours).

3860-3862 Internship in Art History (1-4 sem. Hours). An internship in which a student works with a museum, art agency, business firm, or artist under the supervision of the Millsaps Career Center or Art Department. Internships may not count towards a major requirement. Prerequisite: Consent of Career Center and Art Department Chair.

4780 Senior Art History Seminar (4 sem. Hours). An upper-level art history seminar focused on a different topic every fall semester, open to all students who have a previous art history course and required of all senior art majors with a concentration in art history or a double concentration in art history and studio art.

*These courses can count as either studio art or art history.

Classical Studies

Professor:

Catherine Ruggiero Freis, Ph.D., Chair

Associate Professor:

Michael Gleason, Ph.D.

Assistant Professor:

Holly M. Sypniewski, Ph.D.

Requirements for Major: Students may complete a major in classical studies with 10 courses (40 semester hours), of which six courses (24 semester hours) must be in either Latin or Greek. The remaining hours may be distributed among offerings in Greek, Latin, Sanskrit, or Classical Civilization, provided that two languages are represented to at least the 2000 level and that Civilization 2000 (Survey of the Classical World) is included. One core topics course, taught by a member of the department, may count towards the major. Students who intend to teach Latin in the secondary schools must take sixteen hours above the introductory level for teacher certification. Those who intend to go to graduate school in classics should take additional language courses in both Greek and Latin. Prospective majors should also consider off-campus programs in the classics in Rome, Italy, or Athens, Greece. For further information, see the Special Programs section and the chair of the department.

Requirements for Minor: Students may elect a minor in classical studies with 20 semester hours, of which 12 must be in either Latin or Greek. The remaining hours may be chosen from offerings in Greek, Latin, Sanskrit, or Classical Civilization, provided that Civilization 2000 (Survey of the Classical World) is included. One core topics course, taught by a member of the department, may count towards the minor.

Classical Studies: Civilization

The following courses are conducted in English; they are open to all students for elective and credit/no credit. Different courses in this sequence will be offered from year to year.

000 Survey of the Classical World (4 sem. hours). An examination of the major authors, genres, and artistic works of the classical world in a chronological and cultural survey from prehistoric times to late Roman antiquity.

000 Myth (4 sem. hours). A study of the symbols and motifs of mythology focusing on the myths of Greece and Rome, with comparative material introduced from near Eastern, Native American, Asian, African, and Norse mythology. (This course is the same as RLST 3000). Offered in rotation.

100 Greek Tragedy (4 sem. hours). In this course, students will read the main surviving works of three great tragedians, Aeschylus, Sophocles, and Euripides, and close with two critical works, Aristotle's *Poetics* and Aristophanes' comedy about tragedy, *The Frogs*. A number of performances of Greek tragedy and an examination of ritual drama in contemporary Japan, China, India, and Bali will be part of the course. Offered in rotation.

200 The Classical Epic (4 sem. hours). The class will begin by studying the Mesopotamian epic, the *Gilgamesh*, and then turn to a study of three great classical epics, the *Iliad*, the *Odyssey*, and the *Aeneid*. Additional epic literature from India, Africa, and China will be part of the course. Offered in rotation.

300 Classical Art and Archaeology (4 sem. hours). This course will focus on the changing vision of the world and human experience in ancient Greek and Roman art and the forms and techniques which artists created to represent that vision. There will be a field trip to the Museum of Classical Archaeology at the University of Mississippi (This course is the same as Art 2510). Offered in rotation.

400 Women in Antiquity (4 sem. hours). The study of the representation of women in art and literature situated within their relevant historical contexts. Offered in rotation.

500 Ancient and Medieval Philosophy (4 sem. hours). A survey of ancient philosophy through the medieval period (This course is the same as Philosophy 3010). Offered in rotation.

600 Ancient History (4 sem. hours). A survey of ancient history from the beginning of civilization to the fall of Rome (This course is the same as History 3240). Offered in rotation.

700 Greek and Roman Religion (4 sem. hours). A survey of cult and state religious practices as they were performed from Minoan culture through the birth of early Christianity. Offered in rotation.

850-3853 Special Topics (1 to 4 sem. hours).

850-4853 Special Topics (1 to 4 sem. hours).

Classical Studies: Greek

Greek fulfills the language requirement for the B.A. degree and for Phi Beta Kappa. Courses numbered 2010-2750 are suitable for third semester work.

1010-1020 Introduction to Greek (4 sem. hours). Primary emphasis is on mastery of grammar, vocabulary, and forms with some attention to Greek literature and culture. Readings include selections from the New Testament, Greek philosophy, and Homer.

2010 Plato (4 sem. hours). Selected readings from the *Dialogues*. Offered in rotation.

2020 Greek New Testament (4 sem. hours). Selected readings from *The Gospels* and *Paul*. Offered in rotation.

2030 Homer (4 sem. hours). Selected readings from the *Iliad*. Offered in rotation.

2040 Euripides (4 sem. hours). A reading of one of the plays. Offered in rotation.

2750-2753 Special Topics (1 to 4 sem. hours). Readings from selected authors.

3750-3753 Special Topics (1 to 4 sem. hours). Study of such authors as Homer, the lyric poets, Aeschylus, Sophocles, Euripides, Aristophanes, Demosthenes, Plato, Aristotle, New Testament writers and Greek composition, prose, or verse.

4750-4753 Special Topics (1 to 4 sem. hours). Study of selected authors for advanced students.

Classical Studies: Latin

Latin fulfills the language requirement for the B.A. degree and for Phi Beta Kappa. Courses numbered 2110-2750 are suitable for third semester work.

1110-1120 Introduction to Latin (4 sem. hours). Primary emphasis is on mastery of grammar, vocabulary, and forms with some attention to Latin literature and culture. Readings include selections from Latin prose and poetry.

2110 Ovid (4 sem. hours). Selected readings from the *Metamorphoses*. Offered in rotation.

2120 Virgil (4 sem. hours). Selected readings from the *Aeneid*. Offered in rotation.

2130 Petronius (4 sem. hours). Selected readings from the *Satyricon*. Offered in rotation.

2140 Catullus (4 sem. hours). Selected readings. Offered in rotation.

2160 Cicero (4 sem. hours). Selected readings. Offered in rotation.

2750-2753 Special Topics (1 to 4 sem. hours). Readings from selected authors.

3750-3753 Special Topics (1 to 4 sem. hours). Study of such authors as Horace, the elegists, Lucretius, Sallust, Livy, Tacitus, Juvenal, Petronius, Plautus, and Terence and Latin composition, prose, or verse.

4750-4753 Special Topics (1 to 4 sem. hours). Study of selected authors for advanced students.

Classical Studies: Sanskrit

1210-1220 Introduction to Sanskrit (4 sem. hours). Primary emphasis is on the learning the sounds of Sanskrit and their representation in *devanagari* script, as well as on basic grammar and vocabulary. Readings are taken primarily from the *Bhagavad Gita*.

Offered in alternate years.

750-2753 Special Topics (1 to 4 sem. hours). Readings from Sanskrit literature.

750-3753 Special Topics (1 to 4 sem. hours). Readings from Sanskrit literature.

English

Professors:

Jeanne Marrs, Ph.D.

Gregory Miller, Ph.D.

Associate Professors:

Eric Griffin, Ph.D.

Jeanne MacMaster, Ph.D.

Justin Wilson, Ph.D., Chair

Assistant Professors:

Maura E. Franey, Ph.D.

Paula Garrett, Ph.D.

Requirements for Major: Students may complete a major in English with ten courses in English. Required courses include Introduction to Interpretation, Introduction to British Literary History I and II, and Senior Colloquium. The remaining six course requirements are as follows: students must select four courses, one focused on a particular literary period, one on an author, one on a genre or in literary theory, and one on cultural studies. The remaining two courses may be electives. One of these six courses must be from a period before 1800.

Students may fulfill one elective towards the English major in one of the following ways: (1) two courses of Heritage, (2) one core topics course which has a primary emphasis on literature and which is taught by an instructor from the English department, or (3) one course cross-listed with another department. Students entering Millsaps in previous catalog years may exceed this limit but may not count towards the major additional courses taken in these categories after the spring of 1999.

The Department strongly recommends proficiency in a foreign language to all majors. Students planning to pursue graduate study in English are advised that a reading knowledge of three foreign languages is generally required. A minimum of one year of Latin or Greek is recommended.

Requirements for Minor: Students may elect a minor in English with five courses, including Introduction to Interpretation and Introduction to British Literary History I and II. One core topics course taught by an instructor from the English department and having a primary emphasis on literature may be used to meet this requirement.

Requirements for Concentration in Writing: Students who fulfill the requirements for a major or a minor in English may also take a concentration in writing upon the successful completion of the following courses:

English 2400, Introduction to Creative Writing;

two courses designated by the English department as intermediate courses in creative writing, each focusing on a different genre;

English 3900, Senior Workshop in Creative Writing.

Literary Studies

1000 Introduction to Interpretation (4 sem. hours). This course is a prerequisite to most courses in the English department. It focuses on a variety of interpretive problems and on different kinds of texts, including films.

2010 Introduction to British Literary History I (4 sem. hours). A history of British literature from the beginnings to 1800, with an emphasis on the meaning and development of literary history.

2020 Introduction to British Literary History II (4 sem. hours). A history of British literature from 1800 to the present, with an emphasis on the meaning and development of literary history.

3100 Studies in Medieval Literature (4 sem. hours). This course is designed to introduce students to a wide range of themes, genres, and texts written before 1500. The specific topics will vary in different years, but may include the romance, women's spiritual autobiography, cycle plays, or religious writings. This course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor. **This course or English 3300 offered in alternate years.**

3110 Studies in Renaissance Literature (4 sem. hours). This course will include the study of poets, playwrights, and prose writers of the Tudor, Stuart, and Commonwealth periods. This course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor.

3120 Studies in Restoration and Eighteenth-Century Literature (4 sem. hours). This course will focus on a variety of themes and topics in literature from the English Restoration through the eighteenth century. The topics, which will vary from year to year, will include satire, the novel, drama, and Johnson and his age. This course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor. **Offered occasionally.**

3130 Studies in Nineteenth-Century British Literature (4 sem. hours). The specific content of this course will vary from year to year, with topics focusing on significant issues in romantic and/or Victorian literature. The course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor.

3150 Studies in American Literature Before 1920 (4 sem. hours). A study of the literary history of the United States, focusing upon the poetry, drama, and/or fiction of the colonial and Federal period, on the American Renaissance, or on the late nineteenth and early twentieth centuries. Course content will vary from semester to semester. The course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor.

3180 Studies in Twentieth-Century Literature (4 sem. hours). Students will read, discuss, and write about British, American, South African, Caribbean, and other twentieth-century texts. The specific content will vary from year to year, but possibilities include such topics as modernism as a literary movement, the modern novel, modern and contemporary poetry, and twentieth-century drama. This course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor.

3200 Special Studies in Literary History (4 sem. hours). This course will involve the study of the transformations, transitions, and continuities in literary history. Specific topics will vary, but possibilities include the transition from neoclassical to romantic literature, the move from the Victorian to the modern period, or the development of American autobiography. This course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor. Offered occasionally.

3300 Chaucer (4 sem. hours). This course will consider Chaucer's major works, including *The Canterbury Tales* and *Troilus and Criseyde*, in the larger cultural context of the fourteenth century. Special attention may be given to Chaucer's experimentation with a wide variety of poetic forms. English 1000 is recommended or permission of instructor. This course or English 3100 offered in alternate years.

3310 Shakespeare and the Play of Genre (4 sem. hours). This course will explore the poetic and dramatic career of William Shakespeare from the perspective of contemporary critical approaches, with particular attention to literary genre. English 1000 is recommended.

3320 Milton (4 sem. hours). With a primary emphasis on *Paradise Lost*, this course will consider Milton's works and his career. English 1000 recommended. Offered in alternate years.

3330 Shakespeare and the Play of Culture [or Theory] (4 sem. hours). While considering a different set of plays and secondary readings from those offered in English 3310, this course will explore the poetic and dramatic career of William Shakespeare within the context of his time, with a particular focus on cultural studies and/or literary theory. English 1000 and English 3310 is recommended.

3350 Authorial Studies (4 sem. hours). This course will be devoted to the works of one or more authors, focusing on their texts in the context of their lives and cultures. Possible authors include Hawthorne, James, and Wharton; Joyce and Woolf; Faulkner and Welty; or Austen and Scott. The course may be repeated for credit with a different topic. English 1000 is recommended or permission of instructor.

3500 Studies in Genre (4 sem. hours). This course will be devoted to studying genres such as the novel, the lyric, the short story, and the drama. The particular genre will vary from year to year; students may repeat the course for credit when the topic is different. English 1000 is recommended or permission of the instructor.

3540-3542 Film Studies (1, 2, or 4 sem. hours). This course will consider the cultural and artistic significance of film. The content of the course will vary, potentially emphasizing such issues as the relationship between film and another genre, films of a particular period or style, or the history of film.

3550 History of Literary Criticism (4 sem. hours). This course includes an historical survey of major theorists and movements from the ancient world through postmodernism. English 1000 is recommended. Offered occasionally.

3800-3802 Directed Study in English (2 or 4 sem. hours). If students wish to pursue a subject or problem beyond the standard curricular offerings, they must plan such a course with an instructor and obtain that instructor's permission to register for this option.

3852 Internships in English (2 sem. hours). Under the guidance of an English department

faculty sponsor, students may elect to take up to two internships (each worth 2 semester hours), working in such areas as public relations, advertising, theatre, or journalism.

4900 Senior Colloquium (4 sem. hours). All English majors are required to take this course in the spring of their senior year; this course is designed to help students consolidate and build on their studies.

Literature and Culture

2110 Southern Literature and Culture (4 sem. hours). This course involves a study of southern poets, dramatists, and/or writers of fiction in the context of the southern culture out of which and about which they write. Content will vary. **Offered in alternate years.**

2120 Multicultural Literature (4 sem. hours). This course will focus on various aspects of African American, Asian American, Chicano, Jewish, Native American, and/or other ethnic American literatures. Sometimes the focus will be comparative, and sometimes the focus will be on a particular tradition, such as African-American writing. **Offered in alternate years.**

2130 Women Writers (4 sem. hours). The particular writers, periods, and genres covered will vary, but the works of women writers will be read in the light of their cultural contexts and of current feminist methodologies. Texts will reflect the racial and ethnic diversity of women writing in English. **Offered in alternate years.**

2440-2450 Interdisciplinary Studies in Literature (4 sem. hours). Courses in this category cross disciplinary boundaries and are cross-listed with another department. Possibilities include literature and history, literature and art, literature and philosophy, or literature and religion. **Offered occasionally.**

3750 Special Topics in Literature and Culture (4 sem. hours). The specific content will vary, but this course will consider the interplay of texts and their cultural or multicultural contexts; the course may focus on such topics as new literature in English or on literature and popular culture in Victorian England. **Offered occasionally.**

Rhetoric, Writing, and Pedagogy

2400 Introduction to Creative Writing (4 sem. hours). Students will study the forms, techniques, and processes of fiction, poetry, or script writing by reading models and by practicing their own writing. Students will discuss their own writing in the context of readings from traditional and contemporary works. The specific focus of the course will vary from year to year.

2410 Expository Writing (4 sem. hours). This course will focus on the art of essay writing in various modes. Required readings will vary, but there will always be a substantial amount of writing and revising. **Offered occasionally.**

2420-2422 Teaching Writing: A Practicum (1, 2, or 4 sem. hours). This course is a practical study of how people learn to write, with attention to the student's own writing, examination of the writing process, and consideration of the theory and practice of teaching writing. Practice in tutoring in the Writing Center is an essential part of this course.

2430 Journalism (4 sem. hours). This basic course teaches the skills of news writing and

reporting, including the history and principles of journalism and the techniques of layout and copy writing. Offered occasionally.

1400 Writing and Reading Fiction (2 or 4 sem. hours). An advanced class in the reading and writing of fiction. Prerequisite: English 2400 or permission of instructor. Offered occasionally.

1412 Writing and Reading Poetry (2 sem. hours). An advanced class in the reading and writing of poetry. Class time will be divided between discussing poems by writers outside the class and by students in it. Prerequisite: English 2400 or permission of instructor. Offered occasionally.

1760-3762 Special Projects in Writing (1, 2, or 4 sem. hours). This course is designed for students who want to pursue an independent writing project beyond work done in one of the established courses. Students must obtain permission of the instructor to register for this option.

1900 Senior Workshop in Creative Writing (4 sem. hours). Students writing in a variety of genres will work together to complete substantial creative projects. Prerequisites: English 2400 and two courses designated by the English department as intermediate courses in creative writing, or the consent of the instructor.

Requirements for Major: Students may complete a major in history with ten, four-semester hour courses, including both semesters of History of the United States, Europe Since 1789, Senior Seminar, and one course each in the European and Non-Western areas. One core topics course taught by an instructor from the History Department may be used to meet the requirements of the history major. Heritage may be counted as one four-hour course toward the ten course requirement.

Requirements for Minor: Students may elect a minor in history with five, four-semester hour courses, including both semesters of History of the United States and European Civilization since 1789.

2100 History of the United States to 1877 (4 sem. hours). A survey of the cultures and history of the peoples that lived in the area that became the United States, from the Pre-Columbian era through European colonization, the introduction of African slaves, the American Revolution, the early Republic, the Civil War, and Reconstruction.

2110 History of the United States since 1877 (4 sem. hours). A survey of the main developments in the United States and how they affected American men and women from the end of Reconstruction through industrialization and urbanization, the emergence of the United States as a world power, the rise of a partial welfare state, the Cold War, and now the present.

2120 Women (and Men) in America (4 sem. hours). An interdisciplinary examination of the history of women and the ways in which they have interacted with men and male-dominated institutions over the course of American history. The course will employ works of literature, art, film, and music among its means of exploring the changing lives of women and men in America. **Offered in alternate years.**

2130 The African-American Heritage I (4 sem. hours). An interdisciplinary study concentrating on the historic and contemporary experience of black people in America, from colonial times to 1877. **Offered in alternate years.**

2140 The African-American Heritage II (4 sem. hours). An interdisciplinary study concentrating on the historic and contemporary experience of black people in America, from 1877 to the present. **Offered in alternate years.**

2210 European Civilization Since 1789 (4 sem. hours). This course is a survey of the major social, political, economic, and intellectual developments in European history from the French Revolution of 1789 to the revolutions in Eastern Europe in 1989/1990. Lectures and discussion will be devoted to understanding the influence of ideology (liberalism, conservatism, socialism, nationalism) on social and political life; the role of material factors (economic change, urbanization, the experience of warfare) in historical change; and the global expansion of Europe and the extension of European ideas and institutions to other peoples of the world.

2310 African History and Society (4 sem. hours). An interdisciplinary survey of major themes in African history from the earliest records of human activity on the continent to the struggles for South Africa. Literature, music, art, and popular culture will be studied as ways of understanding the complex contemporary issues faced by Africans. **Offered in alternate years.**

2400 Middle Eastern History and Society (4 sem. hours). An interdisciplinary survey of major themes in Middle Eastern history from the advent of Islam to the Persian Gulf conflict and the Madrid Peace Conference. Literature, music, art, and popular culture will be studied as ways of understanding the contemporary issues faced by men and women of this region. **Offered in alternate years.**

3100 The Old South (4 sem. hours). A study of the development of the southern region of the United States from the time of discovery to the beginning of the Civil War. **Offered in alternate years.**

3110 Civil War and Reconstruction (4 sem. hours). An examination of the political, economic, military, diplomatic, and social aspects of the Civil War and Reconstruction periods. **Offered in alternate years.**

3120 The New South (4 sem. hours). A study of the development of the South after the Civil War to the present. **Offered in alternate years.**

3130 American Revolution and Establishment of Federal Union, 1754-1789 (4 sem. hours).

An examination of the political, economic, social, and cultural events which led to the American colonial revolt against Britain and the establishment of the Federal union in the Constitution of 1787. Offered occasionally.

140 **Age of Jefferson and Jackson, 1789-1848 (4 sem. hours).** A continuation of American Revolution and Establishment of Federal Union, this course will examine the political, economic, social, and cultural history of the United States from the administration of George Washington to the conclusion of the Mexican War. Offered in alternate years.

150 **American Social and Intellectual History (4 sem. hours).** An exploration of aspects of American thought, values, and society from the colonial period to the present, focusing on the ways in which Americans have viewed themselves and how American ideas and values have differed from those of other peoples. Offered occasionally.

160 **Topics in American Culture (4 sem. hours).** An interdisciplinary exploration of a particular topic in American culture. The history, literature, thought, music, art, and popular culture of a period (such as a decade) or aspect of the United States will be studied. Topics will change from year to year, and a student may take the course more than once if the topics are different. (The Forties and Fifties, Colonial America, History of Sexuality in the United States.) Offered occasionally.

170 **The Great Depression (4 sem. hours).** An interdisciplinary examination of American history and culture during the era of the Great Depression (1929-1941), utilizing literature, film, music, painting, and photography, as well as more traditional historical sources. Offered in alternate years.

180 **The Sixties (4 sem. hours).** An interdisciplinary examination of American history and culture during the 1960s, utilizing literature, film, music, painting, and sculpture, as well as more traditional sources. Offered in alternate years.

190 **Our Times: America Since 1970 (4 sem. hours).** An interdisciplinary examination of American history and culture from 1970 to the present, utilizing literature, film, music, painting, and sculpture, as well as more traditional historical sources. Offered in alternate years.

240 **Topics in European Culture and History (4 sem. hours).** An interdisciplinary examination of a particular topic, period, or region of European culture. Topics will change, and a student may take the course more than once if the topics are different. This course is the same as Classical Studies 3600. (The History of Sexuality, Art & Power in Europe, The French Revolution & Napoleon, France since Louis XIV.) Offered occasionally.

250 **European Women (4 sem. hours).** This course examines the experience of women and the meaning of gender in Britain, France, and Germany from the onset of industrialization through the period following the Second World War. Particular attention will be paid to the following: the impact of industrialization on the European family; the Victorian construction of separate spheres; the role of the state in defining gender roles and regulating sexuality; and the impact of war on gender relations. Offered occasionally.

260 **Britain Since 1750 (4 sem. hours).** A survey of Britain since 1750, this course charts the forging of a national identity through Britain's varied experiences of war, empire, religion, and consumerism. It has as its focus the centrality of empire to British domestic politics and culture. Offered in alternate years.

3270 Introduction to Cultural History (4 sem. hours). This course explores the importance of culture in shaping modern European history. Students will examine various methodologies of cultural history and see how historians analyze key shifts in modern Europe by using diverse and (often bizarre) documents. In particular, the class will compare works on political culture, popular culture, and manufactured or commercial culture. **Offered occasionally.**

3280 Europe Between the Wars (4 sem. hours). Europe between WWI and WWII was a place of both decay and renewal. This course uses a pastiche of sources to gain an understanding of the time period. The class will try to reconstruct the commitments, decadence, idealism, and sense of defeat that allowed for myriad political and cultural transformations. **Offered occasionally.**

3290 History of Sexuality (4 sem. hours). A survey of historical developments from the eighteenth through the twentieth centuries, this course examines the codification and regulation of sexuality in European society. The class will explore the underlying politics of sexual knowledge, the structures of permission and prohibition, and the key debates that ranged on these matters. **Offered in alternate years.**

3310 Topics in African History (4 sem. hours). An interdisciplinary examination of a particular topic, period, or region in African history. The topics, which include The Shaping of South Africa and Listening to the African Past, will change from year to year. A student may take the course more than once if the topics are different. **Offered occasionally.**

3410 Topics in Middle Eastern History (4 sem. hours). An interdisciplinary examination of a particular topic, period, or region in Middle Eastern history. The topics, which include The Twice-Promised Land and Islam in History, will change from year to year. A student may take the course more than once if the topics are different. **Offered in alternate years.**

3510 Ancient History (4 sem. hours). A survey of the Mediterranean world from the Bronze Age to c.200 CE, with a topical emphasis on Classical Greece, the Late Roman Republic, and the Early Roman Empire with a methodological stress on reading, analyzing, and interpreting ancient sources in translation. **Offered in alternate years.**

3520 The Middle Ages (4 sem. hours). A survey of the history of Western Europe from c.200 to c.1300, with a topical emphasis on the religious, political, economic, social, and cultural developments of the High Middle Ages and a methodological stress on reading, analyzing, and interpreting medieval sources in translation. **Offered in alternate years.**

3530 Renaissance and Reformation (4 sem. hours). A survey of Western Europe from c.1300 to c.1600, with a topical emphasis on the crises of the Late Middle Ages, the intellectual and artistic developments of the Italian Renaissance, and the religious and political development of the Protestant Reformation and a methodological emphasis on reading, analyzing, and interpreting original sources in translation. **Offered in alternate years.**

3540 Early Modern Europe (4 sem. hours). A survey of the history of Western Europe from the 16th century to 1789, with a topical emphasis on the Scientific Revolution, Constitutionalism and Absolutism, the Enlightenment, and the coming of the French Revolution and a methodological emphasis on reading, analyzing, and interpreting original sources in translation. **Offered in alternate years.**

3750 Mythology and Southern History (4 sem. hours). An examination of the ways myths embody the values Southerners have most intensely cherished. The myths of class, gender,

and race that emerged from the Old South and the New South will be discussed in an historical context. Offered in alternate years.

750 Senior Seminar (4 sem. hours). An examination of how history is written and interpreted and of particular problems in history. May be taken by students who have two courses in history and is required of all history majors.

760 Special Topics in History (4 sem. hours). This course addresses areas not covered in other courses. It may be repeated for credit with different topics. Offered on demand.

800-4802 Directed Readings (1, 2, or 4 sem. hours).

Modern Languages

Associate Professors:

Priscilla Fermon, Ph.D.

Robert J. Kahn, Ph.D.

Assistant Professors:

Claudine Chadeyras, Ph.D., Chair

Ramon Figueroa, Ph.D.

Veronica Freeman, Ph.D.

Director of the Language Lab:

Gail Buzhardt, B.A., M.A.

Requirements for Major: Students may complete a major in French, German, or Spanish by satisfying the language requirement and successfully completing 2110 and a minimum of five courses beyond 2110. At least two of the five courses beyond 2110 must be literature courses taken at Millsaps and both literature courses must be completed before taking the comprehensive exam in the target language. We strongly recommend that you take, at a minimum, a third course in literature. For the German major, two of the five courses beyond 2110 must be taken at another institution, after approval from the department chair. Transfer of credit to be counted towards the major is subject to departmental approval.

Requirements for Minor: Students may elect a minor in French, German, or Spanish by satisfying the language requirement and successfully completing 2110 and a minimum of two courses beyond it. At least one of the two courses beyond 2110 must be a literature course. All courses beyond the intermediate level must be taken at Millsaps.

Language Requirement and Placement Test: The Department of Modern Languages administers its own placement test. The test is compulsory for all those who wish to continue their work in a language they studied in high school. Students beginning a new language are not required to take the placement test.

According to their placement test scores, students will either satisfy the language requirement or will be placed into 1000, 1010, 2000, or 2110. Academic credit will be awarded only for courses taken. Students may present transcripts verifying that they have completed the equivalent of Millsaps Basic and Intermediate language courses taken at other institutions, thereby satisfying the language requirement.

To satisfy the language requirement, students must demonstrate proficiency at the intermediate level by successfully completing a course in 2000, 2110, or its equivalent.

International Study: Before taking language courses abroad, students should consult with the department chair to ensure future transfer of credit. For further information about international study opportunities, see section on International Study.

French

1000 Basic French I (4 sem. hours). An introduction to the essentials of vocabulary, grammar, and sentence structure. Primary emphasis on understanding and speaking. Secondary emphasis on reading and writing. Intended for students with no prior study of French. A minimum of one hour per week in the language laboratory.

1010 Basic French II (4 sem. hours). Continuation of Basic French. A minimum of one hour per week in the language laboratory. Prerequisite: French 1000 or placement test score.

2000 Intermediate French (4 sem. hours). Building on Basic French, this course focuses on the practical application of basic listening and speaking skills. Expands students' reading and writing skills. A minimum of one hour per week in language laboratory. Prerequisite: French 1010 or placement test score.

2110 Contemporary French Culture (4 sem. hours). Providing the insights into customs and daily culture needed for interacting effectively with speakers of French, this transition course concentrates on reading skills in a conversational classroom environment. Taught primarily in French. Prerequisite: French 2000 or its equivalent or placement test score. Required for all further study in French.

2120 French for the Professions (4 sem. hours). Designed to improve students' knowledge of a chosen field (such as law, medicine, education, banking, sociology, etc.) and their ability to communicate, especially in writing. Taught in French. Prerequisite: French 2110. Offered on demand.

2751 French Across the Curriculum (1 sem. hour). Under a French instructor's guidance, students read and discuss texts related to a course in another discipline. Taught in French. This course may be repeated for credit with a different topic. Prerequisite: French 2000 and consent of the instructor. Offered on demand.

3200 Survey of French Literature up to the Revolution (4 sem. hours). A close study of the major works produced in France from the Middle Ages to the Revolution. Taught in French. Prerequisite: French 2110. Offered in alternate years.

3210 Survey of French Literature after the Revolution (4 sem. hours). A close study of the principal literary works produced in France from the time of the Revolution to the present. Taught in French. Prerequisite: French 2110. Offered in alternate years.

3220 French Civilization up to the Revolution (4 sem. hours). This course focuses on the art, music, legends, history, literary accomplishments, and cultural aspirations of French-speaking people up to the Revolution. Taught in French. Prerequisite: French 2110. Offered in alternate years.

3230 French Civilization after the Revolution (4 sem. hours). This course focuses on the art, music, film, history, literary accomplishments, and cultural aspirations of French-speaking people from the time of the Revolution to the present. Taught in French. Prerequisite: French 2110. Offered in alternate years.

750 French Film (4 sem. hours). This course integrates composition and conversation with the study of film as an aesthetic form and cultural product. It includes critical evaluations of films. Taught in French. Prerequisite for French credit: French 2110. Offered on demand.

750 Special Studies in French (4 sem. hours). Advanced, in-depth study of specific aspects of French literature, language, or culture, such as Advanced Grammar, Medieval and Renaissance Literature, Seventeenth-Century Theater, Eighteenth-Century Narrative, Nineteenth-Century Novel, and Twentieth-Century Theater. Taught in French. This course may be repeated for credit with a different topic. Prerequisite: French 2110.

800-4803 Directed Study in French (1-4 sem. hours). For advanced students who wish to do reading and research in special areas under the guidance of an instructor. Prerequisite: French 2110 and consent of the department chair.

900 Senior Seminar (1-4 sem. hours). In this capstone course, senior majors reflect on the role their undergraduate degree in French plays within the larger context of their liberal arts experience. Offered only in spring.

German

000 Basic German I (4 sem. hours). An introduction to the essentials of vocabulary, grammar, and sentence structure. Primary emphasis on understanding and speaking. Secondary emphasis on reading and writing. Intended for students with no prior study of German. A minimum of one hour per week in the language laboratory. Offered only in spring.

010 Basic German II (4 sem. hours). Continuation of Basic German. A minimum of one hour per week in the language laboratory. Prerequisite: German 1000 or placement test score. Offered only in fall.

000 Intermediate German (4 sem. hours). Building on Basic German, this course focuses on the practical application of basic listening and speaking skills. Expands students' reading and writing skills. A minimum of one hour per week in language laboratory. Prerequisite: German 1010 or placement test score. Offered only in spring.

110 Contemporary German Culture (4 sem. hours). Providing the insights into customs and daily culture needed for interacting effectively with speakers of German, this transition course concentrates on reading skills in a conversational classroom environment. Taught primarily in German. Prerequisite: German 2000, its equivalent, or placement test score. Required for all further study in German. Offered only in fall.

120 German for the Professions (4 sem. hours). Designed to improve students' knowledge of a chosen field (such as law, medicine, education, banking, sociology, etc.) and their ability to communicate, especially in writing. Taught in German. Prerequisite: German 2110. Offered on demand.

751 German Across the Curriculum (1 sem. hour). Under a German instructor's guidance, students read and discuss texts related to a course in another discipline. Taught in German. This course may be repeated for credit with a different topic. Prerequisite: German 2000 and consent of the instructor. Offered on demand.

200 Survey of German Literature through the Enlightenment (4 sem. hours). A close study of the principal literary works produced in German from the Middle Ages to the

Enlightenment. Taught in German. Prerequisite: German 2110.

3210 Survey of German Literature from the Time of Goethe (4 sem. hours). A close study of the principal literary works produced in German from the Goethezeit to the present. Taught in German. Prerequisite: German 2110. Offered in alternate years.

3220 German Civilization (4 sem. hours). This course focuses on the art, music, film, legends, history, literary accomplishments, and cultural aspirations of German-speaking people. Taught in German. Prerequisite: German 2110. Offered in alternate years.

3770 German Literature of the Early 20th Century (4 sem. hours). Close readings of representative texts by Mann, Kafka, Rilke, Hesse, and Brecht. Taught in German. Prerequisite: German 2110.

3780 German Literature Since 1945 (4 sem. hours). Reading and discussion of texts by authors such as Borchert, Boell, Duerrenmatt, Wolf, and Grass to increase understanding of society and politics in post-war Germany. Taught in German. Prerequisite: German 2110.

4750 Special Studies in German (4 sem. hours). Advanced, in-depth study of specific aspects of German literature, language, or culture. Taught in German. This course may be repeated for credit with a different topic. Prerequisite: German 2110.

4800-4803 Directed Study in German (1-4 sem. hours). For advanced students who wish to do reading and research in special areas under the guidance of an instructor. Prerequisite: German 2110 and consent of the department chair.

4900 Senior Seminar (1-4 sem. hours). In this capstone course, senior majors reflect on the role their undergraduate degree in German plays within the larger context of their liberal arts experience.

Spanish

1000 Basic Spanish I (4 sem. hours). An introduction to the essentials of vocabulary, grammar, and sentence structure. Primary emphasis on understanding and speaking. Secondary emphasis on reading and writing. Intended for students with no prior study of Spanish. A minimum of one hour per week in the language laboratory.

1010 Basic Spanish II (4 sem. hours). Continuation of Basic Spanish. A minimum of one hour per week in the language laboratory. Prerequisite: Spanish 1000 or placement test score.

2000 Intermediate Spanish (4 sem. hours). Building on Basic Spanish, this course focuses on the practical application of basic listening and speaking skills. Expands students' reading and writing skills. A minimum of one hour per week in language laboratory. Prerequisite: Spanish 1010 or placement test score.

2110 Contemporary Hispanic Culture (4 sem. hours). Providing the insights into customs and daily culture needed for interacting effectively with speakers of Spanish, this transition course concentrates on reading skills in a conversational classroom environment. Taught primarily in Spanish. Prerequisite: Spanish 2000, its equivalent, or placement test score. Required for all further study in Spanish.

2120 Spanish for the Professions (4 sem. hours). Designed to improve students' knowledge of a chosen field (such as law, medicine, education, banking, sociology, etc.) and their ability to communicate, especially in writing. Taught in Spanish. Prerequisite: Spanish 2110. Offered on demand.

2751 Spanish Across the Curriculum (1 sem. hour). Under a Spanish instructor's guidance, students read and discuss texts related to a course in another discipline. Taught in Spanish. This course may be repeated for credit with a different topic. Prerequisite: Spanish 2000 and consent of the instructor. Offered on demand.

3200 Survey of Peninsular Literature (4 sem. hours). A close study of the principal literary works produced in Spain from the Middle Ages to the present. Taught in Spanish. Prerequisite: Spanish 2110. Offered in alternate years.

3210 Survey of Spanish-American Literature (4 sem. hours). A close study of the principal literary works produced in Spanish-America from the time of its discovery to the present. Taught in Spanish. Prerequisite: Spanish 2110. Offered in alternate years.

3220 Spanish Civilization (4 sem. hours). This course focuses on the art, music, film, legends, history, literary accomplishments, and cultural aspirations of Spain. Taught in Spanish. Prerequisite: Spanish 2110. Offered in alternate years.

3230 Spanish-American Civilization (4 sem. hours). This course focuses on the art, music, film, legends, history, literary accomplishments, and cultural aspirations of Spanish-speaking people in the Americas. Taught in Spanish. Prerequisite: Spanish 2110. Offered in alternate years.

3750 Advanced Conversation (4 sem. hours). A review and practice of the major problems faced in listening and speaking. Taught primarily in Spanish. A minimum of one hour per week in the language laboratory. Prerequisite: Spanish 2110. Offered on demand.

3760 Advanced Grammar (4 sem. hours). Systematic review and practice of the major problems faced by English-speakers in Spanish grammar and sentence structure. Taught primarily in Spanish. Prerequisite: Spanish 2110.

3770 Modernism - Post Modernism (4 sem. hours). A comparison, contrast, and analysis of two main periods in modern Spanish American literature, focusing on modernist poetry and postmodernist prose. Taught in Spanish. Prerequisite: Spanish 2110.

3780 19th Century Hispanic Literature (4 sem. hours). This course examines major movements of nineteenth-century Spain and Spanish America, and it compares the two through the literature of that turbulent period. Taught in Spanish. Prerequisite: Spanish 2110.

3790 Generation of 1898 (4 sem. hours). This course focuses on the works of Spanish intellectuals at the turn of the twentieth century. Taught in Spanish. Prerequisite: Spanish 2110.

4750 Special Studies in Spanish (4 sem. hours). Advanced, in-depth study of specific aspects of Hispanic literature, language, or culture. Taught in Spanish. This course may be repeated for credit with a different topic. Prerequisite: Spanish 2110.

4760 Cervantes (4 sem. hours). A study of the life and works of Miguel de Cervantes Saavedra, including his short stories and plays as well as *Don Quixote de La Mancha*. Taught in Spanish. Prerequisite: Spanish 2110.

4770 Golden Age Drama (4 sem. hours). An in-depth study of representative theatrical works written in Spain between 1550 and 1681. Taught in Spanish. Prerequisite: Spanish 2110.

4800-4803 Directed Study in Spanish (1-4 sem. hours). For advanced students who wish to do reading and research in special areas under the guidance of an instructor. Prerequisite: Spanish 2110 and consent of the department chair.

4900 Senior Seminar (1-4 sem. hours). In this capstone course, senior majors reflect on the role their undergraduate degree in Spanish plays within the larger context of their liberal arts experience.

Music

Requirements for Major in Music: Students may complete a major in music with a Bachelor of Arts, Bachelor of Business Administration, or Bachelor of Science degree. While Foundations of Music is a prerequisite for all theory courses, students with a good theory background may test out of this class. All music majors must complete a basic 32 hour, eight-course program that includes Masterworks of Music; Music History and Literature I, II, III, and IV; Concepts and Design in Music I and II; Common Practice Part-Writing Skills; Conducting I; Form and Analysis; and Music 1511, 1521, 2511, and 2521 in Applied Music. (These applied music requirements are for those who are not performance or church music concentrators.) Participation in Singers each semester is required. All music majors must pass a keyboard proficiency test.

Requirements for Music Performance Concentration: Students may elect a performance concentration in piano, voice, organ, guitar, or orchestral instruments (the latter with special permission). Students may complete a performance concentration in music in tandem with a music major or any other major the College offers. The 20 hour, five course program includes Music 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 in Applied Music; one course in the Applied Area Literature (e.g. Piano Literature or Vocal Literature for piano and voice concentrations); one shared “half” recital; and one solo recital. (The solo recital must be performed while enrolled in Music 4522.)

Requirements for Church Music Concentration: Students may elect a concentration in church music in tandem with a music major or any other major the College offers. The 22 hour, five and one-half course program includes Choral Conducting I & II, Church Music Literature/Hymnology; a full course elective in religion; Music 1511, 1512, 2511, 2521, 3511, 3521, 4511, and 4521 in Applied Music; and Internship for Church Musicians. Church music concentrators must present one solo full recital. (The recital must be performed while enrolled in Music 4521.) Participation in Singers each semester is required.

Requirements for Minor in Music: A student may elect a music minor in piano, voice, organ, guitar, or orchestral instruments (the latter with special permission). The 16 hour, four course program includes Foundations of Music, Concepts and Design I, Masterworks of Music, and our, one semester hour applied music electives (two of which must be in one performance area). 'participation in Singers for at least four semesters is required.

Teacher Certification

Candidates for B.A. or B.S. degrees can earn teacher certification in music by completing the following additional courses: Choral Conducting I and II, Music Methods for Today's Schools, and the necessary courses in education, including Student Teaching.

General Requirements for Students of Music

All students studying applied music must attend weekly repertoire classes, attend all required recitals presented by the Department of Music, and take an examination before the faculty at the end of each semester.

All keyboard concentrators are required each semester to accompany either a singer, an instrumentalist, or one of the vocal ensembles.

Keyboard Proficiency

All music majors must demonstrate keyboard proficiency in the areas of sight-reading, performance, technique, and functional skills. The exam will be administered by the end of the first semester of the junior year and taken each subsequent semester until passed. Students must continue with piano lessons until the proficiency is passed. The exam must be passed as a whole. Students will not be allowed to pass portions at a time.

Piano Concentration Requirements

To enter the concentration program in piano, students should have an adequate musical and technical background and should be able to play all major and minor scales. They should have had some learning experience in all periods of the standard student repertoire, such as the Bach Two-Part Inventions, the Haydn and Mozart Sonatas, the Mendelssohn Songs Without Words, and the Bartók Mikrokosmos.

Organ Concentration Requirements

To enter the concentration program in organ, the student should have completed sufficient piano study to play the Bach Two-Part Inventions, Haydn and Mozart Sonatas, and compositions by Chopin, Schumann, or Mendelssohn. The student should be able to play all major and minor scales and arpeggios.

Voice Concentration Requirements

To enter the concentration program in voice, the student should possess above average vocal talent; and evidence ability to sing with correct pitch, phrasing, and musical intelligence; should know the rudiments of music; and should be able to sing a simple song at sight. A student should have experience in singing works from the standard repertoire.

Upper Divisional

Performance concentrators are required to pass a special performance jury before being admitted to upper divisional status. This upper divisional exam, taken at the end of the fourth semester of applied study, consists of a twenty minute program.

200 Foundations of Music (4 sem. hours). Explores music notation, scales, intervals, chords, rhythm, and introductory concepts about form in music. Since elementary understanding of the keyboard facilitates music learning, some practical keyboard drill is included.

1100 Masterworks of Music (4 sem. hours). Introduces the accepted canon of musical masterpieces in different genres and the compositional devices composers have used to make unified artistic expressions.

15S1 Singers (1 sem. hour). Performs important choral works from all major style periods, often with orchestra. *A cappella* and accompanied presentations are balanced.

1501 Ensembles (1 sem. hour). Gives students opportunities to perform significant works for small ensembles. Vocal and instrumental are offered according to student needs. To receive academic credit for these ensembles, students must enroll for both fall and spring semesters. Students enroll for audit credit during the fall. In the spring, enroll for regular one semester hour academic credit.

2000 Concepts and Design in Music I (4 sem. hours). Explores the basic underlying principles and concepts related to musical abstraction. Students discover and apply thought processes utilized by composers. Independent creative activities which have expressive intent form the core of student work. Aural concepts are emphasized.

2010 Concepts and Design in Music II (4 sem. hours). Emphasizes music conventions and constructs which shape and define music style. Modal, tonal, and serial approaches to composition are studied. Student compositions and performances provide focus for the study. Aural concepts are emphasized. Prerequisite: Music 2000.

2110 Symphonic Literature (4 sem. hours). Studies significant symphonic works and their formal design which were written at the end of the eighteenth century through today. Prerequisite: Music 2000. Offered in alternate years.

2130 Women and Music (4 sem. hours). Explores contributions of women to the art of music with special emphasis on women composers and performers beginning with Hildegard von Bingen in the Middle Ages and concluding with contemporary composers and performers.

3000 Common Practice Part-Writing Skills (4 sem. hours). Examines part-writing procedures for chorale and related styles of the eighteenth and nineteenth centuries with emphasis on theoretical analysis. Student repetition of style characteristics provides focus for the class. Aural concepts are emphasized. Prerequisite: Music 2010.

3002 Form and Analysis (2 sem. hours). Investigates the presentation, development, and relatedness of musical ideas through harmonic and structural analysis of music forms. Student written analyses and class presentations are an integral part of the study. Prerequisite: Music 3000.

3012 Counterpoint (2 sem. hours). Probes eighteenth-century polyphony. Strict species counterpoint and period contrapuntal forms such as invention and fugue are studied. Drill and practice culminate in student contrapuntal compositions. Prerequisite: Music 3000. Offered in alternate years.

3022 Opera History (4 sem. hours). Explores the history of operatic form and literature from 1600 to the present day with an emphasis on placing the art form in the context of social history. Offered occasionally.

3102-3112 Music History and Literature I and II (4 sem. hours). Seeks to place music developments within the larger context of human history. The first half of the semester looks

at music evolution from monophonic music of the ancient period through polyphony of the Renaissance, while the second half examines innovations and stylistic traits prevalent in the Baroque era.

122-3132 Music History and Literature III and IV (4 sem. hours). Examines music and its place in Western culture from the middle of the eighteenth century through the end of the twentieth century. The first half focuses on Classical period forms and their evolution during the Romantic period, while the second half explores eclectic forms and styles of major twentieth century composers.

332 Choral Conducting I (2 sem. hours). Provides theoretical and practical background for leading a choral ensemble. The class functions as a laboratory for developing conducting techniques. Prerequisite: Music 2000. Offered in alternate years.

342 Choral Conducting II (2 sem. hours). Provides additional support for developing conducting/analytical skills while utilizing significant choral literature. The class functions as a laboratory. Prerequisite: Music 3502. Offered in alternate years.

391 Junior Recital (1 sem. hour). Junior performance concentrators only.

402 Orchestration and Computer Applications (2 sem. hours). Identifies idiomatic characteristics of instruments utilized in composition and explores application of compositional techniques available on the computer. Student transcriptions and original compositions will be used in the class. Prerequisite: Music 2000. Offered occasionally.

102 Literature for the Piano (2 sem. hours). Surveys standard piano repertoire with emphasis on discovery of stylistic characteristics of major keyboard composers. Student research forms an integral part of the study.

110 Church Music Literature/Hymnology (4 sem. hours). Explores significant large and small forms of sacred music during the first half of the course. The second half examines hymnody with emphasis on English and American development of the form. Offered occasionally.

130 Literature for the Voice (4 sem. hours). Surveys solo song form of the Renaissance through the Twentieth Century as well as literature from oratorio and opera. The course emphasizes recital/concert program building from a historical perspective. Class performance is expected. Offered in alternate years.

200 Music Methods for Today's Schools (4 sem. hours). Explores strategies for teaching grades K - 12. Elementary topics include Suzuki, Dalcroze, Kodaly, and Orff techniques, while secondary topics emphasize choral methods. Offered in alternate years.

202 Piano Pedagogy I (2 sem. hours). Emphasizes techniques and materials used in teaching piano to children and older students in both private and class instruction. Papers on topics relating to piano teaching are expected. Offered occasionally.

220 Vocal Pedagogy (4 sem. hours). Explores the physical musculature and mechanics of singing, the use of technical exercises, and the psychology of vocal teaching. Investigation of basic repertoire for the beginning teacher forms an integral part of the course. Offered in alternate years.

300 Conducting from the Organ Console and Service Playing (4 sem. hours). Emphasizes

choral conducting techniques and literature for the church organist during the first half of the semester. The second half focuses on organ style for accompanying hymns and anthems. Offered occasionally.

4592 Senior Recital (2 sem. hours). Senior performance concentrators only.

4800-03 Directed Study (1-4 sem. hours). A student may elect to design a course that allows them to pursue an area of special interest not included in other courses. Faculty approval required.

4852 Internship for Church Musicians (2 sem. hours). Provides the prospective church musician practical experience under the guidance of a practicing, full time church musician. Five to eight hours each week are spent in the church setting.

4862 Piano Pedagogy II (2 sem. hours). Continues work begun in Piano Pedagogy I. Actual teaching in an internship context is required. Offered occasionally.

4900 Seminar in Music Literature (4 sem. hours). Provides a framework for placing major music genres such as opera, concerto, chamber music, symphony, and art song into historical perspective. Student research and presentation are expected.

Applied Music

Voice 1511, 1521, 2511, 2521, 3511, 3521, 4511, 4521, 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (1 or 2 sem. hours). Private studio lessons for non-music and music majors. Employs basic vocal repertoire appropriate for individual vocal growth. Historical style development as well as breath support, posture, phonation, enunciation, articulation, and related singing skills are emphasized. Weekly repertoire class is required.

Piano 1511, 1521, 2511, 2521, 3511, 3521, 4511, 4521, 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (1 or 2 sem. hours). Private studio lessons for non-music and music majors. Introduces appropriate literature from the major style periods and technical drill to enable student growth in performance skills. Stylistic analysis is emphasized. Weekly repertoire class is required.

Organ 1511, 1521, 2511, 2521, 3511, 3521, 4511, 4521, 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (1 or 2 sem. hours). Private studio lessons for non-music and music majors. Provides keyboard and pedal technique needed to perform major organ literature. Sufficient piano background is necessary. Weekly repertoire class is required.

Instrumental Study 1511, 1521, 2511, 2521, 3511, 3521, 4511, 4521, 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (1 or 2 sem. hours). Private studio lessons for non-music and music major. Provides fundamental technique for performance on orchestral instruments. Literature appropriate for each student is utilized.

Voice 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (2 sem. hours). Private studio lessons for voice concentrators. Covers a larger body of literature than elective voice. Intensive development of technique is approached through works of Vaccai, Shakespeare, Marchesi, Vennard, McCloskey, Miller, and others. Weekly repertoire class is required.

Piano 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (2 sem. hours). Private studio lessons

for piano concentrators. Explores piano literature in depth and aims toward rapid progress in technical proficiency. A major goal is to enable student to achieve successful performance. Weekly repertoire class is required.

Organ 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (2 sem. hours). Private studio lessons for organ concentrators. Emphasizes literature and technique needed for church organists, performers, or teachers. Weekly repertoire class is required.

Instrumental Study 1512, 1522, 2512, 2522, 3512, 3522, 4512, and 4522 (2 sem. hours). Private studio lessons for instrument concentrators. Provides technique for performance on orchestral instruments at the level appropriate for a music minor. Literature to enhance student technique and musical development is employed.

Theatre

Requirements for Major: Students may complete a major in theatre with a Bachelor of Arts, Bachelor of Business Administration, or Bachelor of Science degree. All theatre majors must complete a basic 50 hour, twelve and a one-half course program that includes Page to Stage, Introduction to Acting, Production I, Production I Lab, Stage Makeup, History and Literature of the Theatre I and II, Introduction to Directing, Senior Seminar, and four semesters of Performance (significant participation in Players productions). Beyond the basic courses, theatre majors must complete an additional course in each of the following: acting, directing, and production.

Requirements for Major in Theatre with Pre-Professional concentration: Students may complete a major in theatre with a pre-professional concentration by completing a 60 hour, 15 course program (10.5 at Millsaps College and 4.5 at New Stage Theatre). Courses at Millsaps include all of the basic courses required for the major as well as one additional course in the area of their concentration: acting, directing, production, or management. Upon completion of this additional course, students will qualify to take the pre-internship (3850 or 3852) at New Stage Theatre. After fulfilling the above requirements, students may apply to take the New Stage Internship (4850). Work done during the internship program will count as the Senior Project portion of Senior Seminar 4900.

Requirements for Minor: Students may complete a minor in theatre by completing a 24 hour, six course program that includes Page to Stage, Introduction to Acting, and Production I with lab. Students must complete two semesters of Performance (significant participation in Players productions). Also, students must complete two courses chosen from the following: acting, production, directing, theatre history, or speech.

Speech

1000 Speech Fundamentals: Public Speaking (4 sem. hours). Students prepare and deliver several oral presentations using informative, persuasive, and interpretive approaches in an extemporaneous style. Some presentations will use visual aids and some will be videotaped. The course emphasizes preparation for extemporaneous delivery, platform and breathing techniques, pronunciation, and articulation. Individual attention, help, and criticism offered.

1010 Speech Fundamentals: Oral Reading (4 sem. hours). Students prepare and deliver several oral presentations using interpretive approaches to literature. This course emphasizes text analysis, individual presentations of prose and poetry, group presentations of choral speaking, and readers' theatre. Individual attention, help, and criticism offered.

Theatre

1010 From Page to Stage (4 sem. hours). An examination of major figures and works, in their social and cultural contexts, of dramatic movements and theatrical developments from the Greeks to the present. This course includes script analysis and practical exercises in the process of transforming texts into fully realized productions. Fulfills the Fine Arts requirement

1401, 2401, 3401, and 4401 Performance (1 sem. hour). Practical experience in acting, directing, or technical work in productions by the Millsaps Players. Four performance courses will fulfill the Fine Arts requirement.

1801 Dance (1 sem. hour). Studio courses in ballet, modern, and jazz dance taught by instructors of Ballet Mississippi. Classes meet at Ballet Mississippi, the Art Center (Downtown), and on the Millsaps campus. For details see the Chair of the Department of Performing Arts.

2000 Theatre in America (4 sem. hours). An in-depth study of American theatre literature and history of the 19th and 20th centuries. Students explore the influences of major playwrights, and plays, including the unique contributions of African-American drama and musical theatre.

2100 Introduction to Acting (4 sem. hours). A studio course in acting fundamentals with an emphasis on performance in the modern Realistic style. Students explore improvisational techniques, scene study, and character development. This course includes a study of major figures in modern acting theory. Fulfills the Fine Arts requirement. Offered in alternate years.

2110 Acting Styles (4 sem. hours). A studio course in approaches and interpretations of acting in pre-modern and non-realistic performance styles. Students explore verse texts, historically oriented acting styles, and voice and movement techniques. This course includes a study of the philosophies and practices of non-realistic approaches to performance. Prerequisite: Theatre 2100 or by consent of the instructor.

2102 Improvisation (2 sem. hours).

2112 Voice and Speech for the Theatre (2 sem. hours).

2200 Production I (4 sem. hours). An introduction to production organization, management, and equipment; the basic theories and practices of scenic construction, rigging and shifting, mechanical drawing, and color theory are studied. Must be taken concurrently with Production I Lab (2202).

2202 Production I Lab (2 sem. hours). Students work backstage a minimum of five hours per week constructing sets for Millsaps Players productions. Additionally, students head a crew (props, lights, sound, etc.) for one of the productions during the semester.

2210 Production II (4 sem. hours). Theories and practice of theatrical production; areas of study include stage properties, scene painting, lighting, and sound. Must be taken concurrently with Production II Lab (2212). Prerequisite: Theatre 2200 or consent of the instructor.

2212 Production II Lab (2 sem. hours). See 2202.

2220 Design for the Actor/Director (4 sem. hours). Theories and practice of set, costume, and lighting design. Must be taken concurrently with Design Lab (2222). Prerequisite: Theatre

2200 or consent of the instructor. Offered in alternate years.

22 Design Lab (2 sem. hours). See 2202.

152 Stage Makeup (2 sem. hours). The principles and skills of applying stage makeup. Students will work with a variety of media to create character types including youth, middle age, old age, special effects, and prosthetics. Also, students are assigned to the makeup crew for one of the Millsaps Players productions during the semester.

200 History and Literature of the Theatre I (4 sem. hours). Examines dramatic theory, literature, criticism, and theatrical practices from the origins through the Renaissance; includes a study of Asian Theatre. A minimum of two plays are read, discussed, and analyzed for each period. Prerequisite: Theatre 1010 or permission of the instructor.

210 History and Literature of the Theatre II (4 sem. hours). Examines dramatic theory, criticism, theatrical practices from the English Restoration to the present. A minimum of three plays are read, discussed, and analyzed for each period. Prerequisite: Theatre 1010 and 3000 or permission of the instructor.

102 Stage Movement (2 sem. hours).

112 Mask Technique (2 sem. hours).

200 Scenery and Lighting Design (4 sem. hours). Advanced design; areas of study include set and lighting design for interior and exterior productions, box sets, unit sets, and musical or multi-set productions. Prerequisites: Theatre 2200 and 2220 or permission of the instructor.

212 Stage Management (2 sem. hours). Examines the role and duties of the stage manager in modern theatre. In addition to classroom work, the student is assigned to act as the stage manager for one of the Millsaps Players productions during the semester.

220 AutoCAD (4 sem. hours). Computer assisted drafting and design. Students study and practice a variety of techniques including geometric constructions, block diagrams, orthographic drawings, dimensioned drawings, sectional drawings, and some three-dimensional drawings. Admission only by permission of instructor.

310 Introduction to Directing (4 sem. hours). A studio course in fundamentals of directing theory and practice with an emphasis on performance in the modern realistic style. Students present directed scenes in performance. This course includes a study of major figures in modern directing theory. Offered in alternate years.

320 Advanced Directing (4 sem. hours). A studio course in directing approaches focusing on pre-modern and non-realistic genres. Students present directed scenes in performance including those for non-proscenium and found spaces formats. This course includes a study of directors in the alternate and avant garde theatre. Offered in alternate years.

350 and 3852 Pre-Internship (2 or 4 sem. hours). Serves as a bridge to the professional theatre. Students have the opportunity to apprentice at New Stage Theatre, Mississippi's only professional theatre. Students will work with a New Stage employee for 6-12 hours per week in order to develop professional skills in the student's chosen concentration. Acceptance to the pre-internship program is by interview/audition and approval of the faculty.

4800 - 4803 Directed Study (1 - 4 sem. hours). Designed to cover areas of special interest not included in other courses. Open only to approved students.

4850 New Stage Internship (4-12 sem. hours). An immersion in professional theatre; a semester of work at New Stage Theatre in the student's chosen concentration. Acceptance to the Internship program is by interview/audition and approval of New Stage Theatre and Millsaps College faculty. Prerequisite: Theatre 3850 or Theatre 3852.

4900 Senior Seminar (4 sem. hours). Students complete a senior project (approved by the faculty that demonstrates their ability to study and present a dramatic text for production. Portfolios of written work and a comprehensive reflective paper that places the undergraduate degree in theatre within the larger context of the liberal arts experience is required. This course fulfills the Core 10 requirement.

Philosophy

Professor:

Steven G. Smith, Ph.D.

Associate Professors:

Theodore G. Ammon, Ph.D., Chair

Kristen M. Brown, Ph.D.

Assistant Professor:

Patrick D. Hopkins, Ph.D.

Requirements for Major: Students may complete a major in philosophy with eight courses, including Logic, both semesters of History of Philosophy, and Senior Seminar. One core topics course taught by an instructor from the Philosophy Department may be used to meet the requirements of the philosophy major. At least one-half of the courses for the major must be taken at Millsaps.

Requirements for Minor: Students may elect a minor in philosophy with any four courses from the Philosophy Department. At least one-half of the courses for the minor must be taken at Millsaps.

Philosophy-Religious Studies Major

Requirements for Major: Students may complete a major in Philosophy-Religious Studies with five courses in philosophy and five in religious studies. The philosophy courses must include Philosophy 3010, 3020, and 3310; the religious studies courses must include at least two courses representing primary emphasis in traditions, comparisons, and arguments (see designations below, under course descriptions, for how courses ordinarily count) and the Religious Studies Seminar (3900 or 4900). Students pursuing this major will be given a specially adapted comprehensive examination by a committee of faculty from the two departments. Each student will choose to follow either the Philosophy major or the Religious Studies major format for comprehensive examinations; when the Philosophy format is chosen, Philosophy 4900 must be taken.

Courses

1210 Logic (4 sem. hours). This course will focus upon propositional logic and quantification, and to a lesser extent upon syllogistic logic. Attention will be given to scientific method and induction and to informal analysis of arguments in language. Offered in alternate years.

2000 Ways of Knowing (4 sem. hours). An introduction to the theories of knowledge from a variety of philosophical traditions, including feminism, pragmatism, mysticism, empiricism, and rationalism. A central concern of the course will be the relationship between science and philosophy in the acquisition of knowledge. Offered occasionally.

2010 Social and Political Philosophy (4 sem. hours). An inquiry into the basic principles of social and political organization, with special emphasis on the concepts of government, justice, punishment, family, property, work, and peace. This course is the same as Political Science 2500.

2020 Ethics (4 sem. hours). A reasoned exploration of the nature of the best life for individuals and societies. Offered occasionally.

2750 Special Topics (4 sem. hours).

3010-3020 History of Philosophy I & II (4 sem. hours each). The first semester is a survey of western philosophy through the Medieval Period, and the second semester is a survey from the Renaissance through the nineteenth century. Phil 3010 is the same as Classics 3500.

3030 20th Century Philosophy (4 sem. hours). A consideration of some of the movements in 20th century philosophy. Offered occasionally.

3150 Existentialism (4 sem. hours). A study of the basic works of thinkers such as Kierkegaard, Nietzsche, Heidegger, Sartre, Marcel, and Jaspers. Offered occasionally.

3210 Aesthetics (4 sem. hours). A study of the following question: What is the nature of art, aesthetic experience, and aesthetic judgment? Offered in alternate years.

3310 Philosophy of Religion (4 sem. hours). Investigation of issues arising from religious experience and beliefs, including the nature of the divine, evil, and human destiny. This course is the same as Religious Studies 3310. Offered occasionally.

3610 Metaphysics (4 sem. hours). This course will consider traditional philosophical questions about "Being" such as, but not limited to: What is reality? Do I have free will? Is there a God? What kind of thing am I? The course may either survey briefly the history of metaphysics or cover one or two philosophers in detail. Offered occasionally.

3750 Special Topics (1 to 4 sem. hours).

4800 Directed Readings (1 to 4 sem. hours).

4900 Senior Seminar (4 sem. hours). Intensive reading in selected issues, schools, and thinkers for senior majors.

Religious Studies

Professor:

Steven G. Smith, Ph.D., Chair

Associate Professors:

James E. Bowley, Ph.D.

Darby K. Ray, Ph.D.

Requirements for Major: Students may complete a major in religious studies with nine courses, including Introduction to Religious Studies; four courses including at least one with a primary emphasis on issues in the study of sacred texts, another with a primary emphasis on description and interpretation of existing religious traditions, a third with a primary emphasis on comparisons of different religious traditions, and a fourth with a primary emphasis on developing and criticizing arguments on religious issues. (See designations below, under course descriptions, for how courses ordinarily count.); and Religious Studies Seminar. (Religious Studies 4900 is required of seniors and 3900 is recommended for juniors.) One core topics course taught by a member of the Religious Studies department or Heritage of the West in World Perspective taken for a full year may be counted as one course toward the religious studies major. At least five courses in the major must be taken at Millsaps.

Requirements for Minor: Students may elect a minor in religious studies with any four courses from the Religious Studies department, including Introduction to Religious Studies and Religious Studies Seminar.

Philosophy-Religious Studies Major

Requirements for Major: Students may complete a major in Philosophy-Religious Studies with five courses in philosophy and five in religious studies. The philosophy courses must include Philosophy 3010, 3020, and 3310; the religious studies courses must include at least two courses representing primary emphasis in traditions, comparisons, and arguments (See designations below, under course descriptions, for how courses ordinarily count.) and the Religious Studies Seminar (3900 or 4900). Students pursuing this major will be given a specially adapted comprehensive examination by a committee of faculty from the two departments. Each student will choose to follow either the Philosophy major or the Religious Studies major format for comprehensive examinations; when the Philosophy format is chosen, Philosophy 4900 must be taken.

Concentration in Christian Education

An interdisciplinary area of concentration in Christian Education is available to students. For specific requirements, see Interdisciplinary Studies.

Courses

2000 Introduction to Religious Studies (4 sem. hours). A wide-ranging exploration of the phenomenon of religion and of the various approaches to its study.

2010 Ethics and Religion (4 sem. hours). A study of moral reasoning about personal and social issues in various religious, philosophical, and cultural contexts. An arguments course.
Offered in alternate years.

2110 Judaism, Christianity, Islam (4 sem. hours). A study of the history, literature, thought, and practices of Judaism, Christianity, and Islam with attention to their connections with each other. A traditions and comparison course. **Offered in alternate years.**

2120 South Asian Religions (4 sem. hours). A study of the history, literature, thought, and practices of the religions of India and Tibet, including Hinduism, Jainism, Buddhism, and Sikhism. A traditions course. **Offered in alternate years.**

2130 East Asian Religions (4 sem. hours). A study of the history, literature, thought, and practices of the religions of China, Korea, and Japan, including Confucianism, Taoism, Buddhism, and Shinto. A traditions course. **Offered in alternate years.**

2210 Hebrew Scriptures (Old Testament) (4 sem. hours). An introduction to the history, literature, thought, and practices of ancient Israel. A texts and traditions course. **Offered in alternate years.**

2220 New Testament and Early Christianity (4 sem. hours). An introduction to the background, beginnings, earliest development, and thought of Christianity. A texts and traditions course. **Offered in alternate years.**

2300 African-American Religions (4 sem. hours). A study of varieties of religious expression, belief, and organization in African-American spiritual existence since the 18th century, with consideration of slave religion, racism and religion, religious colonization, independent black churches, black protest and liberation theology, womanist thought, and heterodox religious groups like the Jehovah's Witnesses, the Nation of Islam, Santeria, and Voodoo. **Offered occasionally.**

2400 The Meaning of Work (4 sem. hours). An investigation into the phenomenon that is arguably at the foundation of human civilization and the human psyche: work. The course explores issues of value, purpose, function, organization, and justice in relation to the meaning of work from a variety of perspectives, including philosophy, theology, sociology, psychology, and management. An arguments course.

2601-2602 Contemporary Religious Issues (1 or 2 sem. hours). Discussion based on readings in current periodicals and books and on personal experiences. **Offered occasionally.**

2750 Special Topics (4 sem. hours).

3000 Myth (4 sem. hours). A study of the symbols and motifs of mythology focusing on the myths of Greece and Rome, with comparative material introduced from near Eastern, Native American, Asian, African, and Norse mythology. This course is the same as Classical Studies 3000. **Offered occasionally.**

3110 History of Christian Thought (4 sem. hours). A study of formative figures and ideas in the history of Western Christianity. A traditions and arguments course. **Offered in alternate years.**

3120 Modern and Contemporary Theology (4 sem. hours). An examination of major developments in theology from the Enlightenment to the present, with attention to such figures as Schleiermacher, Barth, Tillich, Rahner, the Niebuhrs, Ruether, and McFague, and to contemporary movements such as the liberation theologies and global theology. A traditions and arguments course. **Offered in alternate years.**

3150 Religion, Science, and Nature (4 sem. hours). An investigation of issues raised by the relationship between Western science and classic religious traditions, including the religious roots of science, the worldview revolutions caused by scientific theories, the environmental impact of religious perspectives and practices, and environmental ethics and policy. An arguments course. **Offered occasionally.**

3160 Religion and Literature (4 sem. hours). A study of religious approaches and themes in ancient and/or modern literature. A texts course. **Offered occasionally.**

3170 Religion and Society (4 sem. hours). A study of the relationships between religious beliefs and values, social structures, and political issues, drawing on social-scientific as well as religious resources. **Offered occasionally.**

3310 Philosophy of Religion (4 sem. hours). An investigation of issues arising from religious experience and beliefs, including the nature of the divine, evil, and human destiny. This course is the same as Philosophy 3310. An arguments course. **Offered in alternate years.**

3400 Evil (4 sem. hours). A study of the reality, nature, origin, and consequences of evil, focusing on the distinctive shape and logic of what is most ignoble, destructive, callous, and dysfunctional in human history and existence. **Offered occasionally.**

3500 Religious Comparisons (4 sem. hours). Comparative study of selected topics in thought and practice in different religious traditions. A comparisons course.

3600 The Educational Ministry of the Church (4 sem. hours). An examination of the purpose and implementation of Christian educational ministry. **Offered occasionally.**

3750 Special Topics (4 sem. hours).

3900-4900 Religious Studies Seminar (4 sem. hours). Intensive reading and discussion of selected texts and issues with important implications for the theory and practice of religious studies. (Topics will be announced each time the course is offered; since topics change with each offering, the course may be retaken for credit.)

4800 Directed Readings (1 to 4 sem. hours).

4850 Religious Studies Internship (1 to 4 sem. hours). An off-campus learning experience designed in consultation with a religious professional and a Religious Studies department faculty member.

Division of Sciences

George J. Bey, III, Associate Dean

Biology

Professors:

Sarah L. Armstrong, Ph.D., Chair

James P. McKeown, Ph.D.

Associate Professors:

Dick R. Highfill, Ph.D.

Sarah Lea McGuire, Ph.D.

Robert B. Nevins, M.S.

Assistant Professor:

Deborah Mann, Ph.D.

Requirements for Major: The Biology Department offers both the Bachelor of Arts and the Bachelor of Science degrees in biology. All majors must take Introductory Cell Biology, General Botany, General Zoology, and Senior Seminar, plus a minimum of five additional biology courses, including one from each of the three areas listed below:

Cellular and molecular processes:

Bacteriology

Genetics

Immunology and Virology

Molecular Cell Biology

Structure and Function:

Comparative Morphology

Entomology

Histology

Invertebrate Zoology

Comparative Physiology

Mammalian Physiology

Organisms and Environment:

Aquatic Biology

Evolution and Systematics

Ecology

Field Biology

Requirements for Minor: Students may elect a minor in biology with Introductory Cell Biology, General Botany, General Zoology, and at least two upper-level biology courses chosen from the list above.

General Information

No grade lower than a C will be accepted in any course to fulfill a major or minor in biology. For the major, at least four courses plus Senior Seminar must be taken in residence at Millsaps. For the minor, at least three out of the necessary five courses must be taken in residence at Millsaps.

Students planning careers in the health professions should also take General Chemistry I and II, with labs; Organic Chemistry I and II, with labs; and College Physics I and II, with labs. Many medical schools strongly recommend at least one semester of Biochemistry.

Students planning further study in molecular biology are encouraged to take Biochemistry I and II.

Students planning further study in ecology or environmental sciences are encouraged to take General Chemistry I and II, with labs; Elementary Statistics; and Physical Geology.

All courses numbered 2000 or higher require two previous college level biology courses or consent of the instructor.

Courses

1000 Introductory Cell Biology (4 sem. hours). An examination of cytological, physiological, and biochemical features common to all cells: metabolism, genetics, growth, movement, and reproduction. Laboratories will include basic instrumentation and concepts of quantification. Prerequisite for all other biology courses. Fulfills Core 7 or 9.

1010 General Botany (4 sem. hours). Examines the structures, life processes, ecological interactions, and evolutionary relationships among bacteria, protists, fungi, and plants. Fulfills Core 7 or 9. Prerequisite: Biology 1000.

1020 General Zoology (4 sem. hours). Comparative morphology and physiology of invertebrates and vertebrate animals. Fulfills Core 7 or 9. Prerequisite: Biology 1000.

1710 Human Evolution (4 sem. hours). History and nature of science. The various lines of evidence about human ancestry will be examined, including population genetics, paleontology, DNA and protein sequencing, "Mitochondrial Eve," chromosome structure, behavior, and linguistics. Current literature will be reviewed. This course includes a laboratory. For freshmen and sophomores only, except by permission of instructor. Designed for non-science majors. Does not fulfill requirements for B.S. degree, nor for a major or minor in biology. Fulfills Core 7 or 9. Cross-listed as SOAN 1710.

2000 Genetics (4 sem. hours). Historical/developmental treatment of theories of biological inheritance with emphasis on the process of scientific discovery. Includes Mendelian, cytogenetic, bacterial, and molecular approaches to questions about the nature and function of genetic material. Laboratory component consists of investigative experiences in Mendelian and molecular genetics. Prerequisite: Biology 1000 and either Biology 1010 or Biology 1020.

2200 Ecology (4 sem. hours). In-depth study of relationships of organisms with other organisms and with their physical environment, including population, community, and ecosystem dynamics. Prerequisites: Biology 1010 or consent of instructor.

2210 General Entomology (4 sem. hours). Identification, life history, ecology, and evolutionary histories of the class Hexapoda. Prerequisite: Biology 1020. Offered on demand.

2220 Evolution and Systematics (4 sem. hours). Evidence for, and mechanisms of, evolution, including population, molecular genetics, and paleontology. History, philosophy, and practice of taxonomy; nature of taxonomic evidence. Prerequisite: Biology 1010.

3100 Histology (4 sem. hours). Microscopic anatomy of the different vertebrate systems, with an emphasis on basic tissue types. Prerequisite: Biology 1020.

3110 Comparative Vertebrate Morphology (5 sem. hours). An integrated course in vertebrate

anatomy and embryology. Reproduction, organ systems, and a comparative study of the gross anatomy of the vertebrate systems. Prerequisite: Biology 1020.

3120 Electron Microscopy (4 sem. hours). Theory and techniques of the electron microscope. Tissue preparation, handling and imaging with the scanning and transmission electron microscopes. Permission of instructor is required. Does not fulfill any of the areas required for a biology major or minor. Offered on demand.

3200 Aquatic Biology (4 sem. hours). Physical and biological processes in aquatic ecosystems, both freshwater and marine. Emphasis is on natural ecosystems and the impact on them by the activities of humans. Prerequisite: Biology 1010.

3210 Field Biology (4 sem. hours). Environmental study trips throughout North America. Emphasis on ecology and community composition. Four-week summer program with approximately three weeks away from campus. Prerequisites: Biology 1010 and 1020. Offered on demand.

3300 Molecular Cell Biology (4 sem. hours). An in-depth study of the molecular principles by which eukaryotic cells function, with emphasis on membrane structure/function, signal transduction, the cytoskeleton, and the cell cycle. The course is integrated with a survey of current molecular techniques for genetic engineering, DNA and protein analysis, and eukaryotic cell structure. Prerequisites: Biology 1010 or Biology 1020 and Chemistry 1213 and 1223.

3400 Comparative Animal Physiology (4 sem. hours). Comparative examination of selected organ systems in animals, from protozoa through chordates, with an emphasis on vertebrates. Laboratory employs current methods and instrumentation of experimental physiology. Prerequisite: Biology 3410. May be repeated as topics vary.

3410 Mammalian Physiology (4 sem. hours). Lecture and laboratory experiences present the fundamental principles of the function of mammalian organ systems. Laboratory experiments include both human and animal models, employing contemporary methods and instrumentation of experimental physiology. Prerequisites: Biology 1000 and 1020 or consent of instructor.

3500 General Bacteriology (4 sem. hours). Historical survey; bacterial structure, metabolism, genetics, and taxonomy; role of bacteria in disease, industry, and ecology; common bacteriological techniques. Prerequisite: Biology 1010 and Chemistry 1213 and 1223. Recommended: Organic Chemistry.

3510 Immunology and Virology (4 sem. hours). The physiology, biochemistry, and genetics of the immune response; viral structure, function, and relationship to host. Prerequisites: Biology 1010 and Chemistry 1213 and 1223. Recommended: Organic Chemistry.

3600 Invertebrate Zoology (4 sem. hours). An in-depth study of the invertebrate phyla. Emphasis on morphology, life history, physiology, ecology, and evolutionary histories. Prerequisite: Biology 1000 and 1020. Offered on demand.

3700-3703 Undergraduate Research (1 - 4 sem. hours). Students may make arrangements with a faculty member to pursue laboratory or field research. Prerequisite: consent of instructor.

3710-3712 Directed Study (2 or 4 sem. hours). Course is offered when a student needs a specific subject covered to meet a professional requirement or a student wants to work with an instructor in order to look more deeply into a particular aspect of a discipline.

3750 or 3752 Special Topics in Biology (1 - 4 sem. hours)

3850 or 3852 Internship (2 or 4 sem. hours). Practical experience and training with selected research, educational, governmental, and business institutions.

4902-4912 Senior Seminar (2 sem. hours). A sequenced, two-semester (2 hours per semester) capstone course for the biology major. Selected topics in the history and current literature of science, particularly biology, emphasizing the development of an integrated world view from the standpoint of the sciences. Required for all biology majors. Prerequisite: senior standing.

Chemistry

Professors:

Jimmie M. Purser, Ph.D.

Timothy J. Ward, Ph.D., Chair

Associate Professor:

Kristina L. Stensaas, Ph.D.

Assistant Professors:

L. Lee Lewis, B.S., Ph.D. Candidate

Wolfgang H. Kramer, Ph.D.

Mark A. Hamon, B.S., Ph.D. Candidate

Requirements for Major: All students pursuing a degree in chemistry must complete the following courses in chemistry with a grade of C or better:

- General Chemistry I & II and General Chemistry Laboratory I and II
- Organic Chemistry I and II and Organic Chemistry Laboratory I and II
- Quantitative Analysis and Applications of Quantitative Analysis
- Physical Chemistry I or Principles of Physical Chemistry
- Chemical Separations or Instrumental Analysis
- Organic Spectral Analysis
- Literature of Chemistry
- Chemistry Seminar

Students pursuing a B.S. degree with a major in chemistry must satisfy two of their additional degree requirements with College Physics I and II and College Physics Laboratory I and II or General Physics I and II and General Physics Laboratory I and II.

The chemistry department is accredited through the American Chemistry Society to offer the American Chemistry Society (ACS) degree certification. The ACS certified degree provides more in depth training for those students who wish to pursue graduate studies in chemistry or other advanced studies. To receive the ACS certification of a degree, the student must maintain a 2.5 grade point average in chemistry and must take the following courses in addition to the requirements listed above:

- Analytical Geometry and Calculus II

Physical Chemistry I and II

Advanced Inorganic Chemistry

Instrumental Analysis

Two additional chemistry courses numbered above 3000 from the following: 3110, 3310, 3610, 620, 3730

Students pursuing an ACS degree must take calculus based General Physics I and II and General Physics Laboratory I and II.

A grade below C will not be accepted for any of the above courses required of a chemistry major.

Requirements for Minor: Students may elect a minor in chemistry by taking the following courses:

General Chemistry I and II and General Chemistry Laboratory I and II

Organic Chemistry I and II and Organic Chemistry Laboratory I and II

One additional four semester hour chemistry course numbered 2000 or above

Courses

213 General Inorganic Chemistry I (3 sem. hours). An introduction to the theory, practice, and methods of Chemistry. Development of atomic theory, atomic and molecular structure, chemical bonding, periodicity of the elements, stoichiometry, states of matter, and basic energy considerations. This course and Chemistry 1211 fulfill core 7 or 9. Corequisite: Chemistry 1211.

211 General Inorganic Chemistry Laboratory I (1 sem. hour). A coordinated course (with General Chemistry I) emphasizing chemical techniques, skills, and methods for qualitative and quantitative analysis of laboratory data and their limitations. This course and Chemistry 1213 fulfill core 7 or 9. Corequisite: Chemistry 1213.

223 General Inorganic Chemistry II (3 sem. hours). An introduction to the states of matter, solution and descriptive chemistry, equilibrium, thermodynamics, kinetics, oxidation and reduction, and electrochemistry. This course and Chemistry 1221 fulfill core 7 or 9. Prerequisite: Chemistry 1213. Corequisite: Chemistry 1221.

221 General Inorganic Chemistry Laboratory II (1 sem. hour). A coordinated course (with General Chemistry II) to develop chemical techniques. Includes introductory qualitative and quantitative analysis. This course and Chemistry 1223 fulfill core 7 or 9. Prerequisite: Chemistry 1211. Corequisite: Chemistry 1223.

2110 Organic Chemistry I (4 sem. hours). First in a two-semester program in the application of chemical principles to organic compounds and the elucidation of their chemical and physical properties. Development of theoretical principles including structure determination, reaction mechanisms, kinetics, bond stability, experiment design, stereochemistry, and strategies of organic synthesis. Prerequisite: Chemistry 1223. Corequisite: Chemistry 2111.

2111 Organic Chemistry Laboratory I (1 sem. hours). A coordinated one-hour course (with Chemistry 2110) emphasizing organic synthesis, separation techniques, spectral analysis, and testing of mechanism theory and relative rates. Corequisite: Chemistry 2110.

2120 Organic Chemistry II (4 sem. hours). Second part of a two-semester program; a study of the more common oxygen, nitrogen, sulfur, and halogen derivatives of carbon. Emphasis is on their structure, stereochemistry, preparation, chemical reactions, and physical properties

and their relation to the properties of bio-molecules. Prerequisite: Chemistry 2110. Corequisite: Chemistry 2121.

2121 Organic Chemistry Laboratory II (1 sem. hour). A coordinated one-hour course (with Chemistry 2120) emphasizing more advanced syntheses and use of instruments for separation techniques and spectral analysis. Corequisite: Chemistry 2120.

2310 Quantitative Analysis (4 sem. hours). This course will cover the use of basic statistical methods to treat sample data. Theories and concepts studied include solution equilibria, acid-base theory, oxidation-reduction, complexation, and solubility equilibria. An introduction to potentiometric and spectroscopic techniques. Prerequisite: Chemistry 1223. Corequisite: Chemistry 2312.

2312 Applications of Quantitative Analysis (2 sem. hours). Gravimetric, titrimetric, and volumetric methods along with statistical methods to evaluate data are presented in the laboratory. Various unknowns are determined utilizing the basic techniques described above. The laboratory will also introduce potentiometry and UV-Visible spectroscopy. Corequisite Chemistry 2310.

3110 Advanced Organic Chemistry (4 sem. hours). An in-depth study of major organic mechanisms, along with selected topics such as symphoria, heterocyclics, polymers, and molecular orbital modeling. Stereo-chemical and mechanistic applications are discussed including their application to bio-molecules. Prerequisite: Chemistry 2120.

3122 Organic Spectral Analysis (2 sem. hours). Theory and practice of instrumental analysis of organic compounds. Emphasis is on interpretation of data from modern instrumentation. Capabilities and limitations of spectral analyses are considered. Prerequisite: Chemistry 2120.

3210 Advanced Inorganic Chemistry (4 sem. hours). A course designed primarily for students who are pursuing the American Chemical Society accredited degree in chemistry. This course is an overview of the principles of advanced inorganic chemistry including applications of group theory and symmetry, molecular bonding theories, nomenclature, kinetics and mechanisms, organometallics, polymers, and advanced inorganic laboratory techniques. The course has a lecture and laboratory component. Prerequisite: Chemistry 2310, Mathematics 1220. Prerequisite or corequisite: Chemistry 3410 or 3400.

3310 Principles of Chemical Separations (4 sem. hours). Techniques covered include crystallization, distillation, gas and liquid chromatography, counter current chromatography, micellar chromatography, electrophoretic techniques, and field flow fractionation. This course will also examine general transport theory, formation and properties of Gaussian zones, diffusion, zone broadening, concepts of plate height, resolution, and peak capacity. A laboratory section is included in the course. Prerequisite: Chemistry 2310.

3320 Instrumental Analysis (4 sem. hours). An introduction to the basic design and theory of operation for modern instrumentation. Topics to be covered include flame spectroscopy, UV-vis spectroscopy, fluorescence and phosphorescence, IR, NMR, potentiometry, mass spectrometry, and an introduction to electro analytical techniques. This course will emphasize the practical applications and limitations of each technique. Included in the course is a laboratory period. Prerequisite: Chemistry 3400 or Chemistry 3410.

3400 Principles of Physical Chemistry (4 sem. hours). This is a non-calculus based course

designed for the general chemistry major and those pursuing careers in the health sciences. Topics covered include structure of matter, gas laws, properties of liquids and solutions, thermodynamics, equilibrium, chemical kinetics, catalysis, and properties of macromolecules. An integrated laboratory is included in the course. Prerequisite: Chemistry 2310.

3410 Physical Chemistry I (4 sem. hours). Physical thermodynamics, equilibrium, properties of solutions of nonelectrolytes, phase rule, kinetics, and states of matter. The integrated laboratory includes experiments in the above areas. Prerequisite: Mathematics 1220, Chemistry 2310, Physics 1003.

3420 Physical Chemistry II (4 sem. hours). Nuclear chemistry, quantum chemistry, molecular bonding and structure, and surface chemistry. An integrated laboratory is included in the course. Prerequisite: Chemistry 2310, Mathematics 1220, Physics 1013.

3610 Biochemistry I (4 sem. hours). An introduction to the structure, dynamics, and function of macromolecules: proteins, nucleic acids, and complex lipids. Topics include enzyme kinetics, mechanisms of enzyme action, biological membranes, and protein biosynthesis. Prerequisite: Chemistry 2120, Biology 1000.

3620 Biochemistry II (4 sem. hours). An introduction to the basic concepts and design of metabolism. Topics include the generation and storage of metabolic energy, control of gene expression, and the application of biochemical principles to physiological processes. Prerequisite: Chemistry 2120, Biology 1000.

3700-3703 Undergraduate Research (1 - 4 sem. hours). Library and laboratory research in special areas under the guidance of the instructor. Prerequisite: Consent of the instructor.

3730 Environmental Chemistry (4 sem. hours). An introduction to environmental chemistry as applied to aquatic, atmospheric, soil, and hazardous waste systems. Topics include environmental chemical cycles, aquatic chemistry, atmospheric chemistry, soil chemistry, environmental chemistry of hazardous wastes, and toxicology. Included in the integrated laboratory component is an overview of various environmental chemical analyses. Prerequisite: Chemistry 2120 and Chemistry 2310.

3750-3753 Special Topics in Chemistry (1 - 4 sem. hours). Special areas of study not regularly offered for an organized class of interested students. Prerequisite: Consent of the instructor.

3800-3803 Independent Study (1 - 4 sem. hours). Following the basic courses, this offering will permit a student to pursue advanced topics under the direction of the appropriate chemistry staff member.

3850-3853 Internship (1 - 4 sem. hours). Practical experience and training with selected research, educational, governmental, and business institutions. Credit/no credit grading only. Prerequisite: Consent of the instructor.

4910 Literature of Chemistry (4 sem. hours). Processing and managing information from the chemical literature with oral and written presentations. History of chemistry and the proper use of chemical literature are included. Prerequisite or corequisite: Chemistry 2120, 3310, or 3320, 3410, or 3400.

Computer Science

Professors:

Jimmie M. Purser, Ph.D.

Robert A. Shive Jr., Ph.D.

Associate Professor:

Donald R. Schwartz, Ph.D., Chair

Assistant Professors:

R.W. McCarley, M.S.

William H. Bares, Ph.D.

Requirements for Major: Students may complete a major in Computer Science with a concentration in either computer science or computer information systems. The computer science concentration is intended to prepare students for graduate studies or technical careers in computing, while the concentration in computer information systems prepares students for careers that involve the applications of computing. All students pursuing the major must take 11 courses (44 semester hours), including Computer Science I, Computer Science II, Computer Organization and Machine Programming, Data Structures and Algorithms, and both semesters of Seminar. In addition, majors must take courses specific to their concentration as described below.

A. Computer science concentration: Computer Graphics, Computer Architecture, or Theory and Design of Operating Systems; two Computer Science courses numbered 3000 or higher; two additional computer science or mathematics courses numbered 3000 or higher; and Mathematics 2310: Introduction to Advanced Mathematics.

B. Computer information systems concentration: Systems Analysis and Design; Math 1150: Elementary Statistics; and two computer science courses numbered 3000 or higher; two additional courses from the following list: any computer science or mathematics course numbered 3000 or higher, Accounting 2000, Management 3000, Quantitative Management 3000.

A grade of C or higher is required for any Computer Science course required for the major. All requirements for the major not taken at Millsaps must be approved in advance by the department chair.

Requirements for Minor: Students may elect a minor in Computer Science with Computer Science I, Computer Science II, and at least two computer science courses numbered 2000 or higher. A grade of C or higher is required for any computer science course required for the minor.

Courses

1000 Problem Solving With Computer Software (4 sem. hours). Introduction to the use of computer software and hardware including introduction to operating systems, editors, electronic mail, word processing, spreadsheets, relational databases, and statistical packages available on the campus network. This course emphasizes problem solving in the utilization of computer resources.

1010 Computer Science I (4 sem. hours). An introduction to algorithms and computer programming. Basic programming constructs, data structures, recursion, and graphical user interface construction. Prerequisite: Mathematics 1100 (College Algebra) or equivalent.

1020 Computer Science II (4 sem. hours). A continuation of Computer Science I. Topics include linked lists, stacks and queues, trees and graphs, sorting algorithms, algorithm analysis, data abstraction, and software engineering. Prerequisite: Computer 1010.

2100 Computer Organization and Machine Programming (4 sem. hours). An introduction to the architecture and operation of a computer system. Includes data representation, assembly language programming, addressing methods, subroutines, assemblers, and linkers. Prerequisite: Computer 1020.

2300 Data Structures and Algorithms (4 sem. hours). Algorithm design, analysis, and implementation. Topics include specialized trees and graphs, advanced searching and sorting, complexity analysis, and algorithm design techniques. Prerequisite: Computer 1020.

2440 Multimedia Principles and Design (4 sem. hours). Principles and methods of multimedia systems. Case studies, team exercises, and the use of multimedia development and authoring tools. Laboratory work focuses on multimedia courseware development. Prerequisite: Computer 1000 or Computer 1010.

3100 Data Communications and Networks (4 sem. hours). Theoretical and practical factors in data communications including historical aspects, communications equipment, transmission media, protocols, error effects, topologies, architectures, and network strategies. Laboratory experience in network development and management. Prerequisite: Computer 1020.

3110 Computer Architecture (4 sem. hours). Comparative architectures, systems structure and evaluation, memory and process management, resource allocation, protection, concurrent processes, and current trends in system design and operations. Prerequisite: Computer 2100.

3210 Systems Analysis and Design (4 sem. hours). System development life cycle, CASE tools, decision tables, data collection and analysis, systems planning and design, computer system evaluation and selection, and implementation of systems. Prerequisite: Computer 2300.

3220 Database Management (4 sem. hours). Database concepts, organization and applications, database management systems, and the implementation of various databases. Prerequisite: Computer 1020.

3300 Theory and Design of Operating Systems (4 sem. hours). Multiprogramming and multi processing systems, mapping and binding of address, storage management, process and resource control, analysis of file structures and file management. Prerequisite: Computer 2100 and Computer 2300.

3310 Automata, Computability, and Compiler Theory (4 sem. hours). Automata, Turing machines, theory of computation, techniques of compiler design, lexical analysis and parsing, and classification of grammars. Prerequisite: Computer 2300.

3410 Computer Graphics (4 sem. hours). Design, construction, and utilization of interactive computer graphics. Device independent development of two and three dimensional transformations, clipping, windows, perspective, hidden lines, and animation. Graphics primitives and graphics libraries. Laboratory applications using diverse graphics hardware and software. Prerequisite: Computer 2300 and Mathematics 1220.

3420 Digital Image Processing (4 sem. hours). Hardware and software issues in image processing.

Document storage and retrieval with particular emphasis on optical systems. COM/CAR, WORMS, compression techniques, OCR, scanners, networks, document processing software, and laboratory applications of selected processes. Prerequisite: Computer 1010.

3440 Multimedia Systems and Applications (4 sem. hours). An exploration into advanced features of multimedia and the Internet, including compression, event synchronization, storage, and networked applications. Tools for multimedia design, development, and evaluation. The course contains a laboratory component. Prerequisite: Computer 1010 and Computer 2440.

3500 Discrete Structures (4 sem. hours). Algebras and algorithms, lattices and Boolean algebras graphs and digraphs, and monoids and groups. Prerequisite: Mathematics 2310 (This course is the same as Math 3560).

3600 Software Engineering (4 sem. hours). Design, construction, and maintenance of large software systems. Topics include project planning, requirements analysis, software design methodologies, software implementation and testing, maintenance, and software metrics. Prerequisite: Computer 1020.

3620 Rapid Application Development (4 sem. hours). Software development in the rapid development/rapid prototype realm. Topics include user-interface design strategies, software engineering, object-oriented programming, graphics, and database access. Prerequisite: Computer 1020.

3750-3753 Selected Topics (1 - 4 sem. hours).

3800-3803 Directed Study (1 - 4 sem. hours).

4902-4912 Seminar (2 - 2 sem. hours). Discussion of current problems and trends in computing. Prerequisite: Consent of instructor.

Education

Professors:

Jeanne Middleton-Hairston, Ed.D.

Associate Professor:

Connie Schimmel, Ph.D., Chair

Assistant Professor:

Eugene Vinson, Ed.D.

Principals' Institute:

Beth Canizaro, Ed.D.

The Millsaps College Teacher Preparation Program

This interdepartmental course of study for undergraduates is composed of a unique mix of course work in the student's major combined with fieldwork, seminars, and practice teaching experiences. The program, NCATE accredited and approved by the Mississippi Department of Education, allows undergraduates to explore teaching as a career option and to become fully prepared and licensed to teach successfully at the elementary or the secondary level within the regular framework of a Millsaps B.A. or B.S. degree. Participants can major in an academic subject

and earn Secondary and/or Middle School Licensure in Art, Biology, Chemistry, General Science, English, Drama (Performing Arts), Social Studies, Mathematics, Music Education Instrumental, Music Education Vocal, Physics, Psychology, Sciences, Theatre, and world languages including French, Latin, Spanish, and German. Students may major in Elementary Education and receive licensure at the elementary school level. Students may also Minor in Education. Supplemental Licensure is available in Mild/Moderate Disability and Gifted.

The licensure that students earn upon completion of the entire program is granted by the State of Mississippi for teaching in the public schools. The certificate is valid in most states through reciprocity agreements. Independent and private schools, as a rule, do not require certification through the Mississippi State Department of Education (MDE) for teaching positions. Students may take one or several courses - Human Development, a Cross Cultural Perspective; Classroom Methods and Management; Field Research in Reading; or Education of the Exceptional Population - as preparation for teaching in independent or private schools or as meeting the requirements for a Minor in Education. However, independent school administrators have become increasingly interested in teacher candidates who are fully prepared and certified within a liberal arts curriculum.

In accordance with Title II federal regulations, all students seeking licensure must take and pass the national exam as required by MDE in their subject areas prior to student teaching.

Admission to the Program

Formal application to the program can be made during the freshman, sophomore, or first semester of the junior year. Admission is based on academic standing and evidence of interest in teaching. Applicants must be able to schedule departmental and program requirements with a reasonable degree of flexibility.

Although professors in the Department of Education as well as a student's academic adviser are available for consultation and guidance about a particular program of study, it is the student's responsibility to make certain that all academic requirements are met for a degree, licensure, and graduation. Successful completion of academic requirements depends heavily on student initiative, strategic planning, and record keeping. Appropriate questions and documentation are essential for successful program completion. Permanent records are kept in the Office of Records.

Teaching Area Requirements

The Mississippi Department of Education (MDE) requires that students preparing to teach at the secondary level major in an academic discipline. In addition, students may teach in other areas by obtaining "areas of concentration" as well as middle school licensure. With careful course planning, it is possible to receive licensure in more than one teaching area. These teaching areas require 21 or more credit hours in a particular field of study and/or passage of the Praxis II Area Specialty Exam, depending upon one's major. Many Millsaps students fulfill these areas by matriculation through the college core curriculum and by meeting requirements for Minors. Students may also major in Elementary Education and receive elementary and middle school licensure. In accordance with Title II federal regulations, all students seeking licensure must take and pass the state exams in their subject areas prior to student teaching.

Professional Education Requirements

Program participants must take four behavioral social science courses that have relevance to the teaching and learning process. These courses constitute a Minor in Education. A list of additionally approved courses is available in the Education Office. Traditional teacher licensure requires the student teaching semester. This is usually the equivalent of 16 hours, but can be reduced to 12 hours of credit if a student needs another course to graduate during that semester. The professional

education sequence includes the following:

- Human Development, a Cross-Cultural Perspective (IDS 1610)
- Methods and Management, or embedded in appropriate class in major (EDU 3200)
- Field Research in Reading (EDU 3850)
- Education of the Exceptional Population (EDU 3130)
- Student Teaching semester (EDU 4500)

More courses are required for students seeking Elementary Licensure, for this constitutes a Major.

Preparation for Independent School Teaching

Students who are not enrolled in the Program for Teacher Preparation may enroll in IDS 1610, EDU 3200, EDU 3850, or EDU 3130 as preparation for teaching in independent schools after graduation. The requirements for these courses are the same for these students as for students in the licensure program. Completion of these four courses meet the requirements for a Minor in Education. Students considering this option should meet with a program staff member early in the spring semester of the sophomore or junior year.

The Practice Teaching Option

Program participants who find that they are unable to schedule Student Teaching into a semester of their senior year can take this course after graduation. There is a modest tuition charge for the extra semester, and students are responsible for their own room and board. Students considering this option should discuss their plans with a member of the Education Department, since special arrangements are required.

Student Teaching and Coursework Abroad

Program participants may elect to teach abroad during their student teaching semester, or take other courses towards their majors or areas of concentration abroad. A variety of options are available including programs in Germany, Canada, the Yucatan, South America, and other Department of Defense schools. If a student is interested in this possibility, the student needs to contact the Education Department faculty as early as possible so that arrangements can be made.

Placement

The Teacher Preparation program provides placement services to Millsaps students and alumni seeking teaching positions in elementary and secondary schools, both public and private.

Lilly Service Intern and Lilly Fellow Programs

Students may opt to become Lilly Service Interns or Lilly Fellows. Both options are designed to encourage exploration into the relationship between work, meaning, and service to others. Both Interns and Fellows must take the course The Meaning of Work, cross-listed in Religion and Philosophy. Lilly Service Interns also take one service-learning course — Field Research in Reading, Methods and Management, or Performance Assessment, Literacy, or Reading — or complete one Lilly Internship. The Student Teaching semester can meet this requirement. Lilly Fellows complete The Meaning of Work, an Applied Ethics course, and two semesters of Lilly Internship. Fellows receive \$1000.00 stipend for their Internship work. Both the Service Interns and the Fellows programs, when successfully completed, appear on students' permanent transcript. For more information, visit www.millsaps.edu/faithwrk/ or email faithwork@millsaps.edu.

Courses

IDS 1610 Human Development in Cross-Cultural Perspective (4 sem. hours). Students explore and apply theories surrounding the physical, social, emotional, and cognitive aspects of human development. The course demands an immediate and personal perspective for college students as they construct underlying frameworks for understanding human development.

2100 Deaf Culture/American Sign Language (4 sem. hours). A study of the Deaf community and beginning American Sign Language (ASL) skills. The course introduces students to various sign methods, the linguistic structure of ASL, the experience of deaf people throughout history, and the impact and importance of ASL and Deaf culture.

3100 Literacy (4 sem. hours). A field-based study of developmentally appropriate practices in the acquisition of language and oral and written communication. Integrated instruction, structure, properties, and other components of literacy will be examined.

3110 Performance Assessment in Teaching and Evaluation (4 sem. hours). A study of the concepts and statistical methods used in the assessment of learning, including the construction and use of classroom assessment instruments, standardized tests of intelligence and achievement, and the use of statistics in the assessment of student learning and data analysis for informed decision making. National professional standards provide the framework for program assessment.

3120 Reading Instruction (4 sem. hours). A comprehensive study of the components of the reading process with emphasis on instructional methods appropriate to the cognitive and psychological needs of elementary and middle school students.

3130 Education of the Exceptional Population (4 sem. hours). A study of exceptional individuals with special attention to the instructional needs of the child and adolescent. The course emphasizes the identification and remediation processes, differential diagnosis, IEPs, and etiologies.

3200 Classroom Methods and Management (K-12) (4 sem. hours). A field-based study of effective instructional and behavioral management techniques appropriate for elementary, middle school, and high school students with special attention to student learning styles, teacher instructional styles, student self-discipline, and the relationship between school and society. Mastery of the Mississippi Teacher Assessment Instrument (MTAI) is a component of the course.

3850 Field Research in Reading (4 sem. hours). A model for field-based classroom research and remediation that fosters the development of teacher candidates as scholars, leaders, and researchers. The course involves a criterion reference approach to teaching, utilizing pre-and post-testing procedures with experimental and control groups and the daily monitoring of student progress with continuous feedback and accountability under the direct supervision of college and on-site faculty.

3860 Advanced Internship in Education II

3870 Advanced Internship in Education III

3880 Advanced Internship in Education IV. Advanced Internships II, III, and IV offer students the opportunity to further explore areas of interest within the field of Special Education. Interns experiment with special emphasis on the chosen exceptionalities for supplemental licensure. Disciplinary focus and field site placements are individualized.

4300 Educational Theory, Policy, and Practice (4 sem. hours). The study of educational theory and the philosophies which underlie the development of curricula, instructional programs, and educational policy; Special attention is given to the relationship between educational theory, policy development, and modern educational practice.

4500 Student Teaching (16 sem. hours). Intensive field experience involving student teaching all day for a minimum of 13 weeks at an elementary, middle, or high school in the Metropolitan Tri-County area.

4750 Special Topics (1 - 4 sem. hours). In-depth study of specific aspects of education, including Educational Technology.

Geology

Associate Professors:

Delbert E. Gann, Ph.D.

James B. Harris, Ph.D., Chair

Assistant Professor:

Stanley Galicki, Ph.D.

Requirements for Major: Students may complete a major in geology by following one of three tracks:

A. Classical Geology track: The Physical Earth, Plate Tectonics and Earth History, Physical and Chemical Mineralogy, Sedimentary Geology, Paleontology, Igneous and Metamorphic Petrology, Structural Geology, Solid Earth Geophysics, Field Methods, Field Geology, and one additional geology course (2000-level or above) approved by the department chair. Geology majors following the classical geology track must also take Analytic Geometry and Calculus I, General Chemistry I and II, and General Physics I and II.

B. Environmental Geology track: The Physical Earth, Environmental Issues of the 21st century, Plate Tectonics and Earth History, Physical and Chemical Mineralogy, Sedimentary Geology, Hydrology and Chemistry of Natural Waters, Structural Geology, Environmental and Engineering Geophysics, Field Methods, Field Geology, and one additional geology course (2000-level or above) approved by the department chair. Geology majors following the environmental track must also complete General Chemistry I and II, two courses in biology, and either (a) Analytical Geometry and Calculus I for the Bachelor of Science degree or (b) Survey of Calculus and Elementary Statistics for the Bachelor of Arts degree. General Physics I and II are highly recommended.

C. Geophysics track: The Physical Earth, Plate Tectonics and Earth History, Sedimentary Geology, Structural Geology, Environmental and Engineering Geophysics, Solid Earth Geophysics, Field Methods, and Field Geology. Geology majors following the geophysics track must also take General Physics I and II, three additional physics courses approved by the department chair, Analytic Geometry and Calculus I and II, and one additional math course (2000-level or above).

Requirements for Minor: Students may elect to minor in geology with The Physical Earth, Plate Tectonics and Earth History, Sedimentary Geology, Structural Geology, and one additional geology course (2000-level or above) approved by the department chair.

General Information

No grade lower than a C will be accepted in any geology course to fulfill the major or minor. Field Geology may be taken at Millsaps or another college or university. At least one major field trip per year is required.

Courses

1000 The Physical Earth (4 sem. hours). Study of the Earth, including Earth material properties, surface erosional and depositional processes, and Earth interior processes. Includes lab and one field trip.

1100 Environmental Issues of the 21st century (4 sem. hours). Examination of the facts underlying four major areas of environmental concern: 1) atmospheric pollution and deterioration, 2) water pollution and misuse, 3) population growth and resource availability, and 4) energy resources: availability, alternatives, and possible impacts.

2000 Plate Tectonics and Earth History (4 sem. hours). Study of successive events leading to the present configuration of the continental masses, the evolution and development of life, and the kinds and distribution of rocks and minerals, all viewed using the framework of the Theory of Plate Tectonics. Prerequisite: Geology 1000.

2100 Applied Techniques in Mineralogy (4 sem. hours). Techniques of mineral identification using the optical properties of light and X-rays. An introduction to crystalline order and the crystal systems using crystals, block models, stereograms, the petrographic microscope, X-ray diffractometer, and the scanning electron microscope. Prerequisite: Geology 1000. Offered on demand.

2200 Physical and Chemical Mineralogy (4 sem. hours). Physical properties, origin, occurrence, geochemistry, atomic structures, and uses of minerals. Lab emphasizes the physical identification of minerals in hand samples. Prerequisite: Geology 1000.

2300 Sedimentary Geology (4 sem. hours). Rock sequences, lithologic and paleontologic facies of various parts of the United States, and basic sedimentological principles. Two field trips are required. Prerequisite: Geology 1000 and Geology 2000.

3000 Paleontology (4 sem. hours). Classification and morphology of fossil invertebrates with reference to evolutionary history and environment and an introduction to vertebrate paleontology with an emphasis on the Mesozoic Era, specifically the Dinosauria. Field trips to collect representative fossils are required. Prerequisite: Geology 1000 and Geology 2000 or consent of instructor.

3100 Principles of Ore Deposition (4 sem. hours). The chief economic rocks and minerals of the United States and other countries, with consideration of their stratigraphy, genesis, value, and use. Prerequisite: Geology 1000, Geology 2000, and Geology 2200. Offered on demand.

3200 Petroleum Geology (4 sem. hours). The applications of geology to the petroleum industry; theories on origin, problems in migration, oil traps, subsurface methods, and occurrence of oil and gas. Prerequisite: Geology 1000 and Geology 2000. Offered on demand.

3300 Hydrology and Chemistry of Natural Waters (4 sem. hours). A comprehensive study of the occurrence, distribution, and geochemical processes of natural waters. Topics include: hydrologic cycle, Darcy's Law, groundwater flow in confined and unconfined aquifers, stream flow, the effects of common forms of pollution on the natural system, current environmental regulations, and remediation technologies. Prerequisite: Geology 1000.

3400-3403 Special Problems in Geology (1 - 4 sem. hours). Open to geology majors and some

non-geology majors who have an interest in pursuing individual field or laboratory problems. Prerequisite: consent of instructor.

3500-3503 Directed Study in Geology (1 - 4 sem. hours). Open to geology majors and some non-geology majors who desire pursuing a directed course of study in geology. Prerequisite: consent of instructor.

4000 Igneous and Metamorphic Petrology (4 sem. hours). Introduction to the genesis, global distribution, associations, compositions, and classifications of igneous and metamorphic rocks. Laboratory emphasis is on macroscopic and microscopic identification of igneous and metamorphic rocks. Field trips are possible. Prerequisite: Geology 2200 or consent of instructor.

4100 Geochemistry (4 sem. hours). An introduction to the chemical principles of geological systems: carbonate equilibria, clay colloid chemistry, Eh-Ph diagrams, chemical weathering, organic materials in sediments, and phase diagrams. Prerequisite: Geology 1000, Geology 2000, and General Chemistry I and II. **Offered on demand.**

4200 Structural Geology (4 sem. hours). Origin and classification of the structural features of the rocks comprising the Earth's crust. Lab emphasizes various techniques of structural analysis. Prerequisite: Geology 1000 and Geology 2000.

4300 Environmental and Engineering Geophysics (4 sem. hours). Near-surface geophysical methods (seismic refraction, seismic reflection, electrical/electromagnetic, and borehole) are introduced and applied to environmental and engineering problems. Field work required. Prerequisite: Geology 1000 and Geology 2000.

4350 Solid Earth Geophysics (4 sem. hours). An introduction to the fundamentals of geophysical exploration (controlled-source seismology, earthquake seismology, gravity, magnetics, and heat flow). Specific observations illustrate how each technique constrains certain aspects of the plate tectonic framework that is fundamental to the study of the Earth. Prerequisite: Geology 1000 and Geology 2000.

4402 Field Methods (2 sem. hours). A course designed to introduce field geology and familiarize students with basic field mapping procedures. Prerequisite: Geology 1000 and Geology 2000.

4506 Field Geology (6 sem. hours). Practical training in the standard methods of geologic field work and an introduction to regional geology. Prerequisite: to be determined by the college or university offering the course, but should include Geology 1000, Geology 2000, Geology 2300, Geology 4200, and Geology 4402.

Mathematics

Professor:

Robert A. Shive Jr., Ph.D.

Associate Professors:

Connie M. Campbell, Ph.D., Chair

Mark Lynch, Ph.D.

Assistant Professors:

Miguel Arellano, M.S., Ph.D. Candidate

Gayla Dance, M.S., M.A.

Joseph Palen, Ph.D.

Instructor:

Tracy Sullivan, M.S.

Requirements for Major: Students may complete a major in mathematics with ten mathematics courses which include Analytic Geometry and Calculus II and III, Introduction to Advanced Mathematics, Senior Seminar, Abstract Algebra, Advanced Calculus, and at least 12 additional semester hours of mathematics at or above the 3000 level. A grade of C or higher is required for each of these courses. Majors must also complete Computer Science I and a physics course with a lab or an intermediate level course in French or German. All requirements for the major not taken at Millsaps must be approved in advance by the department chair.

Requirements for Minor: Students may elect a minor in mathematics by completing Analytic Geometry and Calculus II, Analytic Geometry and Calculus III, Introduction to Advanced Mathematics, and at least 8 additional semester hours of mathematics at or above the 3000 level. A grade of C or higher is required in each of these courses. In addition, Computer Science I is required.

Courses

1000 Introduction to Quantitative Reasoning (4 sem. hours). A topics course in mathematics covering a variety of real-life applications. An emphasis is placed upon problem solving and the development of problem solving skills. Topics include algebraic models, logic, geometry, finance, and statistics.

1100 College Algebra (4 sem. hours). Topics include solving polynomial equations and inequalities, functions and their graphs, systems of equations, properties of logarithmic and exponential functions, elementary analytic geometry, and applications of these topics. This course can be used as a single course preparation for Math 1210 or as the first in a two semester preparation for Math 1220. (The second course in this sequence is Trigonometry.) Credit is not allowed for both Mathematics 1100 and Mathematics 1130.

1110 College Trigonometry (4 sem. hours). The basic analytic and geometric properties of the trigonometric functions are studied. A preparatory course for the calculus sequence. Credit is not allowed for both Mathematics 1110 and Mathematics 1130. Prerequisite: Mathematics 1100 or departmental approval.

1130 Precalculus (4 sem. hours). This course covers topics included in College Algebra and Trigonometry. It is a one semester preparatory class for the calculus sequence. Credit is not allowed for both Mathematics 1100 and Mathematics 1130, and credit is not allowed for both Mathematics 1110 and Mathematics 1130.

1150 Elementary Statistics (4 sem. hours). Introduction to descriptive statistics and statistical inference. Topics include the Central Limit Theorem, confidence intervals, chi square test of independence and goodness of fit, analysis of variance, correlation, and regression analysis. Applications to business, education, and other disciplines are emphasized.

1210 Survey of Calculus (4 sem. hours). Topics include limits, the derivative, applications of the derivative with focus on applications in business and the social sciences, antiderivatives, and applications of the definite integral. **Credit is not allowed for both Mathematics 1210 and Mathematics 1220.** Prerequisite: Mathematics 1100 or 1130 or departmental approval.

1220 Analytic Geometry and Calculus I (4 sem. hours). Topics include limits, continuity of functions, the derivative, antiderivatives, integrals, the fundamental theorem, and applications. Course includes a computer based laboratory. **Credit is not allowed for both Mathematics 1210 and Mathematics 1220.** Prerequisite: Mathematics 1100 and 1110, or 1130, or departmental approval.

1750-1753 Selected Topics in Introductory Mathematics (1-4 sem. hours). A narrowly defined introductory study of an area of mathematics which is not covered through regular departmental offerings. While the course content will be decided upon by the instructor, topics could include mathematics in art and architecture, financial mathematics, and cryptology. Prerequisite: Consent of the instructor.

2230 Analytic Geometry and Calculus II (4 sem. hours). Integration techniques; applications of the integral; the properties of exponential, logarithmic, trigonometric, and inverse trigonometric functions; indeterminate forms; improper integrals; and an introduction to infinite series. Prerequisite: Mathematics 1220 or departmental approval.

2240 Analytic Geometry and Calculus III (4 sem. hours). A continuation of Mathematics 2230. Infinite series, partial derivatives, and multiple integrals and their applications. Prerequisite: Mathematics 2230 or departmental approval.

2310 Introduction to Advanced Mathematics (4 sem. hours). Topics include logic and proofs, set theory, relations, functions, and cardinality. Prerequisite: Mathematics 2230 or departmental approval.

3410 College Geometry (4 sem. hours). A study of advanced topics in Euclidean geometry and an introduction to non-Euclidean geometries. Selected topics from finite and projective geometries. Prerequisite: Mathematics 2310. **Offered on demand.**

3540 Differential Equations (4 sem. hours). An introduction to ordinary differential equations, emphasizing equations of first and second order; linear differential equations of higher order and applications to physics, chemistry, and medicine. Prerequisite: Mathematics 2230.

3560 Discrete Structures (4 sem. hours). Topics covered include predicate logic, algorithms, modular arithmetic, counting techniques, recurrence relations, graph theory, and trees. Prerequisite: Mathematics 2230 and 2310 (This course is the same as Computer 3500). **Offered in alternate years.**

3570 Numerical Analysis (4 sem. hours). Solutions of non-linear equations and systems of linear equations, error analysis, numerical integration and differentiation, solution of differential equations, interpolation, and approximation. Prerequisite: Mathematics 2310 and

Computer 1010 or the equivalent. Offered in alternate years.

3620 Number Theory (4 sem. hours). Prime numbers and their distribution, divisibility properties of the integers, Diophantine equations and their applications, theory of congruencies, Fermat's Theorem, and quadratic reciprocity, as well as the historical background in which the subject evolved. Prerequisite: Mathematics 2310. Offered in alternate years.

3650 Linear Algebra (4 sem. hours). Systems of linear equations with emphasis on the Gauss-Jordan technique, determinants geometric vectors with applications to analytic geometry, physics, real finite dimensional vector spaces with applications through linear transformations, eigenvectors, eigenvalues, orthogonal diagonalization, and symmetric matrices. Prerequisite: Mathematics 2230.

3700 - 3703 Undergraduate Research (1 - 4 sem. hours). Research in special areas under the guidance of the instructor. Prerequisite: Consent of the instructor.

3750 - 3753 Selected Topics in Advanced Mathematics (1 - 4 sem. hours). A study of an area of mathematics which is not covered in regular departmental offerings, or an extension of materials covered in regular departmental offerings. Prerequisite: Consent of the instructor.

4510 Mathematical Statistics (4 sem. hours). Topics include sample spaces, discrete and continuous probability distributions, independence and conditional probability, properties of distributions of discrete and random variables, moment-generating functions, sampling distributions, and parameter estimation. Prerequisite: Mathematics 2240 and 2310. Offered in alternate years.

4620 Abstract Algebra (4 sem. hours). A rigorous treatment of groups, rings, ideals, isomorphisms, homomorphisms, integral domains, and fields. Prerequisite: Mathematics 2310.

4630 Advanced Calculus (4 sem. hours). A rigorous treatment of limits, continuity, differentiation, integration, and convergence in n-dimensional Euclidean spaces. Prerequisite: Mathematics 2310 and Mathematics 2240.

4660 Topology (4 sem. hours). Consideration of topological spaces, including metric spaces, product spaces, and quotient spaces; separation axioms; connectedness; compactness; and continuous functions. Prerequisite: Mathematics 2310. Offered on demand.

4800 Graph Theory (4 sem. hours). A theoretical study of trees, connectivity, eulerian graphs, hamiltonian graphs, planarity, colorability, and extremal graph theory. Prerequisite: Mathematics 2310. Offered in alternate years.

4810 Complex Analysis (4 sem. hours). Topics include complex numbers, sets, and functions; limits and continuity; analytic functions; cauchy theorems and integrals; taylor and laurent series; residues; and contour integration. Prerequisite: Mathematics 2310 and Mathematics 2240 or consent of the department chair. Offered in alternate years.

4902-4912 Senior Seminar (2 sem. hours). Reading and research in advanced mathematics; group and individual presentations both oral and written; preparation for comprehensive examination; opportunities to expand understanding of topics of interest to the individual student. Prerequisite: Senior standing or consent of the instructor.

Physics

Associate Professor:

Asif Khandker, Ph.D., Chair

Assistant Professor:

Gina Sorci, Ph.D.

Requirements for Major: Students may complete a major in physics with ten courses, including General Physics I and II, General Physics Laboratory I and II, Modern Physics, Classical Mechanics, Electromagnetism, Thermal Physics, Quantum Mechanics, Advanced Laboratory I and II, Electronics for Scientists, Similarities in Physics, and Senior Seminar. Prospective majors should take General Physics I and II and General Physics Laboratory I and II no later than the sophomore year.

Requirements for Minor: Students may elect a minor in physics with three courses beyond General Physics I and II, and General Physics Laboratory I and II. The courses must be approved by the department chair.

Mathematics Requirements

Students interested in maintaining the option of study in physics or related fields (e.g. pre-engineering) are urged to begin their mathematics course work at Millsaps as early as possible and at the highest level possible. It is required that a minimum of Calculus I, II, and III as well as Differential Equations be taken by all physics or pre-engineering majors.

Courses

1001 General Physics Laboratory I (1 sem. hour). Experiments to accompany General Physics I dealing mainly with mechanics and wave motion. Corequisite: Physics 1003.

1003 General Physics I (3 sem. hours). A broad introduction to general physics for students who have taken an introductory calculus course. Main areas covered are mechanics and waves. Specific topics include vectors, kinematics, Newton's laws of motion, rotation, equilibrium, wave motion, and sound. Prerequisite: Mathematics 1220 or consent of instructor. Corequisite: Physics 1001.

1011 General Physics Laboratory II (1 sem. hour). Experiments to accompany General Physics II dealing mainly with electromagnetism and optics. Corequisite: Physics 1013.

1013 General Physics II (3 sem. hours). The continuation of General Physics I. General topics covered are electricity, magnetism, and optics. Specific topics include electrostatics, current electricity, magnetostatics, time varying fields, and geometrical and physical optics. Prerequisite: Physics 1003. Corequisite: Physics 1011.

1201 College Physics Laboratory I (1 sem. hour). Experiments to accompany College Physics I dealing mainly with mechanics, waves, and heat. Corequisite: Physics 1203.

1203 College Physics I (3 sem. hours). Fundamentals of mechanics, waves, fluids, and selected topics in thermal physics. A non-calculus course intended primarily for majors in the biological and health sciences. Prerequisite: Mathematics 1100. Corequisite: Physics 1201.

1211 College Physics Laboratory II (1 sem. hour). Experiments to accompany College Physics II dealing mainly with current electricity, optics, and modern physics. Corequisite: Physics 1213.

1213 College Physics II (3 sem. hours). The continuation of College Physics I. Fundamentals of electrostatics, current electricity, magnetism, optics, and selected topics in modern physics. Prerequisite: Physics 1203. Corequisite: Physics 1211.

2000 Modern Physics (4 sem. hours). An introduction to the special theory of relativity and its consequences. Black body radiation and the particle aspects of electromagnetic radiation. Fundamentals of quantum physics, introduction to the Schrodinger equation, and simple applications. Prerequisite: Physics 1013.

2010 Applications of Modern Physics (4 sem. hours). Application of elementary quantum mechanical concepts to explain physical phenomena occurring in atoms, nuclei, and solids. Topics include lasers, molecular structure, bonding in solids, band theory, nuclear structure, radioactivity nuclear fusion, and elementary particles. Prerequisite: Physics 2000. Offered in alternate years.

2750-2753 Special Topics or Laboratories in Physics (1 - 4 sem. hours). This course deals with areas not covered in other physics courses or laboratories. It is intended primarily for sophomores and juniors at an intermediate physics level. Prerequisite: Consent of instructor.

3100 Classical Mechanics (4 sem. hours). Dynamics of a single particle, including Newton's laws, momentum, energy, angular momentum, harmonic oscillator, gravitation, and central force motion. The Lagrangian and Hamiltonian formulation will also be emphasized. Prerequisite: Physics 1013. Corequisite: Mathematics 3540. Offered in alternate years.

3110 Electromagnetism (4 sem. hours). Fields, conductors, dielectric media, and Laplace's and Poisson's equations. Direct and alternating currents, magnetic induction and forces, electromagnetic energy, and Maxwell's equations with applications. Prerequisite: Physics 1013. Corequisite: Mathematics 3540. Offered in alternate years.

3120 Thermal Physics (4 sem. hours). An introduction to equilibrium statistical mechanics with implications for thermodynamics and the kinetic theory of gases. Topics include density of states, entropy and probability, partition functions, and classical and quantum distribution functions. Prerequisite: Physics 2000. Offered in alternate years.

3130 Optics (4 sem. hours). Geometrical optics: reflection, refraction, ray tracing, and aberrations. Physical optics: wave theory, absorption, dispersion, diffraction, and polarization. Properties of light from lasers, photodetectors, and optical technology. Includes laboratory. Prerequisite: Physics 1013 or consent of instructor. Offered occasionally.

3140 Quantum Mechanics (4 sem. hours). Postulates of quantum mechanics, operators, eigen functions, and eigenvalues. Function spaces, Hermitian operators, and time development of state functions. Schrodinger's equation in one dimension, harmonic oscillator, rectangular potential barrier, and the WKB approximation. Problems in three dimensions, angular momentum, Hydrogen atom, and theory of radiation. Matrix mechanics and spin. Prerequisite: Physics 2000, Mathematics 3540. Offered in alternate years.

3202 Advanced Physics Laboratory I (2 sem. hours). Experiments of classical and contemporary importance selected from various fields of Physics. Experiments often deal with topics that have not been treated in other courses. Some areas of experimentation

include interferometry, microwaves, X-rays, and nuclear physics. Prerequisite: Physics 2000 or consent of instructor.

3212 Advanced Physics Laboratory II (2 sem. hours). Continuation of Advanced Physics Laboratory I, with the understanding that students will be expected to acquire an appreciation of the significance of the experiments performed through independent study. Prerequisite: Physics 3202.

3300 Electronics for Scientists (4 sem. hours). The emphasis of this course is on analog electronics, including DC and AC circuit analysis, diode circuits, semiconductor devices, amplifier circuits, operational amplifiers, and oscillators. Includes laboratory. Prerequisite: Physics 1013 or consent of instructor. **Offered in alternate years.**

3750-3753 Directed Study (1 - 4 sem. hours). The student may begin to study topics of interest through readings and research. Prerequisite: consent of instructor.

3700-3703 Undergraduate Research (1 - 4 sem. hours). The student may continue to study topics of interest through readings and research. Prerequisite: consent of instructor.

3760-3763 Advanced Special Topics or Laboratories in Physics (1 - 4 sem. hours). Deals with areas not covered in other physics courses or laboratories. Aimed primarily at juniors and seniors at the intermediate or advanced level. Prerequisite: consent of instructor.

3850-3853 Internship (1 - 4 sem. hours). Practical experience and training with selected research, educational, governmental, and business institutions. Prerequisite: consent of instructor.

4902 Similarities in Physics (2 sem. hours). Analysis of the similarities that occur in many diverse fields of physics by oral and written presentations. Also includes presenting information processed from physical literature. Prerequisite: consent of instructor.

4912 Senior Seminar (2 sem. hours). A continuation of the theme in Similarities in Physics. Emphasis is placed on a unified approach to problem solving. Prerequisite: consent of instructor.

Political Science

Professor:

Richard Smith, Ph.D.

Associate Professor:

Iren Omo-Bare, Ph.D., Chair

Assistant Professors:

Christopher Bratcher, Ph.D.

John A. Grummel, Ph.D.

Requirements for Major: Students may complete a major in political science with a minimum of nine courses from departmental offerings or courses of study approved by the department. These courses must include the following: Introduction to American Government, Comparative Government, International Relations, Research Methods in Political Science, Senior Seminar, and any other four courses.

Requirements for Minor: Students may elect a minor in political science with five courses, including Introduction to American Government, Comparative Government or International Relations, and any three other courses in the department.

General Information

No grade lower than a C will be accepted in any course to fulfill a major or minor in Political Science.

Internship, Directed Readings, and Fieldwork courses may be used to fulfill no more than two of the four departmental electives (no more than one from each category).

Political Science majors who choose to concentrate on foreign area studies may use courses taken in approved study abroad programs to fulfill up to a maximum of three of the required nine courses.

One Core 6 (Social and Behavioral Science) IDS course may be counted toward the major or the minor in political science with permission of the chair of the department. In general, Introduction to American Government is a prerequisite for all other courses in American politics, namely PS 2010, 2100, 2120, 2130, 2150, 3140, 3190, 3200, and 3250. Comparative Government is a prerequisite for all other courses in comparative politics and international relations, namely PS 2400, 3300, 3310, 3350, 3400, 3410, 4300, 4400, and 4500. Exceptions by permission of instructor.

Courses

2000 Introduction to American Government (4 sem. hours). A systems analysis of the American political environment and decision making agencies, including study of federalism, state and local government, political parties, Congress, the Presidency, and the judiciary.

300 Comparative Government (4 sem. hours). General comparative theory applied to developed and developing nations.

2010 American Public Policy (4 sem. hours). Analysis of civil liberties; civil rights; and fiscal, regulatory, social, defense, and foreign policies.

2050 Women and the Law (4 sem. hours). This course examines the development of the legal rights of women in American jurisprudence. Analyzing current issues affecting women, such as marriage, family, reproductive rights, employment, and sexual harassment, the course focuses on federal policy in the second half of the twentieth century.

2100 The U. S. Congress (4 sem. hours). This course examines the roles and functions of Congress in American governance. Recruitment is analyzed, as are formal and informal structures and processes, interbranch relations, and legislative reform. **Offered in alternate years.**

2120 The U.S. Presidency (4 sem. hours). This course analyzes the institutional nature, roles, and functions of the American presidency. Questions of selection, the nature of leadership and executive power, formal and informal duties of office, evolution of the presidency, and performance evaluation are also explored. **Offered in alternate years.**

2130 The U.S. Judiciary (4 sem. hours). The nature and functioning of the judicial branch of American government is examined. From jurisprudence to the roles of courts, this course

analyzes judicial recruitment and selection, decision-making, court organization, and management in courts from the U.S. Supreme Court to the municipal magistrate. Offered occasionally.

2150 Urban/Metropolitan Politics (4 sem. hours). The nature of urban, suburban, and metropolitan governance is examined. Questions of urban policy, the future of cities, and quality of urban/metropolitan management are explored. Policy questions such as community and economic development, housing, and growth management and planning are analyzed. Offered occasionally.

2200 Economic Policy Issues (4 sem. hours). The course investigates various aspects of the public policy regarding economic issues. Both macro and micro policy issues may be considered. Prerequisites: Economics 2000 and sophomore standing. (This course is the same as Economics 2200).

2400 International Relations (4 sem. hours). Consideration of issues, strategies, and theories of international politics including the concepts of national interest, national defense, imperialism, balance of power, economics, and international cooperation and law.

2500 Political Theory (4 sem. hours). An inquiry into the basic principles of social and political organization, with special emphasis on concepts of government, justice, punishment, family property, work, and peace. (This course is the same as Philosophy 2010). Offered in alternate years.

2550 Research Methods in Political Science (4 sem. hours). Examination of the fundamental issues involved in conceiving and executing a research project in the social sciences. Several research methodologies are covered: interviews, surveys, archival research, and case studies. Also includes introduction to statistical analysis of data.

3140 Constitutional Law (4 sem. hours). An analysis, including historical background and philosophical evolution, of Supreme Court interpretations of Constitutional provisions relating to the structure of the federal government and relationships between the different branches and with the states. Prerequisite: Political Science 1000 and junior standing.

3150 Civil Liberties (4 sem. hours). This course examines individual constitutional rights of expression, religion, "fundamental rights" (such as privacy and travel), and equal protection as developed by the U.S. Supreme Court. Constitutional rights of the accused in the U.S. judicial system as developed through Supreme Court cases are studied as well as the role of the Supreme Court in American government.

3200 Political Parties and Interest Groups (4 sem. hours). Examination of history and current structure and functions of American political parties and interest groups in American politics. Offered occasionally.

3210 Mass Media and Political Communication (4 sem. hours). This course examines the legal environment, history, and content of the press in America. The course covers several aspects of media law including patterns of media ownership and antitrust policy, prior restraint, libel, privacy, and hate speech. Media coverage of various topics such as U.S. elections, crime, foreign affairs, crises, and state and local issues are analyzed.

3220 Public Opinion and Voting Behavior (4 sem. hours). Examines approaches to the study of and the content of American public opinion on politics and selected issues and examination

of American voters - why they vote (or do not vote) the way they do. Offered occasionally.

250 Public Administration (4 sem. hours). Theory and application of planning, organizing, staffing, directing, coordinating, reporting, and budgeting in public agencies. Offered occasionally.

300 Western European Government and Politics (4 sem. hours). Examination of politics and government in Western Europe by means of country studies and comparisons. Sections of the course will be devoted to the general topic of European integration and related concepts such as regionalism, functionalism, and integration theory. Offered in alternate years.

310 African Government and Politics (4 sem. hours). Examination of politics and government in Africa by means of country studies and comparisons. Sections of the course will be devoted to the examination of issues of development and underdevelopment. Offered in alternate years.

350 The Politics of Race and Ethnicity: A Comparative Perspective (4 sem. hours).

Examination of issues of race and ethnicity in selected countries. Sections of the course are devoted to the comparative study of the causes and consequences of ethnic and racial strife as well as the examination of race and ethnic-specific policies in selected countries. Offered occasionally.

400 U.S. Foreign Policy (4 sem. hours). Diplomatic, military, and economic aspects of foreign policy considered within the context of current issues. Offered in alternate years.

410 International Organizations/Model United Nations (2 - 4 sem. hours). Examination of recent trends in the globalization and regionalization of political, social, and economic issues. A substantial part of the course will focus on the United Nations system. Through research and role-play (including participation in Model UN situations), the course will examine several different areas of the UN's work.

700-02 Directed Readings in Political Science (2 - 4 sem. hours). Directed readings in political science. (No more than one directed reading course may be included in the list of courses for the major.)

800-02 Political Science Internship (1, 2, and 4 sem. hours).

300 Developing Nations (4 sem. hours). Comparative theory applied to developing nations. Prerequisite: Political Science 1300. Offered in alternate years.

400 Peace, Conflict Resolution, and International Security (4 sem. hours). This course will focus on issues of peace and international security. The course will seek to stimulate a wider awareness and appreciation of the search for peaceful resolution to strife in all its forms. Offered in alternate years.

500 Political Sociology (4 sem. hours). This course will employ the political-economy perspective to examine the various political ideologies and the diverse economic systems in the contemporary world. The course will also include an overview of theories of development and underdevelopment and a discussion of social change within both specific societies and the world system. Offered occasionally.

4600-02 Special Topics in Political Science (1, 2, and 4 sem. hours). Areas of interest not covered in regular courses; unusual opportunities to study subjects of special interest.

4900 Senior Seminar (4 sem. hours). Survey of historical development of the discipline, examination of contemporary issues in major sub-fields of the discipline, and examination of some examples of current uses of political science knowledge.

Psychology

Associate Professor:

Stephen T. Black, Ph.D., Chair

Assistant Professors:

Kurt Thaw, Ph.D.

Melissa K. Kelly, Ph.D.

Requirements for Major: Students may complete a major in psychology with nine courses, including Introduction to Psychology, Experimental Psychology I and II, Cognitive Psychology, History and Systems, and four electives. One elective must be taken from each of three areas: Clinical/Applied, Physiological/Learning, and Cognitive/Developmental. The fourth elective may be selected from any area.

Clinical/Applied

- Abnormal Psychology
- Love and Sexuality
- The Sinister Side of the 20th Century: A Social Processes Analysis of War, Terrorism, and Genocide
- Clinical Psychology: Theory and Method
- Social Psychology
- Industrial/Organizational
- Forensic Psychology
- Psychological Tests and Measurements

Physiological/Learning

- Behavioral Neuroscience
- Learning
- Drugs and Behavior
- Animal Behavior
- Perception

Cognitive/Developmental

- Developmental Psychology
- Adulthood and Aging
- Psychology of Language
- Decision Making
- Psychology of Women
- Theories of Personality
- Developmental Disabilities

Requirements for Minor: Students may elect a minor in psychology with five courses in the department including Introduction to Psychology but excluding Undergraduate Research, Directed Reading, and Internships.

Courses

1000 Introduction to Psychology (4 sem. hours). Behavior and mental processes, with an emphasis on methods, principles, and theories. Content selected from the following areas: learning/memory, emotion/motivation, psychopathology/psychotherapy, cognition/perception, development/personality, social psychology, and the biological basis of behavior.

1100/IDS 1640 Love and Sexuality (4 sem. hours). An examination of the biological, psychological, and social components of Human Sexuality. The course will explore the issues of love, intimacy, normal and abnormal sexual function, marriage, and alternative sexual lifestyles.

1200/IDS 1620 The Sinister Side of the 20th Century: A Social Processes Analysis of War, Terrorism, and Genocide (4 sem. hours). The violent events of the 20th Century are presented not as insane aberrations in the record of human behavior but as the result of understandable psychological and social processes. Through the study of these events, we explore the analytical methods and theoretical orientations of three Social Science disciplines: Anthropology, Psychology, and Sociology.

2100-2110 Experimental Psychology I and II (4 sem. hours each). A two semester sequence examining the empirical base of psychology, including introduction to philosophy of science; research design, analysis, and interpretation; and statistics, both descriptive and inferential. Development of skills in technical writing, reviewing professional literature, and use of computer software will also be included. Required laboratory. Prerequisite: Psychology 1000.

3020 Psychology of Women (4 sem. hours). A survey of the empirical evidence on gender differences and issues specific to women. Gender differences are examined from biological, developmental, social, and cognitive perspectives. Issues specific to women, such as discrimination and stereotyping, are also examined. Prerequisite: Psychology 1000. Offered in alternate years.

3030 Forensic Psychology (4 sem. hours). Examines the application of psychological theory, method, and research to issues in the legal system. Topics covered include eyewitness testimony, jury selection, determination of dangerousness, assessment of competence, and treatment of offender populations. Prerequisite: Psychology 1000. Recommended: Psychology 3170. Offered in alternate years.

3040 Industrial/Organizational Psychology (4 sem. hours). Examines the applications of psychological theory, method, and research to issues in business, industry, and organizational settings. Topics addressed include: Performance Appraisal, Personnel Selection and Management, Work Motivation, Organizational Communication, Leadership, Group Dynamics, and Ergonomics. Prerequisite: Psychology 1000. Recommended: Psychology 3170. Offered in alternate years.

3050 Decision Making (4 sem. hours). This course emphasizes the psychological processes utilized in making decisions. Topics covered include judgment, estimation, prediction and diagnosis, choice under certainty, heuristics and biases, risky decision making, and problem solving, as well as methods that have been developed to improve these processes. Prerequisite: Psychology 1000. Offered in alternate years.

3060 Psychology of Language (4 sem. hours). Examines the perception, comprehension, and

production of language. Topics covered include psychological and linguistic aspects of phonology, syntax, and semantics; the biological bases of language; reading; bilingualism; language acquisition; and disorders. Prerequisite: Psychology 1000. Recommended: Psychology 3100. Offered in alternate years.

3070 Adulthood and Aging (4 sem. hours). This course describes the physical, sensory, cognitive, personality, and social changes that occur in normal aging. Examines the dominant theories of developmental psychology from young adulthood through old age. Prerequisite: Psychology 1000. Offered in alternate years.

3080 Animal Behavior (4 sem. hours). Examines the significance and patterns of specific animal behaviors. The wide variety of animal activities that result in successful mating, foraging of food, and defense against predators/enemies will be examined. Special attention will be paid to the modern and evolutionary importance of the behaviors covered. Prerequisite: Psychology 1000. Offered in alternate years.

3090 Drugs and Behavior (4 sem. hours). Study of the behavioral effects of the most common legal and illegal drugs. The various actions of each drug on the central nervous system are emphasized with a concentration on how these actions lead to behavioral changes. Prerequisite: Psychology 1000. Recommended: Psychology 3180. Offered in alternate years

3100 Cognitive Psychology (4 sem. hours). Cognitive processes underlying memory, problem-solving, and consciousness. Systematic exploration of processes, mechanisms, and putative structures involved in encoding, storage, retrieval, and use of information. Prerequisite: Psychology 1000.

3110 Perception (4 sem. hours). Mechanisms underlying immediate experience produced by stimuli, and the organization of these sensations into meaningful, interpretable experience. Prerequisite: Psychology 1000. Offered in alternate years.

3120 Learning (4 sem. hours). Adaptive behavior, with an emphasis on processes, principles, and theories related to behavioral change. Areas of reflexive adjustment, respondent conditioning, and operant conditioning, as well as their interactions will be examined. Laboratory component. Prerequisite: Psychology 1000.

3130 Abnormal Psychology (4 sem. hours). Presents a psychological understanding and view of abnormal behavior. The presently prevailing system for the clinical classification of abnormal behavior is highlighted. Prerequisite: Psychology 1000.

3140 Theories of Personality (4 sem. hours). Consideration of the whole spectrum of personality theories, including Freudian, humanistic, existential, and behaviorist models. Prerequisite: Psychology 1000.

3150 Developmental Psychology (4 sem. hours). Examines the general sequence of psychological development in the individual through adolescence and the dominant theories of developmental psychology. Special attention is devoted to the domains of physical, cognitive, linguistic, and social development. Prerequisite: Psychology 1000.

3160 Clinical Psychology: Theory and Method (4 sem. hours). Addresses the history, theory, and methods of clinical psychology. Major psychotherapeutic theories are considered. Prerequisites: Psychology 2100 and Psychology 3130. Offered in alternate years.

170 Social Psychology (4 sem. hours). Integrates current psychological theory - regarding communication, group dynamics, aggression, and human relations - with its application in real-world settings. Laboratory component. This course is the same as SOAN 3710. Prerequisite: Psychology 1000.

180 Behavioral Neuroscience (4 sem. hours). Neurophysiologic and neuroanatomic correlates and substrates of behavior, emotion, and cognition. Prerequisite: Psychology 1000. Offered in alternate years.

190 Psychological Tests and Measurements (4 sem. hours). Examines the history, methods, problems, and social concerns associated with measuring and assessing human behavior and abilities. Common tests of ability and psychopathology are considered. The laboratory includes administration and scoring of the WAIS. Prerequisite: Psychology 2110. Offered in alternate years.

700-4703 Undergraduate Research (1-4 sem. hours). Direct involvement of student in empirical research.

750 Special Topics (4 sem. hours). Specialty courses over a wide variety of topics in Psychology.

800 Directed Reading (1-4 sem. hours). Independent pursuit of content area selected by student.

850-4853 Internship (1-4 sem. hours). Practical experience/training in professional settings.

900 History and Systems (4 sem. hours). The capstone course for senior majors, requiring written position papers and class discussion related to enduring themes in the history of psychology and contemporary controversies and issues within the discipline. Prerequisite: Psychology 2110 and approval of department chair.

Sociology – Anthropology

Associate Professors:

George J. Bey III, Ph.D., Associate Dean

Sing Tsui, Ph.D., Chair

Assistant Professors:

Michael L. Galaty, Ph.D.

Julian M. Murchison, M.A., Ph.D. Candidate

Requirements for Major: Students may complete a major in sociology-anthropology with a concentration in either anthropology or sociology. A minimum grade point average of 2.00 in all required and elective courses is required for graduation. Ten courses are required for the major with either concentration, including the following:

Anthropology concentration: Introduction to Cultural Anthropology; Introduction to Archaeology and World Prehistory; Methods and Statistics; Non-Western Societies or Archaeology of Selected Culture Areas; Social and Cultural Theory; Directed Research, Undergraduate Research Seminar, Internship, Honors, or Departmental Field Schools/International Programs; Senior Seminar in Anthropology; and three electives from the departmental offerings.

B. Sociology concentration: Self and Society or Introduction to Sociology; Methods and Statistics; Class, Gender, Race: Social Stratification; Social and Cultural Theory; Directed Research, Undergraduate Research Seminar, Internship, Honors, or Departmental Internations Programs; Senior Seminar in Sociology; and four electives from the departmental offerings.

Students may complete both concentrations with thirteen courses which must include: Introduction to Cultural Anthropology; Introduction to Archaeology and World Prehistory; Self and Society or Introduction to Sociology; Methods and Statistics; Non-Western Societies or Archaeology of Selected Culture Areas; Class, Gender, Race: Social Stratification; Social and Cultural Theory; Directed Research, Undergraduate Research Seminar, Internship, or Honors; both sections of Senior Seminar; and three electives from the departmental offerings.

Requirements for Minor: Students may complete a minor either in anthropology or in sociology by taking four courses, two of which must be taken at Millsaps, including:

A. Anthropology: Introduction to Cultural Anthropology or Introduction to Archaeology and World Prehistory; one of the following 2000 level courses: 2100, 2130, 2400, or 2410; 2500; one of the following 3000 level courses: 3110, 3120, or 3310; and one elective from the Anthropology concentration.

B. Sociology: Self and Society or Introduction to Sociology; one of the following 2000 level courses: 2010, 2100, 2130, 2200, or 2500; one of the following 3000 level courses: 3220, 3300, 3310, 3500, or 3710; and one elective from the Sociology concentration.

Requirement for Transfer Students: Transfer students may complete a major in sociology-anthropology by taking the required courses in sociology-anthropology at Millsaps. However, the discretion of the department chair, Introduction to Sociology, Introduction to Anthropology and Introduction to Archaeology taken at another institution of higher learning can substitute one of the introductory courses at Millsaps.

Courses

1000 Introduction to Sociology (4 sem. hours). An introductory survey of social structure and human interaction. The course offers an overview of all major sociological concepts, theories, and research methods; explores issues such as socialization, inequality, social order and social change; and examines the roles the family, religion, mass media, and education play in our lives.

1100 Introduction to Anthropology (4 sem. hours). An introduction to the basic concepts and approaches of the study of cultural and social patterns of human societies around the world.

1110 Introduction to Archaeology and World Prehistory (4 sem. hours). An introductory archaeological survey of the world's prehistoric cultures, including those in both the Old and New World.

1710 Human Evolution (4 sem. hours). The various lines of evidence about human ancestry will be examined, including population genetics, paleontology, DNA and protein sequencing, "Mitochondrial Eve," chromosome structure, behavior, and linguistics. Current literature will be reviewed. This course includes a laboratory (This course is the same as Biol 1710).

2010 Human Services (4 sem. hours). An introduction to the purpose, techniques, and organization of human services practice from a social systems perspective. The roles of social

workers in a variety of contexts: family practice, community organizations, and public and private human service organizations.

2100 Methods and Statistics (4 sem. hours). A critical introduction to issues in research design. Types of data analysis and collection covered include field work, interviewing, coding qualitative data, survey design/execution/analysis, and statistical analysis of numeric/coded data. Attention is also given to what inferences can legitimately be made from data.

2130 Marriage and Family (4 sem. hours). The anthropological and sociological study of human families from a cross-cultural perspective. Examines the origin of the human family and the nature of family life in a number of non-western societies and in the United States. Offered in alternate years.

2200 Sociology of Human Interaction (4 sem. hours). An examination of human behavior from a social interactionist perspective. The course focuses on an examination of how social norms, institutions, race, class, and gender structure social interaction. Prerequisite: Sophomore standing or permission of instructor.

2210 Archaeological Method and Theory (4 sem. hours). An introduction to the practice of archaeology. Provides a basic understanding of the ways in which archaeologists study and seek to understand past human behaviors.

2250 Gender in American Culture (4 sem. hours). An examination of gender in various aspects of American culture through a cultural studies approach. Topics include family, media, health, beauty, sex, and popular culture. This course is the same as Women's Studies 2000.

2400 Women and Men in Prehistory (4 sem. hours). An examination of cultural evolution from the appearance of homo sapiens until the rise of the first urban civilizations with an emphasis on exploring the contributions made both by women and men to the process of human development as well as on the nature of gender in the prehistoric past.

2410 Human Ecology (4 sem. hours). The anthropology of human ecosystems examines the relationship between culture and environment. The course includes research and theory on how pre-industrial societies adapt to their environments and on the ecological problems created by industrial society. Prerequisite: SOAN 1000, 1100, or 1110 or permission of instructor. Offered occasionally.

2500 Sociolinguistics (4 sem. hours). A comprehensive study of language, society, and the social context of linguistic diversity. It brings together the perspectives of linguistics, anthropology, and sociology to examine multilingualism, social dialects, conversational interaction, language attitudes, and language change. Prerequisite: SOAN 1000 or 1100 or 1110 or permission of instructor.

3006 Summer in China (6 sem. hours). This course offers a brief yet comprehensive survey of Chinese culture and society through readings and site visits. The class is a four-week course (one week in Jackson and three weeks in China) summer program which introduces students to both traditional and contemporary Chinese culture and society.

3110 Archaeology of Selected Culture Areas (4 sem. hours). Explores the archaeological record of a selected prehistoric culture area. Emphasis is on reconstructing ancient lifeways and understanding the processes which create the archaeological record.

3120 Non-Western Societies (4 sem. hours). The course examines both the culture of selected non-western societies and the range of methodological and theoretical approaches used to understand them.

3200 Religion, Society, and Culture (4 sem. hours). An anthropological and sociological investigation through primary texts and field experiences of the relationships among religious institutions and society and culture.

3210 Urban Life (4 sem. hours). A critical anthropological and sociological examination of the theoretical and empirical literature on the social structure and culture of urban life: the development of cities, the life processes within cities, the relations between cities and other social and cultural factors, making cities more livable. Offered occasionally.

3220 Class, Gender, Race: Social Stratification (4 sem. hours). A sociological examination of the theoretical and empirical literature on the impact of social class, gender, and race on the life course and life chances of people in selected societies. Prerequisite: SOAN 1000 or 1100 or 1110 or permission of instructor.

3300 Health and Illness (4 sem. hours). A sociological investigation of the social and cultural factors and those formal and informal organizations shaping health and illness. Prerequisite: SOAN 1000, or 1100, or 1110 or permission of instructor. Offered occasionally.

3310 Deviance: A Comparative Approach (4 sem. hours). A critical anthropological and sociological examination of the social construction of norms, of rule-breaking acts and actors, and of responses to rule-breaking, from a cross-cultural, comparative perspective. Prerequisite: SOAN 1000, or 1100, or 1110 or permission of instructor. Offered occasionally.

3400 Native North America (4 sem. hours). This course examines the archaeology and history of the North American Indians, with a special focus on contemporary issues. Various chronological periods and culture areas are explored through the analysis of artifacts, historical documents, and Native American myth, literature, and poetry.

3410 Archaeological Field School (4 sem. hours). This course instructs students in the archaeological field methods. Taught at locations off campus. Generally 3-5 weeks. Students participate in the scientific investigation of an archaeological site through application of various survey and excavation techniques.

3600 Sociology of Education (4 sem. hours). This course examines multiple facets of the institution of education. It explores how this institution in its various manifestations is shaped through social, economic, and political forces, and looks at various debates, issues, and trends that affect education at all levels.

3710 Social Psychology (4 sem. hours). Integrates current social and psychological theory regarding communication, group dynamics, aggression, and human relations, with its application to real-world settings. Laboratory component. This course is the same as Psych 3170. Prerequisite: SOAN 1000 or 1100 or 1110 or permission of instructor.

3800-3802 Directed Readings in Anthropology (2 or 4 sem. hours).

3810-3812 Directed Readings in Sociology (2 or 4 sem. hours).

4200 Social and Cultural Theory (4 sem. hours). Critical, comparative, and synthetic examinations of historical and contemporary sociological theory, including functionalism, conflict theory, phenomenology, and symbolic interactionism. Prerequisite: Junior standing.

4700 Directed Research (4 sem. hours). Research project proposed and conducted independently by a junior or senior, with report due at end of semester.

4710 Independent Study (4 sem. hours). Inquiry by a junior or senior capable of independent work with a minimum of supervision, with report due at end of semester.

4730 Geographic Information Systems and Archaeology (4 sem. hours). A seminar associated with CGMA, a collaboratory for GIS (Geographic Information Systems) and Mediterranean archaeology. This course introduces students to the application of GIS to archaeological problems and questions. The class is taught on a rotating basis at one of four ACM/ACS institutions, and instruction is done remotely over the web. Permission of the instructor is required.

4750 Special Topics in Anthropology (4 sem. hours). Areas not normally covered in other courses.

4760 Special Topics in Sociology (4 sem. hours). Areas not normally covered in other courses.

4770 Undergraduate Research Seminar (4 sem. hours). A seminar in sociological and anthropological research for majors, in which students learn advance research methods and develop and complete a research project in sociology, anthropology, or archaeology. Prerequisite: Methods and Statistics; junior or senior standing only.

4850-4852 Internship (2 or 4 sem. hours). Practical experience and field-based training for majors working with selected organizations engaged in social research, human services, or community services.

4900 Senior Seminar (4 sem. hours). A seminar in sociological or anthropological practice and theory in which students read key texts and reflect on their course of study as well as their concentration.

Interdisciplinary Programs

American Studies

American Studies is an interdisciplinary program focused upon the multi-faceted culture and civilization of the United States. The program integrates the study of fields such as history, literature, politics, art, philosophy, and religion in an effort to create a better understanding of the nation we call united.

The concentration in American Studies is like a minor; however, unlike a minor that is contained in one specific discipline, the American Studies concentration is interdisciplinary. If you complete a concentration in American Studies, your transcript will reflect this upon graduation.

Requirements for Area of Concentration: A student may elect an area of concentration in American Studies (along with his or her major) by completing the following requirements with minimum grade of C:

American Studies 2000: Introduction to American Studies (4 sem. hours). This course is an interdisciplinary introduction to the field of American Studies. In it, we explore several things: the questions raised by critical study of American experiences; the intellectual debates surrounding interpretations of American literature, arts, religions, philosophies, cultures, and history; and especially the paradoxes inherent to American identity, whether we are defining "the" American individual or the nation as a whole.

Electives: (16 sem. hours). In addition to the Introduction to American Studies, students must take the equivalent of four courses of approved American Studies classes with multidisciplinary breadth. (This means that at least one of these four electives must come from a different academic department than the others. All four courses cannot come from the same department.)

Questions about American Studies? If you have any questions about the American Studies concentration, please contact Dr. Anne MacMaster in the English department or Dr. Robert McElvaine in the History department.

For more information: See Millsaps American Studies web site at <http://www.millsaps.edu/ids/amstudies/>.

Christian Education

The area of concentration in Christian Education helps prepare students to plan, organize, lead, and teach in religious education programs. For further information, see the chair of the Religious Studies Department or the college chaplain.

Requirements for Area of Concentration:

- RS 2000: Introduction to Religious Studies;
- RS 2210: Hebrew Scriptures or RS 2220: New Testament and Early Christianity;
- RS 3110: History of Christian Thought or RS 3120: Modern and Contemporary Theology;
- RS 4850-4852: Religious Studies Internship
- IDS 1600: The Human Experience: A Cross-Cultural Perspective;
- Education 3200/3210: Classroom Methods and Management;
- Psychology 3130: Abnormal Psychology or Education 3130: Education for the Exceptional Population;
- Psychology 3170: Social Psychology or Sociology 1010: Social Problems.

Environmental Studies

The area of concentration in Environmental Studies is an interdisciplinary program that may be pursued by students majoring in any discipline. The required course work provides students the opportunity to consider the relationship between people and the environment from social, cultural, economic, political, ethical, and scientific perspectives.

Requirements for Area of Concentration: Seven courses are required: (1) Geology 1100: Environmental Issues; (2) one of the field courses listed below or an internship course or research course approved by the director of the concentration; (3) two of the Humanities and Social Sciences courses listed below; (4) two of the Natural Sciences courses listed below; (5) ENVS 4911: Environmental Studies Seminar

Field Courses:

- Sociology-Anthropology 3410: Field Archaeology
- Geology 3400: Special Problems in Geology: Yellowstone Field Study
- Geology 3508: Directed Study in Geology: Living in the Yucatan
- Geology 4506: Field Geology
- Biology 3210: Field Biology

Humanities and Social Sciences:

- IDS 2500: Globalization and Technology
- Philosophy 3750: Special Topics: Environmental Ethics
- Religious Studies 3150: Religion, Science and Nature
- Religious Studies 3750: Special Topics: Religion and the Environment
- History 3610: Environment, Technology, and Power
- History 4760: Modern Environmental History
- Political Science 1000: American Government
- Political Science 2010: American Public Policy
- Economics 2000: Principles of Economics
- Sociology-Anthropology 1100: Introduction to Anthropology
- Sociology-Anthropology 1110: Introduction to Archaeology
- Sociology-Anthropology 2410: Human Ecology
- Sociology-Anthropology 4730: Geographic Systems and Archaeology

Natural Science:

- Geology 1000: The Physical Earth
- Geology 2000: Plate Tectonics and Earth History
- Geology 3300: Hydrology and Chemistry of Natural Waters
- Chemistry 1213: General Inorganic Chemistry I and 1211 and the Lab
- Chemistry 1223: General Inorganic Chemistry II and 1221 and the Lab
- Chemistry 3730/Geology 4100: Geochemistry
- Biology 1010: General Botany
- Biology 2200: Ecology
- Biology 3200: Aquatic Biology

4911 Environmental Studies Seminar (1 sem. hour). An interdisciplinary colloquium in which students share the results of the environmental research, internship, or field course work they have undertaken as a requirement of the Environmental Studies concentration. Ordinarily taken in the senior year. Prerequisite or corequisite: field course, research course, or internship course approved by the director of the concentration. Taken by permission of the instructor.

European Studies

The program in European Studies is designed for those students who are keenly interested in European affairs. The major or minor in European Studies cuts across traditional departmental and divisional boundaries and allows the student to work with faculty to design a program of study which integrates those aspects of European affairs which best meet the student's interests. European art, business, history, languages, literatures, music, philosophy, and political science are among the areas of study available to students in European Studies.

Requirements for Major: Students complete a major in European Studies with a total of 40 semester hours, including the following four components;

1. **The Introductory Course (4 sem. hours).** History 2210: European Civilization Since 1789.
2. **The Language Component.** Students are required to study one European language. In addition to satisfying the B.A. requirement in that language, the ES major must complete at least 12 semester hours beyond the B.A. requirement in that language.
3. **The Multidisciplinary Component (20 sem. hours).** Students will take 20 semester hours, beyond those described above, from a list of elective courses provided by the director of the European Studies Program. No more than 12 semester hours may be in the same department. No more than four semester hours may be from the core. No more than eight semester hours of language courses, beyond those that are required for the European Studies major, may be counted as elective courses toward the major.
4. **The Colloquium and Comprehensive Exams (4 sem. hours).** Students will take written and oral examinations administered by the European Studies Committee.

Requirements for Minor: Students may complete a minor in European Studies with a total of 20 semester hours, including the following three components. First, students are required to study one European language. In addition to satisfying the B.A. requirement in that language, the ES minor must complete at least eight semester hours beyond the B.A. requirement in that language. Second, minors must complete the introductory course for European Studies (History 2210; 4 sem. hours). Third, minors must take eight semester hours, beyond those described above, from a list of elective courses provided by the director of the European Studies Program. Those two elective courses may not be in the same department, and none of them may be from the core.

4000 European Studies Colloquium (4 sem. hours). An interdisciplinary research forum in which students pursue an individual, directed reading and writing project within their areas of concentration. This project will lead to the completion, during the spring semester of the student's senior year, of an interdisciplinary senior thesis.

Some form of financial aid may be available for certain European Studies programs. Students interested in financial aid for any of these programs should contact the Student Aid Financial Planning staff for more information.

Human Services

Human Services is an interdisciplinary program designed to provide students with academic experiences relevant to a number of postgraduate employment and graduate study opportunities such as social work, clinical and counseling psychology, family therapy, child protective services, guidance and school counseling, and community activism. Students planning a career in human and helping services will find the concentration invaluable.

Requirements for Area of Concentration:

The interdisciplinary Human Services Concentration consists of six courses. All students are

required to complete HMSV-1600: Introduction to Human Services. The Introduction to Human Services course provides an integrated interdisciplinary structure for connecting the various courses students can take to satisfy the concentration.

Additionally, students must complete one semester (4 sem. hours) of internship and four of the following courses from at least two disciplines.

Internship: Approved and supervised by the concentration director

Business:

ACCT 2000 - Principles of Financial Accounting
ACCT 2010 - Managerial Accounting, Budgeting, and Systems Control
ECON 2000 - Principles of Economics
ECON 2200 - Economic Policy Issues
MGMT 3000 - Introduction to Management

Education:

IDS 1610 - Human Experience
EDUC 2100 - American Sign Language: Deaf Culture
EDUC 3130 - Educational for the Exceptional
EDUC 3200/3210 - Classroom Methods and Management

Political Science:

POL SCI 2050 - Women and the Law
POL SCI 2150 - Urban/Metropolitan Politics
POL SCI 3250 - Public Administration
POL SCI 3350 - Politics of Race and Ethnicity
POL SCI 4500 - Political Sociology

Psychology:

PSYCH 3020 - Psychology of Women
PSYCH 3130 - Abnormal Psychology
PSYCH 3160 - Clinical Psychology: Theory and Method
PSYCH 3170 - Social Psychology
PSYCH 3190 - Psychological Tests and Measurements
PSYCH 4750 - Developmental Disabilities

Sociology/Anthropology:

SOAN 1010 - Social Problems
SOAN 2200 - Sociology of Human Interaction
SOAN 2250 - Gender in American Culture
SOAN 3220 - Religion, Society, and Culture
SOAN 3310 - Deviance: A Comparative Approach
SOAN 3500 - Sociology of Law

International Studies

The Concentration in International Studies is designed to reward students who want to learn about contemporary global affairs in an interdisciplinary fashion.

The Concentration in International Studies will require the following courses:

Required Introductory Course (Choose one four-hour course.)

- IDS 2500 (Core 5): Globalization and Technology (Storey)
- POL SCI 2400: International Relations (Omo-Bare)

Required Study Abroad: Students must participate in one study abroad program that is approved by the college. In consultation with faculty advisers, students may choose a program that takes place during a summer, a semester, or a year.

The program must provide at least four hours of approved credit. Those credits may be used to fulfill the distribution requirements for the concentration. In case of programs that are interdisciplinary in nature, the Director of International Studies will determine, in consultation with the student, which distribution requirements are fulfilled by that program.

Programs are available in almost every country and discipline. The Millsaps Study Abroad Office will assist students in identifying and selecting programs. Some of the best options are listed below, under distribution requirements.

Financial aid is now available for study abroad. Students may apply for loans to support study abroad. The Study Abroad Office will work with students who are interested in applying for loans. Outside scholarships may also be available to students.

Distribution Requirements: Students must choose courses worth **24 hours**, in at least **three departments**, in at least **two divisions**.

Courses are to be approved by the Director of International Studies in consultation with the members of the faculty who are offering the courses in question.

Approved courses will focus substantially on foreign, international, or cross-cultural issues that have developed since the beginning of the twentieth century. By “substantial” focus on this time period, we mean that at least half of the course will address the period since 1900. For example, the survey of modern European history begins in 1789, but typically students in the course spend half of their time studying the history since 1900. That course, and others like it, will count toward the concentration, in addition to courses that focus exclusively on the twentieth century.

Eight hours of credit may be double-counted from the student’s major department, provided that the courses being double-counted have a substantial focus on contemporary and international issues.

“Special topics” courses not listed in the catalog may also be counted, provided that they also have a substantial focus on contemporary and international issues.

Courses in the Arts and Letters

- Art 2560: Modern Art (Europe and U.S.)
- Art 2590: Topics in World Art
- English 3180: Studies in 20th-Century Literature
- French 3210: Survey of French Literature after the Revolution
- French 3230: French Civilization after the Revolution
- French 3750: French Film
- German 3210: Survey of German Literature from the Time of Goethe
- German 3220: German Civilization
- German 3770: German Literature of the Early Twentieth Century

- German 3780: German Literature since 1945
- History 2210: Modern Europe
- History 2310: African History
- History 2400: History of the Middle East
- History 3310: South African History
- Religious Studies 2110: Judaism, Christianity, and Islam
- Religious Studies 2120: South Asian Religions
- Religious Studies 2130: East Asian Religions
- Spanish 3200: Survey of Peninsular Literature
- Spanish 3210: Survey of Spanish-American Literature
- Spanish 3220: Spanish Civilization
- Spanish 3230: Spanish-American Civilization
- Spanish 3770: Modernism-Postmodernism
- Spanish 3790: The Generation of 1898
- Suitable “Special Topics” courses may also be used to fulfill the requirements.
- Courses taught through the Millsaps programs in Costa Rica, France, Yucatan, and Europe
- Courses taught in the Millsaps direct exchange programs with the University of Ulster and Queens University (Belfast, Northern Ireland) and with Kansai Gaidai University (Osaka, Japan)
- Courses taught in other approved study abroad programs

Courses in the Sciences

- Geology 1100: Environmental Issues of the 20th Century
- Political Science 1300: Comparative Government
- Political Science 3300: Western European Government and Politics
- Political Science 3310: African Government and Politics
- Political Science 3350: The Politics of Race and Ethnicity
- Political Science 3400: U.S. Foreign Policy
- Political Science 3410: International Organizations
- Political Science 4300: Developing Nations (Prerequisite: Political Science 3300)
- Political Science 4400: Peace, Conflict Resolution, and International Security
- Psychology 1700: Sinister Side of the 20th Century
- Psychology 4750: Special Topics
- Sociology-Anthropology 1100: Introduction to Anthropology
- Sociology-Anthropology 3120: Non-Western Societies (Prerequisite: Sociology-Anthropology 1000, 1100, or 1110)
- Suitable “Special Topics” courses may also be used to fulfill the requirements.
- Courses taught in the Millsaps programs in the Yucatan and in Europe
- Courses taught in the Millsaps direct exchange programs with the University of Ulster and Queens University (Belfast, Northern Ireland) and with Kansai Gaidai University (Osaka, Japan)
- Courses taught in other approved study abroad programs

Courses in Business

- Management 4010: International Business (Prerequisite: junior level B.B.A. course)
- Economics 3040: International Economics (Prerequisite: Junior standing, algebra, and Economics 2000, and Calculus is recommended.)
- Economics 3110: History of Economic Thought (Prerequisite: Economics 2000)
- Suitable “Special Topics” courses may also be used to fulfill the requirements.
- Courses taught in the Millsaps program in Europe
- Courses taught in the Millsaps direct exchange programs with the University of Ulster and Queens University (Belfast, Northern Ireland) and with Kansai Gaidai University (Osaka, Japan)
- Credits earned through participation in other approved study abroad programs

Self-Designed Majors

The Self-Designed Major (SDM) is a customized major designed by a student working closely with appropriate faculty. The curricular, instructional, and administrative framework for the pursuit of a SDM is not, by contrast with that of standard majors, already in place. It must be constructed by a special effort. Although members of the faculty and administration of the College stand ready to help the student at many points along the way, the initiative for this special effort lies with the student. Consequently, a higher degree of self-motivation may be demanded of a person desiring a SDM than those traveling the more established routes to graduation.

The following requirements apply to all SDMs:

1. To qualify for consideration, the student must have at least a 3.0 GPA and must file a SDM petition and application in the Spring semester of the sophomore year.
2. The proposed SDM will normally include at least 12 courses from two or three departments. To insure analytical rigor and depth in the SDM, the student must complete the courses equivalent to a minor and one additional upper-division course (3000 or higher) within at least one of the core disciplines. No credit will be awarded toward a minor in a discipline included as part of a SDM. One appropriate IDS core course may count toward the major.
3. The proposed SDM must focus on a coherent theme or issue and demonstrate an integration of the contributing disciplines.
4. Every student declaring a SDM must also meet all Core and Degree requirements of the College in order to graduate, including the Core 10 requirement. Students will normally satisfy the Core 10 requirement by successfully completing the senior seminar in one of the disciplines. In the exceptional cases where the faculty committee and the student agree that the academic goals of the SDM are not met by a senior seminar, an upper-division seminar designated by the Committee or a senior thesis with an appropriate Core 10 component may satisfy the Core 10 requirement.

The following procedures must be followed for all SDM applications:

1. The student is responsible for investigating the feasibility of the proposed SDM with appropriate faculty and consulting with the Coordinator of SDMs about requirements and procedures.
2. The student must ask one faculty member from each participating department to support the SDM application. These members will form an advisory committee that serves as the “department” for that particular SDM until all the requirements are completed. One member of the committee will serve as the adviser of record and the Coordinator of SDMs will serve as Chair for all SDMs.
3. The student will develop a petition, supported by the members of the advisory committee, explaining the rationale for this SDM; why the academic goals could not be met by existing majors or concentrations; and how this SDM advances particular career goals.
4. This petition will be part of the formal application which should include the names of the faculty committee; a list and schedule of proposed courses, field research, directed studies, and internships; and a plan for meeting the Senior Comprehensive examination requirements. Under normal circumstances, the faculty committee will develop and administer these exams. Finally, the applicant should also indicate how the Core 10 requirement will be met. Normally, this

would be satisfied by completing the senior seminar in one of the disciplines. If a senior thesis or designated upper-division seminar will be used to meet the Core 10 requirement, the applicant must demonstrate in the application why this option best serves the academic goals of the SDM.

5. The petition and completed application, approved and endorsed by the faculty committee members and the Coordinator of SDMs, will be submitted to the College Curriculum Committee for final review and approval. In order for the SDM to be officially approved, it must have the signature of each faculty committee member, the Coordinator of SDMs, the Chair of the Curriculum Committee, and the Dean of the College.

6. The Coordinator of SDMs will track the progress of each major and work with the Registrar of the College to certify the completion of each SDM.

Women's Studies

Women's Studies is an interdisciplinary program designed to promote the study of gender, of women's experiences, and of various feminist theories across the college curriculum.

Requirements for Area of Concentration: A student may elect an area of concentration in Women's Studies by completing the following requirements: Introduction to Women's Studies, Senior Project, and three approved Women's Studies courses with multidisciplinary breadth. A minimum grade of C is required.

2000 Introduction to Women's Studies (4 sem. hours). This course is an interdisciplinary introduction to the field of Women's Studies; to the questions raised by the study of women's experiences; to the intellectual debates surrounding the issue of gender; and to the role of Women's Studies in the various liberal arts disciplines (This course is the same as SOAN 2250).

4000 Senior Project (4 sem. hours). This project consists either of an independent study with an instructor in the student's major or a teaching practicum in the Introduction to Women's Studies course. See coordinator of Women's Studies for information about this course.

Interdisciplinary Core

1000 Introduction to Liberal Studies (4 sem. hours). This course is designed to introduce students to the academic community, to provide opportunities for intellectual growth through critical thinking and writing on subjects of general interest, and to initiate a process of self-reflection that will continue to graduation. It is a writing-intensive course that takes the place of English Composition.

1050 Introduction to Liberal Studies (4 sem. hours) (Transfers Only). Liberal Studies 1050 is a seminar designed for students who are entering Millsaps College as transfers from other institutions. Students are assisted in developing their writing and critical thinking skills and introduced to the terrain of a liberal arts curriculum.

1118-1128 Heritage of the West in World Perspective (8 - 8 sem. hours). Beginning with the ancient period and continuing to the present, this program brings together history, literature, philosophy, religion, and the arts in an integrated approach to the study of Western culture within a global context. It is the equivalent of eight semester hours each semester extending throughout the year. This course meets the requirements of Core 2-5 and the fine arts requirement.

1200 Topics of the Ancient World (4 sem. hours). Courses with different topics address developments in the period from 1000 B.C.E. to 300 C.E. from a variety of perspectives, including history, literature, philosophy, religion, and the fine arts. This course meets the requirements of Core 2.

1300 Topics of the Premodern World (4 sem. hours). Courses with different topics address developments from 300 to 1600 from a variety of perspectives, including history, literature, philosophy, religion, and the fine arts. This course meets the requirements of Core 3.

1600 Topics in the Social and Behavioral Sciences (4 sem. hours). Courses with different topics address issues relating to society and the individual by applying the methods of psychology, sociology, politics, and economics. This course meets the requirements of Core 6.

1700 Topics in the Natural Sciences with Lab (4 sem. hours). Courses with different topics address issues relating to the natural world by applying the methods of biology, chemistry, geology, and physics. This course includes a laboratory and meets the requirements of Core 7 and 9.

1710 Superscience (astronomy, chemistry, physics) (4 sem. hours). Superscience! Exploring Your World Through Science is an integrated 2-semester course sequence which encompasses physics, chemistry, astronomy, geology, and biology and emphasizes general principles and their application to real-world situations. It is designed to give non-science majors an understanding of basic concepts necessary to attain a fundamental level of literacy in the natural sciences and an appreciation of how science allows us to understand and shape the world. Prerequisite: Freshman standing.

1720 Superscience (biology, geology) (4 sem. hours). Superscience! Exploring Your World Through Science is an integrated 2-semester course sequence which encompasses physics, chemistry, astronomy, geology, and biology and emphasizes general principles and their application to real-world situations. It is designed to give non-science majors an understanding of basic concepts necessary to attain a fundamental level of literacy in the natural sciences and an appreciation of how science allows us to understand and shape the world. Prerequisite: Sophomore standing.

1800 Topics in Mathematics (4 sem. hours). This course is interdisciplinary in nature and is designed to show the place of mathematics within the liberal arts (This course is the same as Mathematics 1000). It meets the requirements of Core 8 for students pursuing the B.A. degree.

1900 Topics in Science, Mathematics, and Computer Science (4 sem. hours). Courses with different topics address issues relating to science, mathematics, and computer science. This course does not include a laboratory and therefore does not meet the Core 7 requirement, but it does fulfill the Core 9 requirement.

2400 Topics of the Modern World (4 sem. hours). Courses with different topics address developments from the 1600s to the 1900s from a variety of perspectives, including history, literature, philosophy, religion, and the arts. This course meets the requirements of Core 4.

2500 Topics of the Contemporary World (4 sem. hours). Courses with different topics address developments in the twentieth century from a variety of perspectives, including history, literature, philosophy, religion, and fine arts. This course meets the requirements of Core 5.

4000 Reflections on Liberal Studies (4 sem. hours). This course is designed to provide students with an opportunity to draw together the various strands of their education, to make connections among disciplines, and to reflect upon the meaning of a liberal arts. Required for students in the Honors Program, this course meets the requirements of Core 10. Prerequisite: Senior status and completion of all other core requirements, including the writing portfolio requirement.

Writing Program

1000 Writing and Thinking (1 sem. hour). This course is designed to provide additional writing experience to students who have already taken Introduction to Liberal Studies. (It may also be used by transfer students to meet Core 1.) Prerequisite: Liberal Studies 1000 and recommendation of instructor.

2001 Introduction to Teaching Writing (1 sem. hour). This course is designed to prepare prospective peer tutors to work in the Writing Center. It will introduce them to the writing process on a theoretical as well as practical level, and to theoretical and practical components of Writing Center work. Specific topics will include the role of the peer tutor, the rhetorical situation, types of academic writing, cultural perspectives, and approaches to talking about writing at various stages of the writing process. Faculty recommendation required.

3001 Advanced Teaching Writing (1 sem. hour). This course examines the theoretical and practical components of Writing Center work, paying particular attention to their reflective nature, that is, to the ways in which theories of collaborative learning challenge and extend Writing Center practice and the ways in which Writing Center practice interrogates and shapes Writing Center theory. The course will also further introduce students to aspects of Writing Center administration, particularly the task of marketing the Writing Center on the Millsaps campus. Specific topics will include recent critiques of collaborative learning, approaches to consultation, consultant roles, the role of grammar instruction in the Writing Center, consulting strategies for ESL students, and the use of computers in the Writing Center. Prerequisite: Writing Program 2001.

Other Interdisciplinary Courses

1000 Introduction to American Culture I-IV (4-16 sem. hours). This course is specially designed for international students to help them practice and refine their communication skills through the study of American history, literature, and language. Enrollment by permission of the instructor.

HMSV 1600 Introduction to Human Services (4 sem. hours). This course explores the contributions of Psychology, Anthropology, Political Science, and Education to the planning, delivery, and content of Human Services such as: education, mental health, medicine, welfare, child care, and social services.

2000 Topics in Southern Studies (4 sem. hours). A course for the general student to be offered by the Eudora Welty Professor of Southern Studies. It may be cross-listed with one or more departments and may be repeated for credit with different topics.

Tammy Y. Arthur, Ph.D.

Instructor:

Sanford D. Warren, M.B.A., C.P.A., C.Q.A.

Visiting Instructor:

Roane R. Grantham, M.B.A.

The Else School of Management offers undergraduate degree programs which lead to the B.B.A. degree with majors in accounting or in business administration and a program which leads to B.A. or B.S. degrees with a major in economics. The Else School also offers two graduate degrees: Renaissance Master of Business Administration (R.M.B.A.) and Master of Accountancy (M.Acc.). The R.M.B.A. degree may be completed in one year beyond the bachelor's degree for students who have completed the B.B.A. program at Millsaps or at any other AACSB International accredited institution, as well as for non-business students who complete the Major Plus program. The Master of Accountancy degree generally requires one additional year of study beyond the B.B.A. for students who have majored in accounting and wish to complete the educational requirements to take the C.P.A. examination. For details of the R.M.B.A., Major Plus, and M.Acc., see other sections of this catalog and other college publications. The business programs offered by the Else School of Management at Millsaps College are accredited by the AACSB International - The Association to Advance Collegiate Schools of Business.

Bachelor of Business Administration (B.B.A.)

Educational Goals: The curriculum of the Bachelor of Business Administration degree (B.B.A.) is

designed to provide an educational base for a lifetime of learning to enable each student to realize his or her potential. To accomplish this mission, educational goals have been identified to develop in each student: 1) a management outlook toward organizations and the ability to work with others to accomplish common goals; 2) the ability to organize information for analysis and decision making; 3) an understanding of the standards of professional behavior which are consistent with ethical precepts; 4) an awareness of the attributes necessary to attain positions of leadership; 5) an understanding of innovation and the importance of agents of change in society; 6) a global perspective; and 7) an understanding of the changing societal, political, legal, and cultural environments that organizations face.

Degree Requirements: To earn the B.B.A. degree, students major in either accounting or business administration. The B.B.A. academic program is a three-year, integrated body of study ordinarily beginning in the fall of the sophomore year. Courses are sequenced so that each course is taught with the assumption that students in a class have a common academic background. To ensure educational diversity, at least fifty percent of courses (usually 64 or more semester hours) must be non-business courses. Up to nine semester hours of economics courses may be considered as nonbusiness courses.

Foundation Prerequisites: Students pursuing the B.B.A. degree must complete Survey of Calculus (Math 1210) or Analytical Geometry and Calculus I (Math 1220), or higher level mathematics, preferably during their **freshman year**. The mathematics requirement must be satisfied before commencing junior-level courses. Elementary Statistics (Math 1150) should be completed prior to the fall semester of the junior year. Sophomore-level B.B.A. core courses will be completed before commencing junior-level B.B.A. courses.

Curriculum: Eight core courses totaling 32 semester hours are required of all B.B.A. students in addition to the courses required for the particular major (business administration or accounting). The business administration major includes the B.B.A. core courses plus Business Strategy and 12 semester hours (typically three courses) of Else School electives totaling 48 semester hours. Students planning to complete degree requirements and leave the College at the end of a fall semester must take Management 4000: Business Strategy in the spring of the preceding academic year. The accounting major includes the B.B.A. core courses and 32 additional semester hours (eight courses) totaling 64 semester hours. Courses should be taken in the sequence prescribed. The B.B.A. core courses are:

Sophomore Year

Fall Term:

Principles of Economics (4 sem. hours)

Principles of Financial Accounting (4 sem. hours)

Spring Term:

Managerial Accounting, Budgeting, and Systems Control (4 sem. hours)

Junior Year

Fall Term:

Introduction to Management (4 sem. hours)

Principles of Corporate Finance (4 sem. hours)

Spring Term:

Operations Management (4 sem. hours)

Fundamentals of Marketing (4 sem. hours)

Senior Year

Fall Term:

The Legal Environment of Business (4 sem. hours)

Requirements for the Business Administration Major: A minimum of 48 (12 courses) semester hours are required to earn the B.B.A. degree in business administration. In addition to the B.B.A. core, students pursuing a major in business administration must complete Business Strategy, to be taken in the senior year, and three Else School elective courses.

Requirements for the Accounting Major: Students pursuing the B.B.A. with a major in accounting must complete a minimum of 64 semester hours, including the B.B.A. core, Intermediate Accounting I and II, Cost Accounting, Federal Taxation of Income, Advanced Financial Accounting, Auditing, Business Law, and Senior Seminar in Accounting.

Requirements for Minor in Business Administration: A student may elect a minor in business administration by completing Principles of Economics, Principles of Financial Accounting, Managerial Accounting, Budgeting and Systems Control, Introduction to Management, and any other one of the following Else School courses: Principles of Corporate Finance, Fundamentals of Marketing, or Operations Management (20 semester hours). Minors in accounting are not offered.

Transfer Credit: Students may transfer from other schools and pursue the B.B.A. at the Else School, but at least fifty percent of the B.B.A. course work must be taken at Millsaps. For the business administration major, this means at least 24 semester hours of B.B.A. coursework must be completed at Millsaps. For the accounting major, 32 semester hours of B.B.A. course work must be completed at Millsaps. Transfer students may receive credit for Principles of Accounting and Principles of Economics if they passed six semester hours of Principles of Accounting and six semester hours in Principles of Economics with a grade of C or better at their previous institution. They must, however, take the four junior-level B.B.A. core courses at Millsaps.

Credit for junior and senior-level courses taken at other four-year colleges will be evaluated on an individual basis by the Else School. For business administration majors, Business Strategy (Mgmt 4000) must be taken at Millsaps; for accounting majors, at least 12 semester hours in accounting (three courses) required in the major must be taken at Millsaps. Ordinarily, course work taken more than six years prior to admission or readmission to the Else School and academic work in which the student receives a grade below C must be repeated. The Academic Affairs Committee of the Else School will evaluate extenuating circumstances for exceptions to these standards.

Millsaps students who wish to take B.B.A. courses at the 3000 level or above at an institution other than Millsaps must do so at an AACSB International accredited institution and have prior approval from the Dean of the Else School of Management. All students are required to complete at least fifty percent of their B.B.A. courses at Millsaps.

Master of Accountancy Program (M.Acc.)

The Else School offers the Master of Accountancy degree which is designed for students who intend to pursue professional careers in public accounting, business, and the government/non-profit sector. The M.Acc. degree fulfills the educational requirements to sit for the CPA examination in states which have adopted the AICPA's 150 credit hour requirement. In general, the M.Acc. program involves a fifth year of study beyond the accounting major. Students who plan to seek the M.Acc. degree should pursue the basic accounting major as outlined above. For more

details about the M.Acc. program, see any member of the accounting faculty and other college publications.

Student's Guide to Earning a B.B.A.

The following is a four-year curriculum typical of Millsaps students majoring in business administration. Though this is representative of a B.B.A. student's four-year course of study, there are opportunities for individual variations including second majors and minors depending upon the student's particular interests. By the end of their sophomore year, B.B.A. students will complete Core 1 through 9 as well as the mathematics courses, which are the foundations for the B.B.A. curriculum. It should be noted that a B.B.A. student may choose to take more than the minimum of 48 semester hours of Else School courses but at least fifty percent of total semester hours credit must be non-business courses.

Suggested Curriculum for B.B.A. in Business Administration

Freshman Year - Topics Course Option

Fall Term:

- Core 1 (LS 1000)
- Core 2 (Ancient World)
- Math (Algebra or Precal - Core 8)
- Fine Arts elective or general elective

Total Sem. Hrs. - 16

Spring Term:

- Core 3 (Premodern World)
- Core 7 (Natural Science)
- Math (Survey or Cal. I - Core 9)
- Fine Arts elective or general

Elective Sem. Hrs. - 16

Freshman Year - Heritage Option

Fall Term:

- Core 1 (LS 1000)
- Heritage (8 sem. hrs.)
- Math (Algebra or Precal - Core 8)

Total Sem. Hrs. - 16

Spring Term:

- Math (Survey or Cal. I - Core 9)
- Heritage (8 sem. hrs.)
- Math 1150 (Elementary Statistics), Core 7, 8, or 9 or Elective

Total Sem. Hrs. - 16

Sophomore Year - Topics Course Option

Fall Term:

- Core 4 (Modern World)
- Principles of Economics (Core 6)
- Principals of Financial Accounting
- Elective or Core 7

Total Sem. Hrs. - 16

Spring Term:

- Core 5 (Contemporary World)
- Elementary Statistics (Math 1150)
- Managerial Accounting, Budgeting, and Systems Control
- Elective
- Elective or Core 7

Total Sem. Hrs. - 16

Sophomore Year - Heritage Option**Fall Term:**

- Core 7 or Elective
- Principles of Economics
- Principles of Financial Accounting
- Elective

Total Sem. Hrs. - 16

Spring Term:

- Core 7 or elective
- Elementary Statistics (Math 1150)
- Managerial Accounting, Budgeting, and Systems Control
- Elective
- Elective or Core 7

Total Sem. Hrs. - 16

Junior Year**Fall Term:**

- Introduction to Management
- Principles of Corporate Finance
- General elective or Else Elective
- General elective or Else Elective

Total Sem. Hrs. - 16

Spring Term:

- Fundamentals of Marketing
- Operations Management
- General or Else School elective
- General or Else School elective

Total Sem. Hrs. - 16

Senior Year**Fall Term:**

- Legal Environment of Business
- General or Else School elective
- General or Else School elective
- General or Else School elective

Total Sem. Hrs. - 16

Spring Term:

- Business Strategy (Core 10)
- General or Else School elective
- General or Else School elective

General or Else School elective

Total Sem. Hrs. - 16

Suggested Curriculum for B.B.A. in Accounting

Since the freshman and sophomore year courses are common to both business administration and accounting major B.B.A. students, the following table illustrates a typical curriculum for the junior and senior years for B.B.A. accounting majors. The fifth year of study leading to the Master of Accountancy degree (M.Acc.), which provides the additional course work necessary to qualify to sit for the CPA exam, is described in other college publications.

Junior Year

Fall Term:

- Introduction to Management
- Principles of Corporate Finance
- Intermediate Accounting I
- General elective

Total Sem Hrs. - 16

Spring Term:

- Fundamentals of Marketing
- Operations Management
- Intermediate Accounting II
- Federal Taxation of Income

Total Sem. Hrs. - 16

Senior Year

Fall Term:

- Auditing I
- Cost Accounting I
- Legal Environment of Business
- Advanced Financial Accounting

Total Sem. Hrs. - 16

Spring Term:

- General elective
- General elective
- Senior Seminar (Core 10)
- Business Law

Total Sem. Hrs. - 16

Accounting majors have the option of participating in a eight semester hour, full-time residency program during the spring semester of the senior year.

The Accounting Residency program allows selected undergraduate students to work full time for a Big 4, regional, or local accounting firm in the spring of their senior year. In the fall, accounting firms interview Millsaps accounting seniors for Spring Residency positions. Selected students work full time, receiving full pay in positions that foster professional growth and maturity.

Financial Services Concentration

Description of Concentration: The Financial Services Concentration allows students to demonstrate to potential employers or graduate schools particular competence in finance within the broader context of the student's degree program.

Curriculum: Students seeking the financial services concentration are required to successfully complete four courses as prerequisites to the advanced courses: Principles of Financial Accounting I (Acct 2000); Managerial Accounting, Budgeting, and Systems Control (Acct 2010); Principles of Economics (Econ 2000); and Principles of Corporate Finance (Finc 3000). These four courses comprise 16 semester hours.

Following the completion of the four prerequisite courses, students are required to complete the following four advanced courses: Advanced Corporate Finance (Finc 4000), Seminar in Portfolio Management (Finc 4900) (including Louis Wilson Fund), Money and Financial Systems (Econ 3020), and Intermediate Financial Accounting I (Acct 3000). These courses total 16 semester hours.

In the unlikely event that one of the four advanced courses is unavailable or when students suffer an unavoidable scheduling conflict, other courses may serve as substitutes. These courses include Special Topics (International Finance) (Finc 4750), Independent Study (Finc 4800), Intermediate Financial Accounting II (Acct 3010), Intermediate Macroeconomics (Econ 3000), and Intermediate Microeconomics (Econ 3010). Substitutions to the recommended curriculum are made only with the permission of the Director of the Undergraduate Program. For B.B.A. students, these courses may satisfy both B.B.A. degree and financial services concentration requirements simultaneously.

Calendar and Scheduling Sequence: The required courses are currently offered on a regular basis. The following sequence of courses is recommended:

- Fall of Sophomore year - Accounting 2000 and Economics 2000
- Spring of Sophomore year - Accounting 2010
- Fall of Junior year - Finance 3000
- Fall of Junior or Senior year - Accounting 3000
- Spring of Junior or Senior year - Economics 3020
- Fall of Senior year - Finance 4000
- Spring of Senior year - Finance 4900

Economics Major

Requirements for B.A. or B.S. degree with Major in Economics: In addition to other stated degree requirements for the B.A. or B.S. degrees, the student majoring in economics will complete twenty semester hours in the core economics courses: Principles of Economics (Econ 2000), Intermediate Macroeconomics (Econ 3000), Intermediate Microeconomics (Econ 3010), Econometrics (Econ 3030), Senior Thesis I (Econ 4901), Senior Thesis II (Econ 4911), and the Senior Seminar in Economics (Econ 4902). In addition, the student must pursue one of three specialized tracks: Business Economics, Quantitative Economics, or Policy Economics. Additional economics courses and other courses required of the economics major depend upon the track chosen. All three tracks require an additional 28 semester hours in order to satisfy their minimum requirements for a total of 48 semester hours.

Requirements for the Business Economics Track: The student choosing this track will take the economics core courses, Introduction to Finance (Fin 3000), one other business economics elective course, and one other economics elective course at the 3000 level or higher. In addition to these economics courses, students pursuing this track will also take either Survey of Calculus (Math 1210) or Calculus I (Math 1220), Elementary Statistics (Math 1150), Principles of Financial Accounting (Acct 2000), any other Else School course of 3000 or higher level.

Requirements for the Quantitative Economics Track: The student choosing this track will take

the economics core courses, Quantitative Economics (Econ 3060), and two other economics electives at the 3000 level or higher. In addition to these economics courses, students pursuing this track will also take Calculus I (Math 1220), Calculus II (Math 2230), Elementary Statistics (Math 1150), and Linear Algebra (Math 3650).

Requirements for the Policy Economics Track: The student choosing this track will take the economics core courses, any two policy economics elective courses, and one other economics elective course at the 3000 level or higher. In addition to these economics courses, students pursuing this track will also take either Survey of Calculus (Math 1210) or Calculus I (Math 1220), Elementary Statistics (Math 1150), and any two courses from: Economic Policy Analysis (Econ 2200), Legal Environment of Business (Admin 4000), Introduction to Government (Pol Sci 1000), American Public Policy (Pol Sci 3400), The Great Depression (Hist 3170), U.S. History (Hist 2100), or History of the United States since 1877 (Hist 2110).

Business Economics Electives: Money and Financial Systems (Econ 3020), Introduction to Finance (Finance 3000), and Industrial Organization (Econ 3070)

General Economics Electives: Quantitative Economics (Econ 3060) and History of Economic Thought (Econ 3110)

Policy Economics Electives: Labor Economics (Econ 3120), Health Economics (Econ 3050), International Economics (Econ 3040), and Money and Financial Systems (Econ 3020)

Requirements for a Minor in Economics: A student may elect a minor in economics with Principles of Economics (Econ 2000), Intermediate Microeconomics (Econ 3010) or Intermediate Macroeconomics (Econ 3000), and any other two economics courses at or above the 3000 level. The economics minor requires a minimum of sixteen semester hours. Students pursuing the B.B.A. degree and seeking the economics minor may not apply the two courses beyond Principles of Economics (Econ 2000) to satisfy B.B.A. elective requirements.

Accounting

2000 Principles of Financial Accounting (4 sem. hours). The basic concepts, systems, and terminology of accounting data in modern accounting leading to the interpretation for decision making by external users. The course emphasizes understanding of general purpose financial statements. Prerequisite: Sophomore standing.

2010 Managerial Accounting, Budgeting, and Systems Control (4 sem. hours). This course is a survey of principles of managerial accounting and controllership issues, including cost behavior, cost-volume-profit analysis, absorption and variable costing methods, budgeting, performance analysis, and internal control systems. Prerequisite: Accounting 2000.

3000 Intermediate Financial Accounting I (4 sem. hours). A focus on the conceptual framework of financial reporting which emphasizes the accounting model, the rationale underlying generally accepted accounting principles, and the external disclosure consequences of corporate decisions. Prerequisite: Accounting 2000 and 2010. This course is offered during the fall semester.

3010 Intermediate Financial Accounting II (4 sem. hours). A continuation of Intermediate Financial Accounting with a focus on issues relating to the financial reporting by public corporations, stockholders equity, long-term liabilities, cash flow, and income reporting. Prerequisite: Accounting 3000. This course is offered during the spring semester.

3020 Cost Accounting I (4 sem. hours). Basic managerial accounting concepts and terminology including development of information to be used by management in planning and controlling activities, understanding cost behavior and cost accumulation systems for manufacturing firms, and the application of textbook concepts to actual organizations. Prerequisite: Accounting 2000 and Accounting 2010. **This course is offered during the fall semester.**

4000 Federal Taxation of Income (4 sem. hours). This course prepares students to examine the sources of tax law relating to individual taxpayers and to gain orientation and practical experience in preparing tax forms and meeting filing requirements. Prerequisite: Accounting 2000 and Accounting 2010. **This course is offered during the spring semester.**

4010 Auditing I (4 sem. hours). This course includes the environment of the auditing sector in business and the role of auditing in society. Topics include the legal and ethical responsibilities of accountants; professional auditing standards; the acquisition, evaluation, and documentation of audit evidence; and reports on the results of the auditing engagement. Prerequisite: Accounting 3010. **This course is offered during the fall semester.**

4020 Advanced Financial Accounting (4 sem. hours). Financial accounting and reporting for selected noncorporate entities, such as partnerships and governmental units, and for multicorporate or consolidated business enterprises. Selected accounting topics concerning multinational enterprises will be introduced. Prerequisite: Accounting 3010. **This course is offered during the fall semester.**

4030 Accounting Information Systems (4 sem. hours). Exposes students to analysis, design, and evaluation of accounting systems with emphasis on transaction processing and the related internal controls for the major accounting cycles. Also included is development of systems, flowcharting skills, and exposure to advanced computerized accounting systems. Prerequisite: Accounting 3010.

4040 Advanced Taxation (4 sem. hours). A study of the taxation of corporations, partnerships, estates, and trusts. Prerequisite: Accounting 4000.

4050 Senior Seminar: Contemporary Issues and Global Accounting (4 sem. hours). A seminar course exploring the current accounting environment and the major issues facing the accounting profession. The course also addresses the role accounting plays in the global economy. Includes group projects and oral presentations by students. Prerequisite: Completing of junior-level accounting courses and enrollment in Accounting 4000 and Accounting 4010. **This course is offered during the spring semester.**

4060 Governmental /Non-Profit Accounting (4 sem. hours). Principles and applications appropriate to Governmental and other nonprofit institutions. Emphasis is on budgeting and fund accounting. Prerequisite: Accounting 3010.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Business Administration

4000 The Legal Environment of Business (4 sem. hours). An introduction to legal systems and the business related provisions of the U. S. Constitution; to the common law of torts and business organizations; to administrative law and procedures; to regulatory programs involving labor, antitrust, and securities; and to the impact of foreign and domestic laws on international business. Prerequisite or corequisite: Junior-level B.B.A. core courses. This course is offered during the fall semester.

4020 Business Law (4 sem. hours). Emphasis on common law contracts and Uniform Commercial Code sections dealing with sales, commercial paper, and secured transactions. Prerequisite: Business Administration 4000. (Available to non-accounting majors with permission of instructor.) This course is offered during the spring semester.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Finance

3000 Principles of Corporate Finance (4 sem. hours). This course introduces corporate finance concepts. Emphasis is placed on financial decision-making within the corporation in such areas as capital investment, capital structure, working capital management, and financing the firm. The student is also introduced to bond and stock valuation and to the role of global financial markets including regulatory aspects. Prerequisite: Econ 2000 and Acct 2000. This course is offered during the fall semester.

4000 Advanced Finance (4 sem. hours). An advanced course in corporate finance. Selected topics include working capital management, risk analysis in capital budgeting, financing, mergers and acquisitions, international financial markets, derivative financial instruments, and capital market theory. Cases and projects are used in the course. Prerequisite: Finance 3000.

4900 Seminar in Portfolio Management (4 sem. hours). An advanced course in portfolio management and investments. The course focuses on management of the General Louis Wilson Fund, the student managed portfolio. Analysis of securities and portfolio management are emphasized in the course. The course requires readings, cases, field trips, projects, student research, and presentation. Prerequisite: Finance 3000.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Management

2000 International Business - Latin America (4 sem. hours). This is an intense course that requires students to travel and live in Latin America for at least a two week period. Students are required to assess and understand geographic, environmental, economic, social-cultural, political, and legal factors that impact the business environment of Latin America. The course includes six hours of formal classroom instruction at Millsaps College before departure for the region and an additional 38 hours of classroom instruction once in the region. In addition to the classroom instruction, the course provides experiential learning

opportunities by requiring students to participate in fieldtrips that expose them to the history and culture of the region as well as to various leaders of business, industry, and government.

3000 Introduction to Management (4 sem. hours). Provides an introduction to the arts and sciences of management. Theories of organization structure, communication, and managerial decision making are addressed. Particular emphasis is given to organization behavior. Additionally, a detailed analysis is made of the planning, organizing, leading, and controlling functions. Prerequisite: Junior standing. **This course is offered during the fall semester.**

4000 Business Strategy (4 sem. hours). Takes a searching look at the major components of strategy from an upper-level management perspective. Using case studies and simulations, this course provides a learning laboratory which integrates the knowledge and skills learned in the core courses of each function. Prerequisite: Admin 4000 and all four junior-level B.B.A. core courses. **This course is offered during the spring semester.**

4010 International Business (4 sem. hours). Focuses on issues and problems facing managers whose firms do business abroad. The strategic issues, operational practices, and external relations of multinational companies are analyzed through cases that bridge individual functional areas. Prerequisite: Junior-level B.B.A. core courses.

4020 Human Resource Management (4 sem. hours). This course addresses contemporary human resource challenges arising out of the social, economic, and governmental environments in which organizations operate. Topics include the changing role of the human resource department in organizations, building and developing a competent workforce, issues in international human resource management, cultural diversity in the work place, and the changing nature of labor relations.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Management Information Systems

3010 Management Information Systems (4 sem. hours). This course focuses on breadth of coverage rather than depth in any particular area. The topics covered include the strategic role of IT, discussion of MIS specific computer hardware and applications, managing IT-related organizational change, systems development and outsourcing, and the Internet and electronic commerce. Prerequisites: Junior standing or permission of the instructor.

3020 E-Commerce (4 sem. hours). Course will explore the E-Commerce concept in the computer lab with focus on its business processes, opportunities, limitations, issues, and risks. Modules on creating web pages, working with XML, and web programming with Java will be included. Prerequisites: Computer Science 1010 or equivalent and at least junior standing.

3110 Business Networks and the Internet (4 sem. hours). Provides those responsible for technology management, strategic planning, and various aspects of organizational management with an understanding of networking, electronic communications, and the internet. Topics will be covered from the management perspective and will include LAN, WAN, hubs, servers, various systems configurations, and Internet technologies with emphasis on implications for management. Prerequisites: Junior standing.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Marketing

3000 Fundamentals of Marketing (4 sem. hours). Consideration of pricing, promoting, and distributing products and services to satisfy buyers' needs in an ethical and socially responsible manner, with particular attention to the impact of demographic, economic, social, environmental, political, legal, regulatory, and technological forces on domestic and global organizational marketing systems. Prerequisite: Econ 2000 and at least junior standing. **This course is offered during the spring semester.**

4010 Consumer Behavior (4 sem. hours). This course studies the process involved when individuals or groups select, purchase, use, or dispose of products, services, ideas, or experiences to satisfy needs and desires. To consider the scope of consumer behavior, the course emphasizes the complex and interdependent relationships between marketing stimuli and the day-to-day lives of consumers. Prerequisite: Marketing 3000.

4020 Marketing Research (4 sem. hours). The course imparts an understanding of and the skills to apply the methods and techniques required for gathering, recording, and analyzing information for making marketing decisions. Prerequisites: Marketing 3000.

4030 New Product Development (4 sem. hours). The object of this course is to familiarize the student with applications of relatively recent new product management, planning, and policy techniques. Particular emphasis is placed on creative problem-solving, business analysis for new products, test marketing, and introduction. Prerequisite: Marketing 3000.

4040 Sales Force Management (4 sem. hours). This course studies the systems necessary for planning, organizing, directing, and controlling the efforts of a sales force; develops the concepts and heuristics to formulate and implement a strategic sales program; explores the body of sales management literature; and considers other topics in sales force management, including external issues. Prerequisite: Marketing 3000.

Special Purpose Course Numbers

4750-4753 Special Topics (1 - 4 sem. hours).

4800-4803 Independent Studies (1 - 4 sem. hours).

4850-4853 Internship (1 - 4 sem. hours).

Quantitative Management

3000 Operations Management (4 sem. hours). The course introduces managerial decision-making tools for manufacturing and service organizations from an information systems perspective. Suggested coverage includes decision-making, quality management, statistical quality control, product and service design, supply chain management, project management, forecasting, capacity and aggregate planning, inventory management, simulation, materials requirements planning, and application design using advanced spreadsheets and macros. Prerequisite: Math 1150 and junior standing. **This course is offered during the spring semester.**

4010 Applications of Artificial Intelligence (4 sem. hours). The course focuses on the basics of expert systems and neural networks with emphasis on developing useful business

applications. Expert system shell(s) and neural network development software is used extensively in the course.

4020 Quantitative Management in Spreadsheets (4 sem. hours). The course uses spreadsheets as the medium for teaching quantitative management concept. Coverage includes modeling, simulation, forecasting, decision analysis, Markov analysis, and optimization. Computers are used extensively throughout the course.

Special Purpose Course Numbers

4750-4752 Special Topics (1 - 4 sem. hours).

4800-4802 Independent Study (1 - 4 sem. hours).

4850-4852 Internship (1 - 4 sem. hours).

Economics

2000 Principles of Economics (4 sem. hours). This course investigates examination of basic micro and macro concepts of economics including the role of economics, supply and demand, price determination, demand and production theory, costs, competition, monopoly, the role of government in the economy, national income determination, the monetary system, and fiscal and monetary policy. Prerequisites: Sophomore standing is required. Survey of Calculus or Calculus I is recommended. **This course is offered during the fall semester.**

2200 Economic Policy Issues (4 sem. hours). This course investigates various aspects of public policy regarding economic issues. Both macro and micro policy issues may be considered (This course is the same as Political Science 2200). Prerequisites: Economics 2000 and sophomore standing.

3000 Intermediate Macroeconomic Theory (4 sem. hours). This course studies the measurement of and determination of the level of national income and output, aggregate demand and supply, inflation, unemployment, the theory of money and interest rates, the causes of economic cycles, and national economic policy analysis. Prerequisite: Economics 2000 and at least junior standing.

3010 Intermediate Microeconomic Theory (4 sem. hours). This course examines price and output determination in markets, equilibrium, market intervention, externalities, the theory of value, production and cost theory, resource markets, and welfare and policy implications. Prerequisite: Economics 2000 and at least junior standing or consent of instructor.

3020 Money and Financial Systems (4 sem. hours). This course is a survey of both the micro economic and macroeconomic aspects of financial systems, including market structure, behavior, and regulation of commercial banks and other financial intermediaries; the creation of money; central bank organization and monetary control; and policy issues. Prerequisite: Economics 2000 and at least junior standing.

3030 Econometrics and Applied Statistics (4 sem. hours). This course involves a study of the general linear regression model and the considerations associated with using that technique. Prerequisite: Economics 2000, Elementary Statistics, or consent of instructor and at least junior standing.

3040 International Economics (4 sem. hours). This course extends and applies economic theory to international issues with an examination of world money markets, exchange rates,

adjustment mechanisms, and issues. Prerequisite: Economics 2000 and at least junior standing or permission of instructor.

3050 Health Economics (4 sem. hours). This course provides an introduction to the micro-economics of health, health care, and health policy. Its main goals are to apply economic principles to health related issues; to explain the social, political, and economic contexts of health care delivery; to explore the changing nature of health care; and to analyze public policy from an economic perspective. Prerequisite: At least junior standing and Economics 2000.

3060 Quantitative Methods (4 sem. hours). This course examines analytical and statistical tools useful in economic decision making. Topics will include data collection, data analysis, advanced econometric models, and the communication of quantitative thinking. Additional topics may include constrained optimization and simulations. Prerequisite: Econometrics/Applied Statistics 3030 and Math 1150.

3070 Industrial Organization (4 sem. hours). The course addresses imperfectly competitive markets. Emphasis is on the structure, behavior, and performance of and public policy toward markets in which power is concentrated in the hands of a few firms. Prerequisite: Economics 2000 and at least junior standing.

3110 History of Economic Thought (4 sem. hours). This course traces the development of economic thought from the classical school to the present time. Prerequisite: Economics 2000 and at least junior standing.

3120 Labor Economics (4 sem. hours). This course examines the organization, functioning, and outcomes of labor markets. Topics include wage and employment determination, labor market discrimination, the economic impacts of unions, the worker's investment in human capital, and the effects of regulation on firms and workers. Emphasis is placed on the compensation and incentives of workers. Prerequisite: Economics 2000 and at least junior standing.

4901 Senior Thesis I (1 sem. hour). This is a research course and is the initial preparation of a thesis on an approved topic in Economics that will be used as a part of the comprehensive examination for Economic Majors. Prerequisite: Senior standing, Economics 3000, and Economics 3010.

4902 Senior Seminar in Economics (2 sem. hours). This course includes discussion of selected topics in economics. Prerequisite: Senior standing, Economics 3000, and Economics 3010.

4911 Senior Thesis II (1 sem. hour). This is a research course in which the student concludes research begun in Economics 4901. It involves the final preparation of a thesis on an approved topic in Economics that will be used as a part of the comprehensive examination for Economic majors. Prerequisite: Senior standing and Economics 4901.

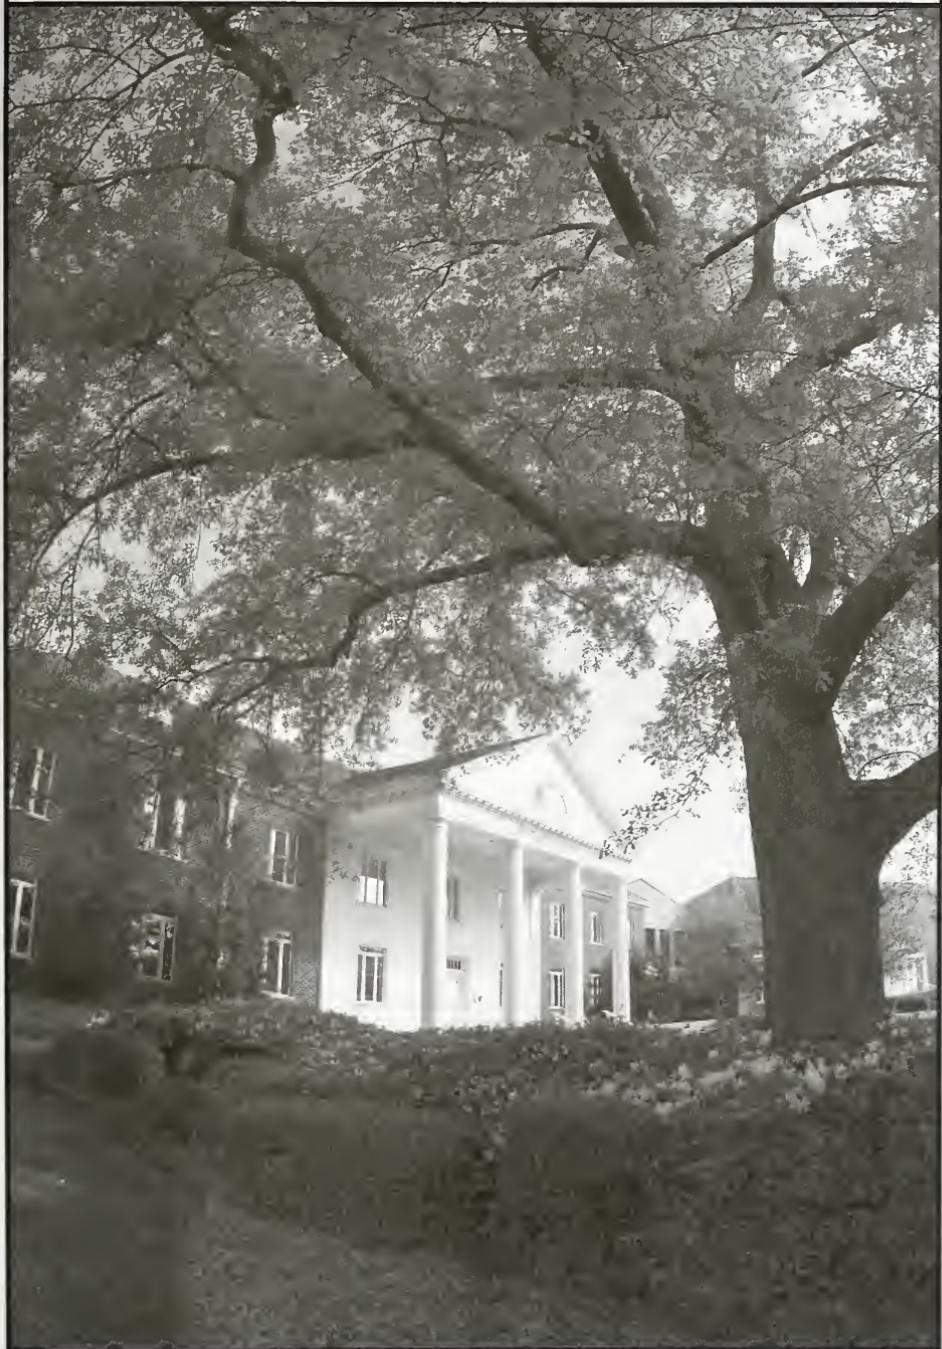

Special Purpose Course Numbers

4750-4752 Special Topics (1 - 4 sem. hours).

4800-4802 Independent Study (1 - 4 sem. hours).

4850-4852 Internship (1 - 4 sem. hours).

The College Faculty

Emeriti Faculty

John Quincy Adams (1965)
Emeritus Professor of Political Science
B.A., Rice University; M.A., University of Texas, El Paso; J.D., University of Texas, Austin

McCarrell L. Ayers (1965)
Emeritus Associate Professor of Music
B.M., Eastman School of Music, University of Rochester; M.M., Indiana University

Richard Bruce Baltz (1966)
Emeritus Professor of Economics
A.A., Belleville Jr. College; B.B.A., M.S., Baylor University; Ph.D., University of Arkansas

Howard Gregory Bavender (1966)
Emeritus Professor of Political Science
A.B., College of Idaho; M.A., University of Wisconsin

Roy Alfred Berry Jr. (1962)
Emeritus Professor of Chemistry
B.S., Mississippi College; Ph.D., University of North Carolina

Frances Blissard Boeckman (1966)
Emerita Instructor, Catalog Librarian
A.B., Belhaven College; A.M., Mississippi College; M.L.S. University of Mississippi

Billy Marshall Bufkin (1960)
Emeritus Professor of Modern Languages
A.B., A.M., Texas Technological College

C. Leland Byler (1959)
Emeritus Professor of Music
A.B. Goshen College; M.M. Northwestern University

Charles Eugene Cain (1960)
Emeritus Professor of Chemistry
B.S., University of North Carolina; A.M., Ph.D., Duke University

Frances Heidelberg Coker (1967)
Emerita Professor of Sociology
B.A., Millsaps College; M.S.T., Illinois Institute of Technology

J. Harper Davis (1964)
Emeritus Professor of Physical Education
B.S., M.Ed., Mississippi State University

Kathleen A. Drude (1986)
Emerita Professor of Mathematics
B.S., Southern Louisiana University; M.A., Ph.D., University of Mississippi

George Harold Ezell (1967)
Emeritus Professor of Chemistry
B.S., Mississippi College; M.S., Florida State University; Ph.D., University of Mississippi

John Lemuel Guest (1957)
Emeritus Professor of German
A.B., University of Texas; A.M., Columbia University

Floreada Montgomery Harmon (1972)
Emerita Professor and Librarian
A.B., Tougaloo College; M.S.L.S., Louisiana State University

George Harmon (1978)
President Emeritus
B.A., Southwestern at Memphis; M.B.A., Emory University; D.B.A., Harvard University

Nellie Khayat Hederi (1952)
Emerita Professor of Spanish
A.B., Mississippi State College for Women; A.M., Tulane University

Donald D. Kilmer (1960)
Emeritus Associate Professor of Music
B.M., M.M., Indiana University

Samuel Roscoe Knox (1949)
Emeritus Professor of Mathematics
A.B., A.M., University of Mississippi; Ph.D., Virginia Polytechnic Institute

Russell Wilford Levanway (1956)
Emeritus Professor of Psychology
A.B., University of Miami; M.S., Ph.D., Syracuse University

Thomas Wiley Lewis III (1959)
Emeritus Professor of Religion
A.B., Millsaps College; B.D., Southern Methodist University; Ph.D., Drew University

Herman L. McKenzie (1963)
Emeritus Professor of Mathematics
B.S., Millsaps College; M.Ed., M.S., University of Mississippi

Lucy Webb Millsaps (1969)
Emerita Associate Professor of Art
B.F.A., Newcomb College; M.A., University of Mississippi

Michael H. Mitias (1967)
Emeritus Professor of Philosophy
A.B., Union College; Ph.D., University of Waterloo

Caroline H. Moore (1968)
Emerita Instructor, Order Librarian
A.B., Randolph-Macon Woman's College; A.M., Radcliffe College

Robert H. Padgett (1960)
Emeritus Professor of English
A.B., Texas Christian University; A.M., Vanderbilt University

James F. Parks Jr. (1969)
College Librarian Emeritus
A.B., Mississippi College; M.L.S., Peabody College

Lee H. Reiff (1960)
Emeritus Professor of Religion
A.B., B.D., Southern Methodist University; M.A., Ph.D., Yale University

Harrylyn G. Sallis (1981)
Dean Emerita of Adult Learning
B.M., Southwestern at Memphis; M.M., University of Kentucky; Ph.D., University of Mississippi

W. Charles Sallis (1981)
Emeritus Professor of History
B.S., M.S., Mississippi State University; Ph.D., University of Kentucky

Jonathan Mitchell Sweat (1958)
Emeritus Professor of Music
B.S., M.S., The Juilliard School of Music; A.Mus.D., University of Michigan

Edmond R. Venator (1967)
Emeritus Professor of Psychology
A.B., University of Buffalo; Ph.D., Emory University

Jerry D. Whitt (1980)
Emeritus Professor of Management
B.B.A., M.B.A., North Texas State University; Ph.D., University of Arkansas

Faculty

Ajay K. Aggarwal (1989)
Associate Professor of Quantitative Management
B.Tech., Indian Institute of Technology; M.S., M.B.A., Ph.D., Virginia Polytechnic Institute and State University

Theodore Gerald Ammon (1985)
Associate Professor of Philosophy
B.A., Mississippi State University; M.A., Ph.D., Washington University

Miguel B. Arellano (2001)
Assistant Professor of Mathematics
B.A., Cornell College; M.S., Mississippi State University, Ph.D. Candidate, Mississippi State University

Sarah L. Armstrong (1985)
Professor of Biology
B.A., University of Texas; M.A., University of California at Los Angeles; Ph.D., Duke University

Tammy Y. Arthur (2002)
Assistant Professor of Management
B.S., University of Southern Mississippi; M.B.A., Millsaps College; Ph.D., Mississippi State University

Jeffrey C. Asmus (1993)
Associate Professor of Art
B.F.A., Birmingham-Southern College; M.F.A., Louisiana State University

Loye B. Ashton (2003)
Assistant Professor of Religious Studies
B.A., Montana State University; Master of Theological Studies, Boston College, Ph.D. Candidate, Boston College

Diane F. Baker (1997)
Associate Professor of Management

B.S., Concordia College; M.B.A., Ph.D., University of Oklahoma

William H. Bares (2003)
Assistant Professor of Computer Science
B.S., University of Southwestern Louisiana; M.S., Ph.D., North Carolina University

Elizabeth A. Beck (1997)
Assistant Professor, Librarian
B.A., University of South Alabama; M.L.S., University of Southern Mississippi

Jesse D. Beeler (1994)
Professor of Accounting
Hyman F. McCarty Jr. Chair of Business Administration
B.S., M.B.A., Southwest Missouri State University; Ph.D., University of Texas, Arlington

George James Bey III (1990)
Associate Professor of Sociology and Anthropology
B.A., University of New Mexico; M.A., Ph.D., Tulane University

Stephen T. Black (1989)
Associate Professor of Psychology
B.A., University of California at Santa Barbara; M.Ph.D., University of California at Santa Cruz

James E. Bowley (2002)
Associate Professor of Religion
B.A., Grace College; M.Phil., Ph.D., Hebrew Union College

W. Randy Boxx (1999)
Professor of Management
B.S., M.B.A., University of Southern Mississippi; Ph.D., University of Arkansas

Christopher N. Bratcher (2000)
Assistant Professor of Political Science
B.A., University of the South; Ph.D., University of Texas at Austin

Bill M. Brister (1989)
Assistant Professor of Finance
B.S., M.B.A., University of Southern Mississippi; Ph.D., University of Arkansas

Carl G. Brooking (1981)
Professor of Economics and Quantitative Management
B.S., Millsaps College; M.S., Ph.D., University of Pennsylvania

Kristen M. Brown (1995)
Associate Professor of Philosophy

B.A., Stanford University; M.A., Ph.D., Vanderbilt University

Kimberly G. Burke (1995)

Associate Professor of Accounting

Kelly Gene Cook Chair of Business Administration

B.B.A., M.S., Texas Tech University; Ph.D.,

Oklahoma University

Connie M. Campbell (1992)

Associate Professor of Mathematics

B.A., Huntingdon College; M.S., Ph.D., University

of Mississippi

Claudine Chadeyras (1988)

Assistant Professor of French

Licence, Université de Picardie, France; M.A., Ph.D., University of Iowa

Cheryl W. Coker (1987)

Assistant Professor of Music

B.M.Ed., M.M., University of Southern Mississippi;

D.M.A., University of Minnesota

Timothy C. Coker (1984)

Professor of Music

B.M., M.M., Ph.D., University of Southern

Mississippi

David H. Culpepper (1984)

Professor of Accounting

B.S., Belhaven College; B.S., M.B.A., Millsaps

College; Ph.D., University of Alabama

Gayla F. Dance (1989)

Assistant Professor of Mathematics

B.A., University of Texas; M.Ed., Texas A. & M.

University; M.S., Mississippi College

David C. Davis (1988)

Associate Professor of History

B.A., William Carey College; M.A., Baylor

University; Ph.D., Northwestern University

Priscilla M. Fermon (1983)

Associate Professor of French

B.A. Lehman College; M.A., Harvard University;

Ph.D., University of Virginia

Ramon A. Figueroa (2002)

Assistant Professor of Spanish

B.A., University of Massachusetts; M.A., Ph.D.,

University of Minnesota

Harvey L. Fiser (2003)

Assistant Professor of Business Law

B.A., Mississippi State University; J.D., Mississippi

College School of Law

Amy W. Forbes (2001)

Assistant Professor of History

B.A., Louisiana State University; M.Ed., M.A.,

University of Georgia; Ph.D., Rutgers University

M. Blakely Fox (2000)

Assistant Professor of Economics

B.A., Millsaps College; M.S., Ph.D., University of

Texas at Austin

Laura E. Franey (1999)

Assistant Professor of English

B.A., University of California, San Diego; M.A.,

Ph.D., University of California, Los Angeles

Veronica G. Freeman (2000)

Assistant Professor of German

B.A., Eckerd College; M.A., Ph.D., University of

Florida

Catherine R. Freis (1979)

Professor of Classics

B.A., Brooklyn College; M.A., Ph.D., University of

California at Berkeley

Michael L. Galaty (1999)

Assistant Professor of Anthropology

B.A., Grinnell College; M.A., Ph.D., University of

Wisconsin

Stanley J. Galicki (2001)

Assistant Professor of Geology

B.S., Wittenberg University; M.S., University of

Memphis; Ph.D., University of Mississippi

Delbert E. Gann (1982)

Associate Professor of Geology

B.S., University of Missouri, Kansas City; M.S.,

Northeast Louisiana University; Ph.D., Missouri

School of Mines and Metallurgy

Paula K. Garrett (1996)

Assistant Professor of English and American Studies

B.S., M.A., Baylor University; Ph.D., Louisiana State

University

Regina Gee (2003)

Assistant Professor of Art

B.A., M.A., Vanderbilt University; Ph.D. Candidate,

University of Texas at Austin

Michael Gleason (1994)

Associate Professor of Classics

A.B., A.M., Ph.D., Brown University

Roane Grantham (2002)

Instructor of Accounting

B.Acc., University of Mississippi; M.B.A., Millsaps

College

Eric J. Griffin (1998)
Associate Professor of English
B.A., Pomona College; M.A., Ph.D., University of Iowa

Michael Ray Grubbs (1987)
Professor of Management
B.S., Millsaps College; M.B.A., Mississippi College; Ph.D., University of Mississippi

John A. Grummel (2003)
Assistant Professor of Political Science
B.A., San Jose State University; M.A.T., College of Notre Dame; M.A., San Francisco State University; Ph.D., Kent State University

Mark A. Hamon (2003)
Assistant Professor of Chemistry
B.S., Northern Kentucky University; Ph.D., Candidate, University of Kentucky

James B. Harris (1995)
Associate Professor of Geology
B.S., Eastern Kentucky University; B.S., University of Houston; M.S., Ph.D., University of Kentucky

Thomas W. Henderson (1997)
Associate Professor, Librarian
B.A., University of Southern Mississippi; M.S., Florida State University

Dick R. Highfill (1981)
Associate Professor of Biology
A.B., M.A., University of California at San Jose; Ph.D., University of Idaho

Patrick Hopkins (2000)
Assistant Professor of Philosophy
B.A., University of Mississippi; M.A., Ph.D., Washington University

Robert J. Kahn (1976)
Associate Professor of Romance Languages
B.A., State University of New York at Buffalo; M.A., Middlebury College; Ph.D., Pennsylvania State University

Melissa K. Kelly (2003)
Assistant Professor of Psychology
B.A., B.S., University of Washington; A.M., Ph.D., University of Illinois, Urbana-Champaign

Asif Khandker (1985)
Associate Professor of Physics
B.S., University of Dacca (Bangladesh); M.S., Southern Illinois University; Ph.D., Louisiana State University

Wolfgang H. Kramer (2003)
Assistant Professor of Chemistry
Candidate Chemist, M.S., Ph.D., University of Cologne

Brent W. Lefavor (1983)
Associate Professor of Technical Theatre
B.A., M.A., Brigham Young University; M.F.A., University of Southern Mississippi

L. Lee Lewis (2002)
Assistant Professor of Chemistry
B.A., B.S., Mississippi College; Ph.D. Candidate, University of Southern Mississippi

Frances Lucas (2000)
Professor of Education
B.A., Mississippi State University; M.A., Ph.D., University of Alabama at Tuscaloosa

Mark J. Lynch (1989)
Associate Professor of Mathematics
B.S., Millsaps College; Ph.D., Louisiana State University

Anne C. MacMaster (1991)
Associate Professor of English
B.A., Rice University; M.A., Ph.D., University of Virginia

Larry E. Madison (1999)
Assistant Professor, Librarian
B.S., Troy State University; M.L.I.S., University of Southern Mississippi

Debora L. Mann (1993)
Assistant Professor of Biology
B.A., University of Miami; M.S., Vanderbilt University; Ph.D., Clemson University

Suzanne Marrs (1988)
Professor of English
B.A., Ph.D., University of Oklahoma

Allison P. Mays (1999)
Assistant Professor, Librarian
B.A., Rhodes College; M.L.S., Indiana University

Robert W. McCarley (1984)
Assistant Professor of Computer Science
B.A., Millsaps College; M.Ed., Mississippi State University

Robert S. McElvaine (1973)
Elizabeth Chisholm Professor of History
B.A., Rutgers University; M.A., Ph.D., State University of New York at Binghamton

Sarah Lea McGuire (1995)
Associate Professor of Biology
B.A., Mississippi College; M.S., University of Southern Mississippi; Ph.D., Baylor College of Medicine

James Preston McKeown (1962)
Professor of Biology
B.S., University of the South; M.A., University of Mississippi; Ph.D., Mississippi State University

Jeanne M. Middleton-Hairston (1978)
Professor of Education
B.A., Millsaps College; M.Ed., Ed.D., Harvard University

David Gregory Miller (1991)
Professor of English
B.A., Vanderbilt University; M.A., Stanford University; Ph.D., University of California at Berkeley

Elizabeth W. Moak (1996)
Associate Professor of Music
B.M., M.M., Peabody Conservatory of Johns Hopkins; Artist's Diploma, Conservatoire de Musique; D.M.A., Peabody Conservatory of Music

Julian M. Murchison (2001)
Assistant Professor of Anthropology
B.A., Kenyon College; M.A., University of Michigan, Ph.D. Candidate, University of Michigan

Walter P. Neely (1980)
Professor of Finance
B.S., M.B.A., Mississippi State University; Ph.D., University of Georgia

Robert B. Nevins (1967)
Associate Professor of Biology
A.B., Washington University; M.S., University of Missouri

Iren Omo-Bare (1990)
Associate Professor of Political Science
B.A., M.A., University of Delaware; Ph.D., Louisiana State University

Joseph J. Palen (2001)
Assistant Professor of Mathematics
B.A., University of Rochester; M.A., Ph.D., University of Michigan

Kevin P. Pauli (2000)
Assistant Professor of Management Information Systems
B.B.A., University of Alaska; M.B.A., Ph.D., University of Nebraska

Raymond A. Phelps II (1980)
Associate Professor of Marketing
A.A., University of Florida; B.B.A., M.B.A., Georgia State University; D.B.A., Louisiana Tech University

Penelope J. Prenshaw (1994)
Associate Professor of Marketing
Selby and McRae Chair of Business Administration
B.S., M.B.A., University of Southern Mississippi; Ph.D., University of Houston

Jimmie M. Purser (1981)
Professor of Chemistry and Computer Science
B.S., Millsaps College; Ph.D., University of North Carolina

H. Lynn Raley (2002)
Assistant Professor of Music
B.M., Southern Methodist University; M.M., University of Cincinnati; D.M.A., Rutgers University

Darby K. Ray (1996)
Associate Professor of Religious Studies
B.A., University of the South; M.A., Ph.D., Vanderbilt University

Ruth Conard Schimmel (1990)
Associate Professor of Education
B.A., Vanderbilt University; M.A., San Francisco State University; Ph.D., University of California at Berkeley

Donald R. Schwartz (1997)
Associate Professor of Computer Science
B.S., M.S., Ph.D., University of Southwestern Louisiana

Robert A. Shive Jr. (1969)
Professor of Mathematics and Computer Science
B.A., M.S., Southern Methodist University; Ph.D., Iowa State University

Molly J. Signs (2001)
Assistant Professor, Systems Librarian
B.A., M.S., University of Washington

Elise L. Smith (1988)
Professor of Art History
B.A., Florida State University; M.A., Vanderbilt University; Ph.D., University of North Carolina

Richard A. Smith (1997)
Professor of Political Science
A.B., Whittier College; M.A., Ph.D., University of Rochester

Steven Garry Smith (1985)
Professor of Philosophy and Religion
B.A., Florida State University; M.A., Vanderbilt University; Ph.D., Duke University

Sandra Smithson (1999)
Assistant Professor of Art
B.A., Alfred University; M.F.A., Louisiana State University

Gina Sorci (2002)
Assistant Professor of Physics
B.S., M.S., University of New Orleans; Ph.D., Tulane University

Kristina L. Stensaas (1997)
Associate Professor of Chemistry
B.A., Ph.D., University of Wyoming

William K. Storey (1999)
Assistant Professor of History
A.B., Harvard University; M.A., Ph.D., The Johns Hopkins University

Tracy L. Sullivan (1993)
Instructor of Mathematics
B.A., M.S., University of Mississippi

Holly M. Sypniewski (2002)
Assistant Professor of Classics
B.A., University of Cincinnati; M.A., Ph.D., University of Wisconsin

Patrick A. Taylor (1984)
Associate Professor of Economics
B.B.A., University of Mississippi; M.B.A., Ph.D., University of Alabama

Susan W. Taylor (1992)
Associate Professor of Economics
J. Armistead Brown Chair of Business Administration
B.A., B.S., Blue Mountain College; M.S., Ph.D., Louisiana State University

Kristen A. Tegtmeier (2000)
Assistant Professor of History
B.A., Cornell College; M.A., State University of New York; Ph.D., University of Texas

A. Kurt Thaw (1998)
Assistant Professor of Psychology
B.S., Georgia Southern University; M.S., Ph.D., Florida State University

Ming Tsui (1992)
Associate Professor of Sociology
B.A., Honan Teacher's University, China; M.A.,

Ph.D., State University of New York at Stony Brook

Marlys T. Vaughn (1979)
Professor of Education
B.S., M.Ed., Mississippi State University; Ph.D., University of Southern Mississippi

Eugene Vinson (2001)
Assistant Professor of Education
B.S., University of Southern Mississippi; M.Ed., Mississippi College; Ed.D., University of Southern Mississippi

Timothy Joseph Ward (1990)
Professor of Chemistry
B.S., University of Florida; Ph.D., Texas Tech University

Sanford D. Warren (1995)
Instructor of Accounting
B.S., M.B.A., University of Southern Mississippi

Leon Austin Wilson (1976)
Associate Professor of English
A.B., Valdosta State College; M.A., University of Georgia; Ph.D., University of South Carolina

Sanford C. Zale (1995)
Associate Professor of History
B.S.E.S., Georgetown University; M.A., Ph.D., Ohio State University

Staff

Office of the President

Frances Lucas, B.A., M.A., Ph.D. (2000)
President
